Family Linking request

– To be completed with a financial adviser

Please use this form:

- if you want to link investments for your clients with those of their family members to receive our 'Family Linking' benefit when we are calculating the Charge Basis 3 Product/Service Charge and all parties have the same financial adviser

We regularly update our forms; your financial adviser can confirm that this **December 2024** version is the latest by checking on our website [quilter.com](https://www.quilter.com)

Please do not use this form to:

- link a child's Collective Retirement Account or Junior ISA to the parent/guardian who is the registered contact on the CRA or JISA, because they will be automatically linked to the child's investment.
- request the Family Linking benefit if your client only has Charge Basis 1 or 2 investments. When you request to link investments on Charge Basis 3 to investments on Charge Basis 1 or 2, the Charge Basis 3 investment will benefit from the combined value of all of those investments for Family Linking, but the Investor Charge on the Charge Basis 1 or 2 investment will be unaffected.

| <input checked="" type="checkbox"/> Sibling | <input checked="" type="checkbox"/> Parent, step-parent, or parent in-law |

Please complete the family member's details in section 2A.

Other investments – You can also link the following types of investment:

► Where we say 'family members' below, we mean any family member shown in the list above.

- A trust, if the investor or their family member is the settlor of the trust.
- A Self Invested Personal Pension (SIPP) investing in a Collective Investment Account (CIA) if the investor or their family member is a member of the SIPP.
- A CIA held within an offshore bond, if the investor or their family member is the bond holder or settlor of the bond held in trust.
- A shareholder of a company investing through a CIA or CashHub account (CHB) (where all other shareholders are family members).

Please complete the investment details in section 2B.

How does the Family Linking benefit work?

- The rate of the Product/Service Charge reduces in stages as the total value of an investor's assets increases. When investments are linked, we use the combined value of all investments held by the linked investors to calculate the percentage rates for the Product/Service Charge they each pay.
- The Product/Service Charge only applies to investments held on Charge Basis 3. However, the value of any linked investments on Charge Basis 1 and 2, and savings held in the CashHub (powered by Bondsmith), will all be included in the combined value used to reduce the Product/Service Charge rate.
- Linking Charge Basis 1 and 2 investments does not convert them to Charge Basis 3 and they will remain subject to the Investor Charge.
- Once we accept the Family Linking request, we will link (usually within 10 working days) all investors detailed on this form who meet the eligibility criteria. Please ensure you provide the correct Customer References otherwise we will not be able to carry out the request.
- We will update the platform so that financial advisers can check that the Family Linking request has been carried out. The investor's regular statement will also show the number of investments that are linked and benefitting from Family Linking.
- We won't release to the investor or their family members the value or any information about their investments. Please see the declaration and notes in section 3 for more information.
