

Key Investor Information Document

This document provides you with key investor information about this fund. It is not marketing material. This information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Redwheel UK Value Fund is a sub-fund of Redwheel Funds SICAV | Class S GBP DIST (LU3272210785) | The management company is Carne Global Fund Managers (Luxembourg) S.A. ("Carne")

Objectives and Investment Policy

Objectives

To provide an income and capital return to investors by investing primarily in UK equity securities.

Investment Policy

The Sub-Fund will invest at least 80% of its assets in a concentrated range of equities issued by UK companies and equity related securities received through corporate action such as preference shares and rights. The Sub-Fund will typically hold investments in 25-45 companies. Even though the Investment Manager is not subject to an industry sector or market capitalisation bias when selecting the investments of the Sub-Fund, the Investment Manager will primarily focused on companies that have large and mid-capitalisation. The Sub-Fund may invest, up to 20% of its assets, in fixed and floating rate debt securities. The Sub-Fund focuses on companies that have certain 'value' characteristics. Value is assessed by looking at indicators such as cash flows, dividends and earnings to identify securities which the Investment Manager believes have

been undervalued by the market. The Sub-Fund promotes environmental and/or social characteristics and, as such, falls within the scope of article 8 of SFDR.

Benchmark

The Sub-Fund is actively managed and uses the FTSE All Share TR index for performance comparison purpose only. The deviation of the portfolio composition of the Sub-Fund from that of the comparator can be material.

Distribution Policy

This share class distributes income received from investments. Income is paid out to shareholders on a regular basis.

Minimum Recommended Holding Term

This fund is not suitable for investors with an investment plan of less than 5 years.

Dealing Frequency

Daily. Shares may be redeemed upon request.

Risk and Reward Profile

The risk and reward indicator

The indicator above illustrates the position of this fund and a standard risk/reward category scale. The category is chosen based on the volatility of returns over the past 5 years where available, otherwise simulated historical performance data was used and may not be a reliable indicator of the fund's future risk. The risk category shown is not guaranteed and may change over time. The lowest category does not mean 'risk free'.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

The indicator does not take into account the following risks of investing in this Fund:

Operational Risk

The fund's operations rely on third parties; therefore, there is a risk that the fund could suffer disruption or loss if a third party fails.

Liquidity Risk

Investments may suffer liquidity impairment which may affect the fund's ability to buy or sell a position, or in extreme circumstances, accurately value a position without accepting a significant decrease in expected value of an investment.

Credit Risk

An issuer of securities, or a trading counterparty, may be unable to meet its obligations when due. A default, downgrade or credit impairment may result in a significant or total loss of the investment.

Derivative Risk

Investments in the fund may include financial derivative instruments. Such instruments may be used to obtain, increase or reduce exposure to underlying assets and may create gearing; therefore their use may result in greater fluctuations of the Net Asset Value of the fund. The manager will ensure that the use of derivatives is consistent with the overall risk profile of the fund.

Currency and Foreign Exchange Risk

The fund's investments may be in currencies other than the fund's reference currency. In addition, share classes will be denominated in various currencies. Performance will therefore be affected by fluctuations between currencies.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it; these charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures, and in some cases you may pay less. For actual charges, you can consult your financial adviser.

The ongoing charges figure shown here is an estimate of the charges as the share class has not been priced for a full financial year. The fund's annual report for each financial year will include details on the exact charges made. The amount charged may vary from year to year.

More detailed information on charges, performance fees and how they are calculated can be found in the 'Management and Fund Charges' section of the prospectus.
