Baillie Gifford Global Alpha Paris-Aligned Fund - Class Z GBP Accumulation

Accumulation Shares - ISIN GB00BW2CXX17

This Fund is a sub-fund of Baillie Gifford UK & Balanced Funds ICVC which is an Investment Company with Variable Capital. Baillie Gifford & Co Limited is the Authorised Corporate Director of the Fund and is wholly owned by Baillie Gifford & Co.

Objectives and investment policy

Objective

- The Fund aims to outperform (after deduction of costs) the MSCI ACWI Index, as stated in sterling, over rolling five-year periods, and aims to have a carbon footprint that is lower than that of the MSCI ACWI EU Paris Aligned Requirements Index.

Policy

- The Fund will invest at least 90% in shares of companies anywhere in the world and in any sector, subject to the application of a quantitative and qualitative screening process.
- The purpose of the screening process is to ensure that the Fund invests in a way which is, in the Investment Adviser's opinion, in alignment with the Paris Climate Agreement by excluding carbon intensive companies that do not, or will not, play a role in the transition to a low-carbon future. More information regarding the screening process is included in the prospectus.
- The Fund will be managed to align the Fund's holdings with the goal of net zero emissions by 2050 or sooner, in line with global efforts to limit

warming to 1.5C ("net zero"). As part of this process, all portfolio companies are actively assessed and prioritised for engagement for their alignment with net zero on an ongoing basis.

- The Fund will be actively managed

Other Information

- You can sell some or all of your shares on any business day in the United Kingdom by contacting our Dealing Department by phone or post. Where properly completed documentation is received by post, shares will be sold at the next valuation point following receipt of the instruction.
- Income will be re-invested. No further shares will be purchased but the reinvestment will be reflected in the price of your existing accumulation shares. You are, however, deemed to have received the income for tax purposes.
- For further explanation and information see the investment objective and policy section of the Prospectus, which is available by contacting us.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within five years.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

- Market conditions can change rapidly and a fund in any rank can lose you your investment. The Fund is classified as above as it invests in company shares.
- As returns are not available for all of the past five years we've used the comparative index for the pre-launch period to calculate the indicator.
- The indicator does not take into account the following relevant material risks.
- The Fund is actively managed meaning the Investment Manager selects investments of their own choosing with the aim of achieving the Fund's objectives. This is done without seeking to replicate any index in either of performance or portfolio composition. This investment style, selecting companies with perceived greater long-term growth potential ahead of any short-term returns, in combination with the relative concentration of the Fund, may lead to prolonged periods of underperformance in certain market conditions, both in relation to the Fund's benchmark and in absolute terms.
- Over shorter time periods the Fund's share price can be volatile and returns can be much higher or lower than our five-year average target. There is no guarantee this objective will be achieved over any time period.
- The Fund's investment policy limits the type of companies it can hold. The Fund may have different returns from funds with no such restrictions.
- The Fund's measure of weighted average greenhouse gas intensity is at portfolio level. As such, the Fund may invest in single companies that are high emitters. Only those investments that have available data will be included in the calculation. Carbon data uses the methodology of only one provider and some data may be estimated.

- The limitations of third party data, which may be backward looking or estimated, may impact on the Funds ability to achieve any non-financial considerations.
- In adverse market conditions it may be difficult to sell investments held by the fund in a timely manner and their value may fall significantly. This could affect how much money you receive and even delay the selling of your shares if dealing in the Fund is suspended.
- Custody of assets involves a risk of loss if a custodian becomes insolvent or breaches duties of care.
- You could lose your investment due to global factors like natural disasters, pandemics, or through developments such as military conflict, or changes in government policies.
- Where possible, charges are taken from income. If insufficient, the rest will be taken from capital, reducing the capital value of the Fund.
- For a more detailed explanation of the risks, please see the "Risk Warnings" section of the prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

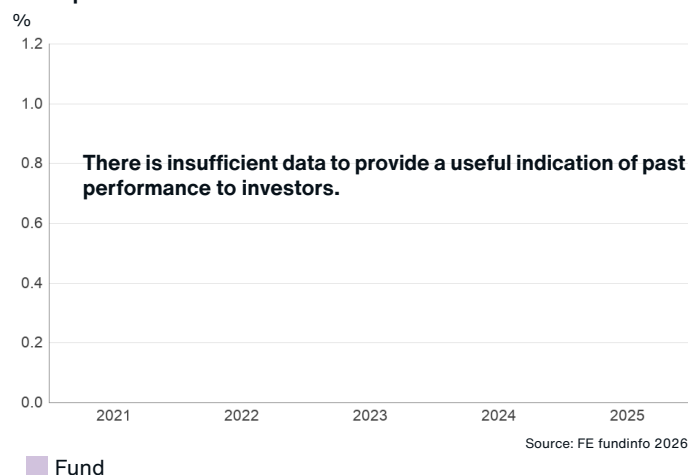

Ongoing charges	0.31%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	NONE
-----------------	------

The ongoing charges figure is estimated because the share/unit class is new and has insufficient track record for us to calculate it exactly. The ongoing charges figure may vary from year to year and will exclude the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).

Past performance

- Fund launch date: 15/04/2021.
- This share/unit class is not yet launched.
- There can be no guarantee that the Fund's performance will match or exceed the performance of the index.
