Fund merger for TM Oberon UK Special Situations (Share Class I)

I am writing to you because you are invested in the TM Oberon UK Special Situations (Share Class I) fund, provided by Thesis Unit Trust Management Limited.

Thesis has informed us that the TM Oberon UK Special Situations (Share Class I) fund will merge into the TM Oberon UK Special Situations (Share Class A) fund on **30 January 2026**. You'll see the new fund on your valuations and statements after that date.

The merger is subject to shareholder approval. If it isn't approved, we will write to let you know.

The last date we can sell from the fund before the merger will be 11:00 on 29 January 2026.

You may want to speak to your financial adviser about the impact of the merger. Please speak to them before making any investment decisions, or if you have any questions about this change.

If you don't have a financial adviser, we recommend that you consider the benefits of receiving professional financial advice, which can be especially important when you need to make investment decisions. If you would like to search for an adviser in your area you can start by visiting [quilter.com/financial-advice/find-an-adviser](https://www.quilter.com/financial-advice/find-an-adviser).

How the merger will affect your account

- **The value of your fund holding** – The merger will not affect the value of your fund holding.
- **Direct Debits** – If you are paying into the fund by Direct Debit:
 - 1) payments up to and including 29 January 2026 will be allocated to the TM Oberon UK Special Situations (Share Class I) fund.
 - 2) any payments which are due to be collected whilst the merger is taking place will buy units proportionally across the other assets in your Direct Debit instruction. If the merging fund is the only fund in your instruction, those payments will be allocated to cash. They will stay in cash unless you choose to switch them to another asset in future.
 - 3) payments after the merger will be allocated to the TM Oberon UK Special Situations (Share Class A) fund.
- **Phased investment** – Instructions using the fund will automatically continue after the merger. Unless you give us an alternative choice, future transactions will be reapportioned across the other assets in your instruction, or cash if the merging fund is the only fund in your instruction.
- **Treasured assets** – if you have treasured the fund to be excluded when deducting units to meet certain scheduled payments from your account (for example charges and ongoing adviser fees), this arrangement will stop. You can arrange to treasure different assets by providing us with a new treasured asset request form.

Cash may not be suitable for your long-term investment needs. If you're happy for the amount to stay in cash, you don't need to do anything. Alternatively, you can switch the cash into an alternative asset(s) from our extensive range. Your financial adviser can give us your switch instruction, or you can switch by logging into our online Customer Centre at [quilter.com/login](https://www.quilter.com/login) or by sending us a switch form in the post.

A note about cash in your account

We don't take any product or service charges on your cash balance (although the value is still included in the total value calculation for the charge). Instead, we pay you a rate of interest on cash in your account and we are paid by retaining a proportion of the interest we receive from our banking partners.

You can find more information, including the current interest rate payable and how much interest we retain, on our website at quilter.com/interest-on-cash.

- The merger **won't change the fund's risk profile**. You can see more information about the new fund in its Key Investor Information document, available online. Please note, it may not reflect the charges applicable when accessing the fund through us.
- **Ongoing Charge Figure (OCF) / Total Expense Ratio (TER)** - The OCF/TER will not change with the merger.

Fund managers apply an Annual Management Charge (AMC) for the investment management they provide. This is reflected within the daily price of the fund and not taken directly from your holdings.

The OCF/TER represents the ongoing charges for the fund, expressed as a percentage. It is the sum of the AMC and all other running costs of the fund. OCF is increasingly replacing the TER.

The table below shows the current and new AMC and OCF/TER of the fund.

	AMC %	OCF/TER %
Current	0.65	0.84
New	0.65	0.84

Please note that none of the changes detailed in this letter affect any charges made by Quilter.

Why the funds are merging

Oberon Investments Limited is currently the investment manager for both the merging and receiving funds.

As part of a fund rationalisation project, Thesis Unit Trust Management Limited conducted a review of the investment funds available to investors. Following this review (and in consultation with Oberon), they decided to consolidate all funds managed by Oberon within their fund range under the same umbrella structure. Thesis believe this consolidation will result in greater operational efficiencies.

The investment objectives are the same between the funds. Please see the below table detailing the investment objective of the merging and receiving funds.

The next steps and avoiding the merger

You do not need to take any action unless you would like to choose a new asset from our extensive range. You can switch your holding in the TM Oberon UK Special Situations (Share Class I) fund at any time up until **11:00 on 29 January 2026**. If you decide to switch into a new asset(s), please note that you will also need to update your asset choice for Direct Debit payments, if applicable.

If you have any questions about this letter, please speak to your financial adviser who will be able to help you. Alternatively, you can call or email us using the details shown and we will be happy to help. Our Customer Service Centre is open 8:30am – 5:30pm, Monday to Friday.

Yours sincerely,

Callum Earl

Head of Client Services

Fund objectives

TM Oberon UK Special Situations

Fund objective:

To achieve long-term (i.e. over 5 years) capital growth, net of fees by investing at least 80% of the value of its Scheme Property in shares listed on UK securities markets in companies that are incorporated or domiciled in the UK. These companies may or may not be headquartered in the UK and may or may not have a significant part of their business activities in the UK.

The Scheme Property will be invested in listed companies with any market capitalisation except that no more than 40% of the Scheme Property will be invested in: (i) small companies or (ii) companies listed on the Alternative Investment Market. A small company means a company with a primary listing on the London Stock Exchange whose market capitalisation is lower than that of the largest 350 companies by capitalisation which have their primary listing on the London Stock Exchange. In very broad terms, market capitalisation means the value of a company that is traded on the stock market.
