SUMMARY

Summary information on Quilter Investors OEIC is set out below and should be read in conjunction with the full text of this document, from which it is derived.

Structure: Quilter Investors OEIC (the “**Company**”) is an open-ended investment company incorporated as an investment company with variable capital with PRN 407805. It is a UK UCITS scheme for the purposes of that part of the Financial Conduct Authority’s Handbook of Rules and Guidance (“**FCA Rules**”) which deals with regulated collective investment schemes (the “**Sourcebook**”) and an umbrella scheme with 32 sub-funds, each referred to in this Prospectus as a “**Fund**”, and together referred to as “**Funds**”.

The 26 Funds available for investment are the Quilter Investors Absolute Return Bond Fund, Quilter Investors Asia Pacific (ex Japan) Equity Fund, Quilter Investors Asia Pacific (ex Japan) Large-Cap Equity Fund, Quilter Investors China Equity Fund, Quilter Investors Corporate Bond Fund, Quilter Investors Diversified Bond Fund, Quilter Investors Dynamic Bond Fund, Quilter Investors Emerging Markets Equity Fund, Quilter Investors Emerging Markets Equity Growth Fund, Quilter Investors Emerging Markets Equity Income Fund, Quilter Investors Europe (ex UK) Equity Fund, Quilter Investors Europe (ex UK) Equity Growth Fund, Quilter Investors Europe (ex UK) Equity Income Fund, Quilter Investors Global Equity Absolute Return Fund, Quilter Investors Global Equity Growth Fund, Quilter Investors Global Equity Value Fund, Quilter Investors Investment Grade Corporate Bond Fund, Quilter Investors Japanese Equity Fund, Quilter Investors Natural Resources Equity Fund, Quilter Investors Precious Metals Equity Fund, Quilter Investors Sterling Corporate Bond Fund, Quilter Investors Sterling Diversified Bond Fund, Quilter Investors Timber Equity Fund, Quilter Investors US Equity Growth Fund, Quilter Investors US Equity Income Fund and Quilter Investors US Equity Small/Mid-Cap Fund.

The Quilter Investors Unconstrained Bond Fund is not yet available for investment.

Quilter Investors Bond 3 Fund is in the process of being terminated and is no longer available for investment.

Collective investment schemes and segregated portfolios in which the Funds invest will be managed or advised by a continuously monitored range of specialist external fund managers.

The investment objective and policy of each Fund is as set out in the “Investment Objectives and Policies” section below.

Annual accounting date: 31 December.

Authorised Corporate Director (“ACD”): Quilter Investors Limited.

Base Currency: Pounds Sterling.

Business Day: for (i) the Quilter Investors Global Equity Absolute Return Fund, a day (excluding Saturdays and Sundays) on which banks and stock exchanges are open for business both in Dublin and in London; and (ii) all other Funds, any day on which the London Stock Exchange is open for normal business except for any day in respect of which the ACD has notified the Depositary that it is not open for normal business due to a concessionary company holiday or otherwise as agreed between the ACD and the Depositary.

CCP: a legal person that interposes itself between counterparties to the contracts traded on one or more financial markets, becoming the buyer to every seller and the seller to every buyer, as defined in article 2(1) of EMIR.

Constraining Benchmark: An index or similar factor that restricts the portfolio composition of a Fund.

Dealing Days and valuations: Regular valuations are made in respect of each Fund on each Dealing Day as at the valuation point for each Fund which will be at 12.00 noon (UK time). Each Business Day will constitute a “Dealing Day”. Shares will be dealt at a price determined at the valuation point after the request for shares is received. Therefore if a request is received after 12.00 noon on a Dealing Day

it will be dealt with at a price determined on the next Dealing Day's valuation point. A list of non-Dealing Days is available at www.quilter.com.

Distribution policy: For accumulation shares, all net income will be automatically accumulated after expenses and is reflected in the price of each accumulation share. Income accrued shall be calculated and accumulated as set out in the "Distribution and Accumulation" section.

Holders of income shares are entitled to be paid the income attributable to such shares. Income accrued shall be calculated and paid as set out in the "Distribution and Accumulation" section.

EEA State: a member state of the European Economic Area.

EEA UCITS scheme: a collective investment scheme established in accordance with the UCITS Directive in an EEA State.

Efficient Portfolio Management ("EPM"): an investment technique where derivatives are used for one or more of the following purposes: reduction of risk, reduction of cost or generation of additional capital or income at a level of risk which is consistent with the relevant Fund's risk profile and the risk diversification rules appearing in the FCA Rules.

EMIR: Regulation (EU) No 648/2012 on OTC derivatives, central counterparties and trade repositories (as amended by Regulation (EU) 2019/834 of the European Parliament and of the Council of 20 May 2019), as it applies in the UK by virtue of the EUWA.

ESG Sourcebook: the Environmental, Social and Governance sourcebook, which forms part of the FCA Rules.

EUWA: European Union (Withdrawal) Act 2018.

Feeder Fund: a UK UCITS scheme or a sub-fund of a UK UCITS scheme which has been approved by the FCA to invest at least 85% of its assets in the units in a single Master Fund. Quilter Investors Global Equity Absolute Return Fund is a Feeder Fund.

Investment Manager: Quilter Investors Platform Limited.

Master Fund: a UK UCITS Scheme, an EEA UCITS scheme or a sub-fund of such a scheme where: (a) at least one of its unitholders is a Feeder Fund; (b) it is not itself a Feeder Fund and (c) it does not hold units of a Feeder Fund. Jupiter Merian Global Equity Absolute Return Fund is the Master Fund in which Quilter Investors Global Equity Absolute Return Fund (being a Feeder Fund) invests and, as the context so requires, references to "**Master Fund**" shall include Jupiter Merian Global Equity Absolute Return Fund. Details of the Master Fund are set out under the sections headed 'Investment Objectives and Policies' and 'Master Fund Performance Fees' below.

Net Asset Value ("NAV"): The value of the scheme property of the Company (or of any Fund as the context requires) less the liabilities of the Company (or of the Fund concerned) as calculated in accordance with the instrument of incorporation constituting the Company as amended from time to time (the "**Instrument of Incorporation**").

Pricing: The prices of shares will be calculated as at the valuation point on each Dealing Day and will be on a forward basis. They will be published daily on the internet at www.quilter.com (except where the ACD is excused from the requirements to deal in the relevant shares) and will therefore be published on an historic basis. Prices are also available by telephoning 0808 100 3579.

PRN: The product reference number assigned by the Financial Conduct Authority to identify each authorised fund.

Shares: The share classes for each Fund, including the minimum investment limits, are set out in Appendix I.

SS&C: SS&C Financial Services International Limited and SS&C Financial Services Europe Limited (formerly known as DST Financial Services International Limited and DST Financial Services Europe Limited respectively).

Target Benchmark: An index or similar factor that forms part of a target for the Fund's performance to match or exceed.

UCITS Regulations: Directive 2009/65/EC, as amended (the "**UCITS Directive**"), including any relevant implementing measures, on the co-ordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities as such Directive and implementing measures apply in the UK and/or are incorporated in UK law and regulation from time to time.

UK: the United Kingdom.

UK UCITS scheme: a collective investment scheme established in the UK complying with the requirements of the UCITS Regulations.

Further details and explanations appear later in this document. Unless otherwise expressly provided, terms used in this Prospectus have the same meanings as in the Sourcebook.

QUILTER INVESTORS OEIC

THIS DOCUMENT IS IMPORTANT

If you are in any doubt as to the meaning of any information contained in this document, you should consult the ACD or your financial adviser.

This Prospectus is intended for distribution in the United Kingdom. Its distribution may be restricted in other countries. It does not constitute an offer or solicitation to anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the person making such offer or solicitation is not qualified to do so, or to anyone to whom it is unlawful to make such an offer or solicitation. Intending investors should inform themselves about and observe the legal requirements within their own countries for the acquisition of shares in the Company and any taxation or exchange control legislation affecting them personally, including the obtaining of any requisite governmental or other consents and the observation of any other formalities.

The shares have not been and will not be registered under the United States Securities Act of 1933, as amended. They may not be offered or sold in the United States of America, its territories and possessions, any state of the United States of America and the District of Columbia or offered or sold to US Persons. The Company has not been and will not be registered under the United States Investment Company Act of 1940, as amended. The ACD has not been registered under the United States Investment Advisers Act of 1940.

CONSTITUTION

Quilter Investors OEIC is an open-ended investment company with variable capital incorporated in England and Wales (number: IC000151) under The Open-Ended Investment Companies Regulations 2001 (the “**OEIC Regulations**”). The Company is a UK UCITS scheme for the purposes of the Sourcebook and an umbrella scheme. The head office of the Company is at Senator House, 85 Queen Victoria Street, London EC4V 4AB. The authorisation from the Financial Conduct Authority (the “**FCA**”) was made effective on 5 April 2002. The Company has an unlimited duration.

Each Fund of the Company will be invested in accordance with this Prospectus and the provisions of the Sourcebook applicable to a “**UK UCITS scheme**”. Subject to the terms set out in this Prospectus, holders of shares in a Fund are entitled to receive (or have accumulated) the net income derived from that Fund and to redeem their shares at a price linked to the value of the property of that Fund. Shareholders do not have any proprietary interest in the underlying assets of the Funds. The shareholders are not liable for the debts of the Funds.

The minimum size of the Company's capital is £1 and the maximum size is £100,000,000,000.

The operation of the Company is governed by the OEIC Regulations, the Sourcebook, the Instrument of Incorporation and this Prospectus.

The Funds represent segregated portfolios of assets and, accordingly, the assets of a Fund belong exclusively to that Fund and shall not be used or made available to discharge (indirectly or directly) the liabilities of claim against, any other person or body, and any other Fund and shall not be available for any such purpose.

INVESTMENT OBJECTIVES AND POLICIES

The investment objectives and policies of the Funds are set out below. The base currency of each of the Funds is Pounds Sterling. References to the specialised advisers below are to the Investment Advisers, further details of which are given under “**Investment Advisers**” below.

Quilter Investors Absolute Return Bond Fund (PRN 824790)

INVESTMENT OBJECTIVE	The Fund aims to achieve positive total return through a combination of income and capital growth in all market conditions on a rolling three-year basis net of charges. In order
----------------------	---

	<p>to achieve this objective, the Fund aims to outperform the ICE BofA SONIA 3-Month Constant Maturity Index, net of charges, over rolling five-year periods.</p> <p>Notwithstanding that the Fund aims to deliver a positive annual return over rolling three-year periods, any capital invested is, in fact, at risk and there is no guarantee that a positive annual return will be generated over such specified period, or over any period.</p>
INVESTMENT POLICY	<p>The Fund invests at least 80% of the value of its property in debt securities issued by companies, banks, public entities and governments located in developed and emerging markets anywhere in the world. These securities may be investment grade or sub-investment grade. Investment may be direct or indirect (e.g. through collective investment schemes or derivatives). The Fund may hold up to 10% in contingent convertible bonds (CoCos).</p> <p>The Investment Adviser aims to achieve the investment objective while managing the Fund's volatility and limiting losses during difficult market conditions. Non-Sterling currency exposure will typically be hedged into Sterling, but the Fund may maintain exposure to other currencies where the Investment Adviser believes this is appropriate.</p> <p>The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits, cash and derivatives.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may at times hold a significant proportion of its assets in cash and money market instruments as a result of holding derivatives and for when the Investment Adviser wishes to reduce the Fund's market risk (for example, in extreme market conditions when the Investment Adviser wishes to control the volatility of the Fund).</p> <p>The Fund may use derivatives for investment purposes and/or Efficient Portfolio Management. The use of derivatives for the purpose of investment may affect the risk profile of the Fund although this is not the ACD's intention. The use of derivatives for Efficient Portfolio Management is not likely to affect the risk profile of the Fund.</p>
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the ICE BofA SONIA 3-Month Constant Maturity Index.</p> <p>The Target Benchmark is representative of the return which might be achieved on cash held in a deposit account rather than invested in bond markets and is therefore considered an appropriate benchmark for a fund seeking to deliver positive total returns in all market conditions.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The</p>

	<p>Investment Manager continuously monitors and may periodically make changes to this appointment.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective.</p>
--	---

Quilter Investors Asia Pacific (ex Japan) Equity Fund (PRN 632247)

INVESTMENT OBJECTIVE	The Fund aims to achieve capital growth and to outperform the MSCI All Countries Asia Pacific ex Japan Index, net of charges, over rolling five-year periods.
INVESTMENT POLICY	<p>The Fund invests at least 80% of the value of its property in shares of companies that are listed, located or have a significant portion of their business in developed and emerging markets in Asia and Australasia, excluding Japan. Investment may be direct or indirect (e.g. through collective investment schemes or derivatives), however the ACD expects that the Fund will typically hold investments directly.</p> <p>The Fund may invest in companies of any size, including smaller companies. The Fund may at times be concentrated in terms of the number of investments it holds (i.e. have less than 50 holdings).</p> <p>The Fund may invest in China A Shares through the Hong Kong Stock Connect. The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits and cash.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may only use derivatives for the purpose of Efficient Portfolio Management. The use of derivatives for this purpose is not likely to affect the risk profile of the Fund.</p>
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the MSCI All Countries Asia Pacific ex Japan Index.</p> <p>The Target Benchmark is representative of the companies in which the Fund primarily invests and is therefore considered an appropriate benchmark for the Fund to seek to outperform and against which its performance may be assessed.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective, so Fund investments may differ from those included in the Target Benchmark, provided they are allowed in the investment policy.</p>

Quilter Investors Asia Pacific (ex Japan) Large-Cap Equity Fund (PRN 632250)

INVESTMENT OBJECTIVE	The Fund aims to achieve capital growth and to outperform the MSCI All Countries Asia Pacific ex Japan Index, net of charges, over rolling five-year periods.
INVESTMENT POLICY	<p>The Fund invests at least 80% of the value of its property in shares of companies that are listed, located or have a significant portion of their business in developed and emerging markets in Asia and Australasia, excluding Japan. Investment may be direct or indirect (e.g. through collective investment schemes or derivatives), however the ACD expects that the Fund will typically hold investments directly.</p> <p>The Fund invests a minimum of 60% of its property in large-cap companies, while the remainder may be invested in companies of any size, including smaller companies. The Fund may at times be concentrated in terms of the number of investments it holds (i.e. have less than 50 holdings).</p> <p>The Fund may invest in China A Shares through the Hong Kong Stock Connect. The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits and cash.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may only use derivatives for the purpose of Efficient Portfolio Management. The use of derivatives for this purpose is not likely to affect the risk profile of the Fund.</p>
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the MSCI All Countries Asia Pacific ex Japan Index.</p> <p>The Target Benchmark is representative of the companies in which the Fund primarily invests and is therefore considered an appropriate benchmark for the Fund to seek to outperform and against which its performance may be assessed.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment. The Investment Adviser's current strategy is to typically favour shares of companies it believes to be undervalued.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective, so Fund investments may differ from those included in the Target Benchmark, provided they are allowed in the investment policy.</p>

Quilter Investors Bond 3 Fund (PRN 632226)

THIS FUND IS IN THE PROCESS OF BEING TERMINATED AND IS NO LONGER AVAILABLE FOR INVESTMENT

INVESTMENT OBJECTIVE	The Fund aims to achieve a total return through a combination of income and capital growth and to outperform the ICE BofAML Global Corporate & High Yield Index, net of charges, over rolling five year periods.
INVESTMENT POLICY	<p>The Fund invests in a diversified portfolio primarily composed (at least 70%) of fixed and variable rate income securities issued by companies, banks, public entities and governments. These securities may be investment grade or sub-investment grade. The Fund invests in both Sterling and non-Sterling denominated securities. Any non-Sterling denominated securities will normally be hedged to minimise currency risk.</p> <p>Investments may be made through collective investment schemes (which may include those managed or operated by the ACD or an associate of the ACD) or through directly invested portfolios. The Fund may also invest in money market instruments and hold cash.</p> <p>The Fund may use derivative instruments for investment purposes or Efficient Portfolio Management. The use of derivatives for the purpose of investment may affect the risk profile of the Fund although this is not the ACD's intention. The use of derivatives for Efficient Portfolio Management is unlikely to affect the risk profile of the Fund.</p> <p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.</p>
TARGET BENCHMARK	<p>The target benchmark for the Fund is the ICE BofAML Global Corporate & High Yield Index.</p> <p>This benchmark is considered appropriate on the basis that the Fund is managed with a view to outperforming this Index as set out in the investment objective.</p>
INVESTMENT STYLE	The Fund is actively managed. This means the Investment Adviser uses their expertise to pick investments to achieve the Fund's objective.

Quilter Investors China Equity Fund (PRN 632245)

INVESTMENT OBJECTIVE	The Fund aims to achieve a combination of income and capital growth and to outperform the MSCI Zhong Hua 10/40 Index, net of charges, over rolling five-year periods.
INVESTMENT POLICY	The Fund invests at least 80% of the value of its property in shares of companies that are listed, located or have a significant portion of their business in Hong Kong and China. Investment may be direct or indirect (e.g. through collective investment

	<p>schemes or derivatives), however the ACD expects that the Fund will typically hold investments directly.</p> <p>The Fund may invest in companies of any size, including smaller companies. The Fund may at times be concentrated in terms of the number of investments it holds (i.e. have less than 50 holdings).</p> <p>The Fund may invest in China A Shares through the Hong Kong Stock Connect. The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits, cash and derivatives.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may use derivatives for investment purposes and/or Efficient Portfolio Management. The use of derivatives for the purpose of investment may affect the risk profile of the Fund although this is not the ACD's intention. The use of derivatives for Efficient Portfolio Management is not likely to affect the risk profile of the Fund.</p>
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the MSCI Zhong Hua 10/40 Index.</p> <p>The Target Benchmark is representative of the companies in which the Fund primarily invests and is therefore considered an appropriate benchmark for the Fund to seek to outperform and against which its performance may be assessed.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective, so Fund investments may differ from those included in the Target Benchmark, provided they are allowed in the investment policy.</p>

Quilter Investors Corporate Bond Fund (PRN 806755)

INVESTMENT OBJECTIVE	The Fund aims to achieve a combination of income and capital growth and to outperform the ICE BofA Sterling Non-Gilt Index, net of charges, over rolling five-year periods.
INVESTMENT POLICY	The Fund invests at least 80% of the value of its property in Sterling-denominated (or hedged back to Sterling) investment grade debt securities issued by companies located anywhere in the world. The Fund may also invest in investment grade and sub-investment grade debt securities issued by companies, banks, public entities and governments located anywhere in the world. Investment may be direct or indirect (e.g. through collective investment schemes or derivatives).

	<p>The Fund may hold up to 10% in contingent convertible bonds (CoCos).</p> <p>The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits, cash and derivatives.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may use derivatives for investment purposes and/or Efficient Portfolio Management. The use of derivatives for the purpose of investment may affect the risk profile of the Fund although this is not the ACD's intention. The use of derivatives for Efficient Portfolio Management is not likely to affect the risk profile of the Fund.</p>
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the ICE BofA Sterling Non-Gilt Index.</p> <p>The Target Benchmark is representative of the debt instruments in which the Fund primarily invests and is therefore considered an appropriate benchmark for the Fund to seek to outperform and against which its performance may be assessed.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective, so Fund investments may differ from those included in the Target Benchmark, provided they are allowed in the investment policy.</p>

Quilter Investors Diversified Bond Fund (PRN 806756)

INVESTMENT OBJECTIVE	<p>The Fund aims to achieve a combination of income and capital growth and to outperform the ICE BofA Q9AX Custom Index, net of charges, over rolling five-year periods.</p>
INVESTMENT POLICY	<p>The Fund invests at least 80% of the value of its property in a diversified range of Sterling-denominated (or hedged back to Sterling) investment grade and sub-investment grade debt securities issued by companies, banks, public entities and governments located in developed and emerging markets anywhere in the world. Investment may be direct or indirect (e.g. through collective investment schemes or derivatives). The Fund may hold up to 20% in contingent convertible bonds (CoCos).</p> <p>The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits, cash and derivatives.</p>

	<p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may use derivatives for investment purposes and/or Efficient Portfolio Management. The use of derivatives for the purpose of investment may affect the risk profile of the Fund although this is not the ACD's intention. The use of derivatives for Efficient Portfolio Management is not likely to affect the risk profile of the Fund.</p>
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the ICE BofA Q9AX Custom Index, which is a custom blend of indices containing a mixture of securitised, corporate and high yield debt instruments. The Target Benchmark is representative of the debt instruments in which the Fund primarily invests and is therefore considered an appropriate benchmark for the Fund to seek to outperform and against which its performance may be assessed.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective, so Fund investments may differ from those included in the Target Benchmark, provided they are allowed in the investment policy.</p>

Quilter Investors Dynamic Bond Fund (PRN 632227)

INVESTMENT OBJECTIVE	<p>The Fund aims to achieve a combination of income and capital growth and to outperform the ICE BofA Q9AX Custom Index, net of charges, over rolling five-year periods.</p>
INVESTMENT POLICY	<p>The Fund invests at least 70% of the value of its property in a diversified range of Sterling-denominated (or hedged back to Sterling) investment grade and sub-investment grade debt securities issued by companies, banks, public entities and governments located in developed and emerging markets anywhere in the world. Investment may be direct or indirect (e.g. through collective investment schemes or derivatives).</p> <p>The Fund's dynamic approach allows investment in a broad range of fixed interest assets and allocation to sub-asset classes of greatest opportunity at any given point in time, while derivatives can be used as a cost effective way to adjust the risk profile of the Fund, depending on market conditions. The Fund's investments tend to be held for the medium to long term, although can be sold sooner if it is in the interests of the Fund. At any time the Fund may invest up to 50% of its property in sub-investment grade bonds. The Fund may invest up to 60% of its property in debt securities whose issuers are in the financial sector (which may include up to 49% of the value of its property in contingent convertible bonds (CoCos)).</p>

	<p>The Fund may also invest up to 50% of its property in asset-backed and mortgage-backed securities.</p> <p>The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits, cash and derivatives.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may use derivatives for investment purposes and/or Efficient Portfolio Management. The use of derivatives for the purpose of investment may affect the risk profile of the Fund although this is not the ACD's intention. The use of derivatives for Efficient Portfolio Management is not likely to affect the risk profile of the Fund.</p>
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the ICE BofA Q9AX Custom Index, which is a custom blend of indices containing a mixture of securitised, corporate and high yield debt instruments. The Target Benchmark is representative of the debt instruments in which the Fund primarily invests and is therefore considered an appropriate benchmark for the Fund to seek to outperform and against which its performance may be assessed.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective, so Fund investments may differ from those included in the Target Benchmark, provided they are allowed in the investment policy.</p>

Quilter Investors Emerging Markets Equity Fund (PRN 806757)

INVESTMENT OBJECTIVE	<p>The Fund aims to achieve capital growth and to outperform the MSCI Emerging Markets Index, net of charges, over rolling five-year periods.</p>
INVESTMENT POLICY	<p>The Fund invests at least 80% of the value of its property in shares of companies that are listed, located or have a significant portion of their business in emerging markets worldwide. An emerging market is a less developed country in the process of growing its financial markets. Investment may be direct or indirect (e.g. through collective investment schemes or derivatives), however the ACD expects that the Fund will typically hold investments directly.</p> <p>The Fund may invest in companies of any size, including smaller companies. The Fund may at times be concentrated in terms of the number of investments it holds (i.e. have less than 50 holdings).</p>

	<p>The Fund may invest in China A Shares through the Hong Kong Stock Connect. The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits, cash and derivatives.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may currently only use derivatives for the purpose of Efficient Portfolio Management. The use of derivatives for Efficient Portfolio Management is not likely to affect the risk profile of the Fund. The Fund's investment strategy may require the use of derivatives for the purpose of meeting the investment objective, which it may do, provided the ACD has given shareholders 60 days' notice of such change. Such notice will be required to explain the reason for the change and to give shareholders sufficient time to consider their position in the Fund, as the use of derivatives for investment purposes may affect the risk profile of the Fund, although this is not the ACD's intention.</p>
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the MSCI Emerging Markets Index.</p> <p>The Target Benchmark is representative of the companies in which the Fund primarily invests and is therefore considered an appropriate benchmark for the Fund to seek to outperform and against which its performance may be assessed.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment. The Investment Adviser's current strategy is to typically favour shares of companies it believes to have the potential for growth.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective, so Fund investments may differ from those included in the Target Benchmark, provided they are allowed in the investment policy.</p>

Quilter Investors Emerging Markets Equity Growth Fund (PRN 632253)

INVESTMENT OBJECTIVE	The Fund aims to achieve capital growth and to outperform the MSCI Emerging Markets Index, net of charges, over rolling five-year periods.
INVESTMENT POLICY	The Fund invests at least 80% of the value of its property in shares of companies that are listed, located or have a significant portion of their business in emerging markets worldwide. An emerging market is a less developed country in the process of growing its financial markets. Investment may be direct or indirect (e.g. through collective investment

	<p>schemes or derivatives), however the ACD expects that the Fund will typically hold investments directly.</p> <p>The Fund may invest in companies of any size, including smaller companies. The Investment Adviser typically has a preference to invest in shares of companies it believes to have the potential for growth.</p> <p>The Fund may invest in China A Shares through the Hong Kong Stock Connect. The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits and cash.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may only use derivatives for the purpose of Efficient Portfolio Management. The use of derivatives for this purpose is not likely to affect the risk profile of the Fund.</p>
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the MSCI Emerging Markets Index.</p> <p>The Target Benchmark is representative of the companies in which the Fund primarily invests and is therefore considered an appropriate benchmark for the Fund to seek to outperform and against which its performance may be assessed.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective, so Fund investments may differ from those included in the Target Benchmark, provided they are allowed in the investment policy.</p>

Quilter Investors Emerging Markets Equity Income Fund (PRN 806758)

INVESTMENT OBJECTIVE	<p>The Fund aims to achieve a combination of income and capital growth and to outperform the MSCI Emerging Markets Index, net of charges, over rolling five-year periods.</p>
INVESTMENT POLICY	<p>The Fund invests at least 80% of the value of its property in shares of companies that are listed, located or have a significant portion of their business in emerging markets worldwide. An emerging market is a less developed country in the process of growing its financial markets. Investment may be direct or indirect (e.g. through collective investment schemes or derivatives), however the ACD expects that the Fund will typically hold investments directly.</p> <p>The Fund may invest in companies of any size, including smaller companies. The Investment Adviser typically has a</p>

	<p>preference to invest in shares of companies it believes are likely to provide dividend payments.</p> <p>The Fund may invest in China A Shares through the Hong Kong Stock Connect. The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits, cash and derivatives.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may currently only use derivatives for the purpose of Efficient Portfolio Management. The use of derivatives for Efficient Portfolio Management is not likely to affect the risk profile of the Fund. The Fund's investment strategy may require the use of derivatives for the purpose of meeting the investment objective, which it may do, provided the ACD has given shareholders 60 days' notice of such change. Such notice will be required to explain the reason for the change and to give shareholders sufficient time to consider their position in the Fund, as the use of derivatives for investment purposes may affect the risk profile of the Fund, although this is not the ACD's intention.</p>
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the MSCI Emerging Markets Index.</p> <p>The Target Benchmark is representative of the companies in which the Fund primarily invests and is therefore considered an appropriate benchmark for the Fund to seek to outperform and against which its performance may be assessed.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective, so Fund investments may differ from those included in the Target Benchmark, provided they are allowed in the investment policy.</p>

Quilter Investors Europe (ex UK) Equity Fund (PRN 632237)

INVESTMENT OBJECTIVE	The Fund aims to achieve capital growth and to outperform the MSCI Europe ex UK Index, net of charges, over rolling five-year periods.
INVESTMENT POLICY	The Fund invests at least 80% of the value of its property in shares of companies listed or located in Europe, excluding the United Kingdom. Investment may be direct or indirect (e.g. through collective investment schemes or derivatives), however the ACD expects that the Fund will typically hold investments directly.

	<p>The Fund may invest in companies of any size, including smaller companies. The Fund may at times be concentrated in terms of the number of investments it holds (i.e. have less than 50 holdings).</p> <p>The Fund may also invest in other transferable securities which may include shares in UK companies, collective investment schemes, warrants, money market instruments, deposits and cash.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may only use derivatives for the purpose of Efficient Portfolio Management. The use of derivatives for this purpose is not likely to affect the risk profile of the Fund.</p>
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the MSCI Europe ex UK Index.</p> <p>The Target Benchmark is representative of the companies in which the Fund primarily invests and is therefore considered an appropriate benchmark for the Fund to seek to outperform and against which its performance may be assessed.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective, so Fund investments may differ from those included in the Target Benchmark, provided they are allowed in the investment policy.</p>

Quilter Investors Europe (ex UK) Equity Growth Fund (PRN 632261)

INVESTMENT OBJECTIVE	<p>The Fund aims to achieve capital growth and to outperform the MSCI Europe ex UK Index, net of charges, over rolling five-year periods.</p>
INVESTMENT POLICY	<p>The Fund invests at least 80% of the value of its property in shares of companies listed or located in Europe, excluding the United Kingdom. Investment may be direct or indirect (e.g. through collective investment schemes or derivatives), however the ACD expects that the Fund will typically hold investments directly.</p> <p>The Fund may invest in companies of any size, including smaller companies. The Investment Adviser typically has a preference to invest in shares of companies it believes to have the potential for growth. The Fund may at times be concentrated in terms of the number of investments it holds (i.e. have less than 50 holdings).</p>

	<p>The Fund may also invest in other transferable securities which may include shares in UK companies, collective investment schemes, warrants, money market instruments, deposits and cash.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may only use derivatives for the purpose of Efficient Portfolio Management. The use of derivatives for this purpose is not likely to affect the risk profile of the Fund.</p>
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the MSCI Europe ex UK Index.</p> <p>The Target Benchmark is representative of the companies in which the Fund primarily invests and is therefore considered an appropriate benchmark for the Fund to seek to outperform and against which its performance may be assessed.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective, so Fund investments may differ from those included in the Target Benchmark, provided they are allowed in the investment policy.</p>

Quilter Investors Europe (ex UK) Equity Income Fund (PRN 776442)

INVESTMENT OBJECTIVE	<p>The Fund aims to achieve income and capital growth and to outperform the MSCI Europe ex UK Index, net of charges, over rolling five-year periods.</p>
INVESTMENT POLICY	<p>The Fund invests at least 80% of the value of its property in shares of companies listed or located in developed and emerging markets in Europe, excluding the United Kingdom. Investment may be direct or indirect (e.g. through collective investment schemes or derivatives), however the ACD expects that the Fund will typically hold investments directly.</p> <p>The Fund may invest in companies of any size, including smaller companies. The Investment Adviser typically has a preference to invest in shares of companies it believes are likely to provide dividend payments. The Fund may at times be concentrated in terms of the number of investments it holds (i.e. have less than 50 holdings).</p> <p>The Fund may also invest in other transferable securities which may include shares in UK companies, collective investment schemes, warrants, money market instruments, deposits and cash.</p>

	<p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may only use derivatives for the purpose of Efficient Portfolio Management. The use of derivatives for this purpose is not likely to affect the risk profile of the Fund.</p>
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the MSCI Europe ex UK Index.</p> <p>The Target Benchmark is representative of the companies in which the Fund primarily invests and is therefore considered an appropriate benchmark for the Fund to seek to outperform and against which its performance may be assessed.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective, so Fund investments may differ from those included in the Target Benchmark, provided they are allowed in the investment policy.</p>

Quilter Investors Global Equity Absolute Return Fund (PRN 806753)

INVESTMENT OBJECTIVE	<p>The Fund aims to achieve capital growth by investing at least 85% of its assets in the Jupiter Merian Global Equity Absolute Return Fund (the Master Fund).</p> <p>The investment objective of the Master Fund is capital appreciation while closely controlling risk. In addition, the Master Fund intends to deliver absolute returns that have a low correlation with equity and bond markets over rolling 12-month periods. In seeking to achieve its investment objective, the Master Fund aims to deliver a return, net of fees, in excess of the Federal Reserve Funds Target Rate over rolling three-year periods.</p> <p>Notwithstanding that the Master Fund is expressed to be an "absolute return" fund, any capital invested is, in fact, at risk. The Master Fund aims to deliver a positive absolute return over rolling 12-month periods, but there is no guarantee that such return will be generated over that specific time period or within another time period.</p>
INVESTMENT POLICY	<p>The Fund invests at least 85% of its assets in the Master Fund and may hold up to a maximum of 15% of its assets in money market instruments, deposits and cash.</p> <p>The Master Fund focusses on investing (either directly or indirectly) in the shares of companies located anywhere in the world and listed or traded on regulated markets.</p>

	<p>The Master Fund may invest through transferable securities, collective investment schemes, warrants, money market instruments, deposits and cash.</p> <p>The Master Fund will be structured as a market neutral portfolio by taking long positions in stocks determined most likely to deliver a positive relative return, and short positions in stocks determined most likely to deliver a negative relative return. The total value of the long positions will be approximately matched by the total value of the short positions.</p> <p>The Master Fund may use derivatives for investment purposes and/or Efficient Portfolio Management. The Master Fund may take long and short positions through the use of derivatives, which may result in the Master Fund being leveraged. The Master Fund's use of derivatives for investment purposes may affect the risk profile of the Fund. The Master Fund's use of derivatives for Efficient Portfolio Management is not likely to affect the risk profile of the Fund.</p>
PERFORMANCE COMPARATOR	<p>The performance comparator for the Fund is the Bank of England Base Rate.</p> <p>While the benchmark of the Master Fund is the Federal Reserve Funds Target Rate, for performance measurement purposes the benchmark differs for share classes that are denominated in a different currency to the base currency of the Master Fund (which is US Dollars).</p> <p>As the Fund only invests in the Z2 GBP Hedged Acc share class of the Master Fund, the ACD therefore considers it appropriate for the Fund to use the Bank of England Base Rate as a performance comparator, since that share class also uses the Bank of England Base Rate for performance measurement purposes.</p> <p>The Fund is not managed with reference to a benchmark.</p>
INVESTMENT APPROACH	<p>The Fund is exposed to active management via the Master Fund. This means that Jupiter (the investment manager of the Master Fund) uses its expertise to pick investments to achieve the Master Fund's objective.</p>

Quilter Investors Global Equity Growth Fund (PRN 632249)

INVESTMENT OBJECTIVE	<p>The Fund aims to achieve capital growth and to outperform the MSCI All Countries World Index, net of charges, over rolling five-year periods.</p>
INVESTMENT POLICY	<p>The Fund invests at least 80% of the value of its property in shares of companies located in developed and emerging markets anywhere in the world. Investment may be direct or indirect (e.g. through collective investment schemes or derivatives), however the ACD expects that the Fund will typically hold investments directly.</p> <p>The Fund may invest in companies of any size, including smaller companies. The Investment Adviser typically has a</p>

	<p>preference to invest in shares of companies it believes to have the potential for growth.</p> <p>The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits and cash.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may only use derivatives for the purpose of Efficient Portfolio Management. The use of derivatives for this purpose is not likely to affect the risk profile of the Fund.</p>
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the MSCI All Countries World Index.</p> <p>The Target Benchmark is representative of the companies in which the Fund primarily invests and is therefore considered an appropriate benchmark for the Fund to seek to outperform and against which its performance may be assessed.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective, so Fund investments may differ from those included in the Target Benchmark, provided they are allowed in the investment policy.</p>

Quilter Investors Global Equity Value Fund (PRN 632246)

INVESTMENT OBJECTIVE	<p>The Fund aims to achieve a combination of income and capital growth and to outperform the MSCI All Countries World Index, net of charges, over rolling five-year periods.</p>
INVESTMENT POLICY	<p>The Fund invests at least 80% of the value of its property in shares of companies located in developed and emerging markets anywhere in the world. Investment may be direct or indirect (e.g. through collective investment schemes or derivatives), however the ACD expects that the Fund will typically hold investments directly.</p> <p>The Fund may invest in companies of any size, including smaller companies. The Investment Adviser typically has a preference to invest in shares of companies it believes to be undervalued. The Fund may at times be concentrated in terms of the number of investments it holds (i.e. have less than 50 holdings).</p> <p>The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits and cash.</p>

	<p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may only use derivatives for the purpose of Efficient Portfolio Management. The use of derivatives for this purpose is not likely to affect the risk profile of the Fund.</p>
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the MSCI All Countries World Index.</p> <p>The Target Benchmark is representative of the companies in which the Fund primarily invests and is therefore considered an appropriate benchmark for the Fund to seek to outperform and against which its performance may be assessed.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective, so Fund investments may differ from those included in the Target Benchmark, provided they are allowed in the investment policy.</p>

Quilter Investors Investment Grade Corporate Bond Fund (PRN 632243)

INVESTMENT OBJECTIVE	<p>The Fund aims to achieve a combination of income and capital growth and to outperform the ICE BofA Sterling Corporate Index, net of charges, over rolling five-year periods.</p>
INVESTMENT POLICY	<p>The Fund invests at least 80% of the value of its property in Sterling-denominated (or hedged back to Sterling) investment grade debt securities issued by companies located anywhere in the world.</p> <p>The Fund may also invest in investment grade and sub-investment grade debt securities issued by companies, banks, public entities and governments located anywhere in the world.</p> <p>Investment may be direct or indirect (e.g. through collective investment schemes or derivatives). The Fund may hold up to 10% in contingent convertible bonds (CoCos).</p> <p>The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits, cash and derivatives.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may use derivatives for investment purposes and/or Efficient Portfolio Management. The use of derivatives for the purpose of investment may affect the risk profile of the Fund</p>

	although this is not the ACD's intention. The use of derivatives for Efficient Portfolio Management is not likely to affect the risk profile of the Fund.
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the ICE BofA Sterling Corporate Index.</p> <p>The Target Benchmark is representative of the debt instruments in which the Fund primarily invests and is therefore considered an appropriate benchmark for the Fund to seek to outperform and against which its performance may be assessed.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective, so Fund investments may differ from those included in the Target Benchmark, provided they are allowed in the investment policy.</p>

Quilter Investors Japanese Equity Fund (PRN 632240)

INVESTMENT OBJECTIVE	The Fund aims to achieve capital growth and to outperform the MSCI Japan Index, net of charges, over rolling five-year periods.
INVESTMENT POLICY	<p>The Fund invests at least 80% of the value of its property in shares of companies listed or located in Japan. Investment may be direct or indirect (e.g. through collective investment schemes or derivatives), however the ACD expects that the Fund will typically hold investments directly.</p> <p>The Fund may invest in companies of any size, including smaller companies. The Fund may at times be concentrated in terms of the number of investments it holds (i.e. have less than 50 holdings).</p> <p>The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits and cash.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may only use derivatives for the purpose of Efficient Portfolio Management. The use of derivatives for this purpose is not likely to affect the risk profile of the Fund.</p>
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the MSCI Japan Index.</p> <p>The Target Benchmark is representative of the companies in which the Fund primarily invests and is therefore considered</p>

	an appropriate benchmark for the Fund to seek to outperform and against which its performance may be assessed.
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective, so Fund investments may differ from those included in the Target Benchmark, provided they are allowed in the investment policy.</p>

Quilter Investors Natural Resources Equity Fund (PRN 632252)

INVESTMENT OBJECTIVE	The Fund aims to achieve capital growth and to outperform the S&P Global Natural Resources Index, net of charges, over rolling five-year periods.
INVESTMENT POLICY	<p>The Fund invests at least 80% of the value of its property in shares of companies located in developed and emerging markets anywhere in the world, that are engaged in natural resources and commodities businesses. Investment may be direct or indirect (e.g. through collective investment schemes or derivatives), however the ACD expects that the Fund will typically hold investments directly.</p> <p>The Fund may invest in companies of any size, including smaller companies. The Fund may at times be concentrated in terms of the number of investments it holds. (i.e. have less than 50 holdings).</p> <p>The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits and cash.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may only use derivatives for the purpose of Efficient Portfolio Management. The use of derivatives for this purpose is not likely to affect the risk profile of the Fund.</p>
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the S&P Global Natural Resources Index.</p> <p>The Target Benchmark is representative of the companies in which the Fund primarily invests and is therefore considered an appropriate benchmark for the Fund to seek to outperform and against which its performance may be assessed.</p>
INVESTMENT APPROACH	The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.

	<p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective, so Fund investments may differ from those included in the Target Benchmark, provided they are allowed in the investment policy.</p> <p>The Investment Adviser's longer-term investment views are likely to result in the Fund having typically lower exposure to fossil fuels compared to the Target Benchmark and any such exposure may continue to decrease over time.</p>
--	---

Quilter Investors Precious Metals Equity Fund (PRN 632248)

INVESTMENT OBJECTIVE	The Fund aims to achieve capital growth, over rolling five-year periods.
INVESTMENT POLICY	<p>The Fund invests at least 80% of the value of its property in shares of companies located in developed and emerging markets anywhere in the world, that are engaged in precious metals, and commodities related businesses. Investment may be direct or indirect (e.g. through collective investment schemes or derivatives), however the ACD expects that the Fund will typically hold investments directly.</p> <p>The Fund may invest in companies of any size, including smaller companies. The Fund may at times be concentrated in terms of the number of investments it holds (i.e. have less than 50 holdings).</p> <p>The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits and cash.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may only use derivatives for the purpose of Efficient Portfolio Management. The use of derivatives for this purpose is not likely to affect the risk profile of the Fund.</p>
PERFORMANCE COMPARATOR	<p>The performance comparator for the Fund is the MSCI ACWI Select Gold Miners IMI Index.</p> <p>This index is considered appropriate as a performance comparator on the basis that it is representative of the investment universe of the Fund. The Fund is not managed with reference to a benchmark.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective.</p>

Quilter Investors Sterling Corporate Bond Fund (PRN 632254)

INVESTMENT OBJECTIVE	The Fund aims to achieve a combination of income and capital growth and to outperform the ICE BofA Sterling Non-Gilt Index, net of charges, over rolling five-year periods.
INVESTMENT POLICY	<p>The Fund invests at least 80% of the value of its property in Sterling-denominated (or hedged back to Sterling) investment grade debt securities issued by companies located anywhere in the world.</p> <p>The Fund may also invest in investment grade and sub-investment grade debt securities issued by companies, banks, public entities and governments located anywhere in the world.</p> <p>Investment may be direct or indirect (e.g. through collective investment schemes or derivatives). The Fund may invest in asset-backed and mortgage-backed securities and may hold up to 10% in contingent convertible bonds (CoCos).</p> <p>The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits, cash and derivatives.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may use derivatives for investment purposes and/or Efficient Portfolio Management. The use of derivatives for the purpose of investment may affect the risk profile of the Fund although this is not the ACD's intention. The use of derivatives for Efficient Portfolio Management is not likely to affect the risk profile of the Fund.</p>
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the ICE BofA Sterling Non-Gilt Index.</p> <p>The Target Benchmark is representative of the debt instruments in which the Fund primarily invests and is therefore considered an appropriate benchmark for the Fund to seek to outperform and against which its performance may be assessed.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective, so Fund investments may differ from those included in the Target Benchmark, provided they are allowed in the investment policy.</p>

Quilter Investors Sterling Diversified Bond Fund (PRN 632242)

INVESTMENT OBJECTIVE	The Fund aims to achieve a combination of income and capital growth and to outperform the ICE BofA Q880 Custom Index, net of charges, over rolling five-year periods.
INVESTMENT POLICY	<p>The Fund invests at least 80% of the value of its property in a diversified range of Sterling-denominated (or hedged back to Sterling) investment grade and sub-investment grade debt securities issued by companies, banks, public entities and governments located in developed and emerging markets anywhere in the world. Investment may be direct or indirect (e.g. through collective investment schemes or derivatives). The Fund may invest in asset-backed and mortgage-backed securities and may hold up to 20% in contingent convertible bonds (CoCos).</p> <p>The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits, cash and derivatives.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may use derivatives for investment purposes and/or Efficient Portfolio Management. The use of derivatives for the purpose of investment may affect the risk profile of the Fund although this is not the ACD's intention. The use of derivatives for Efficient Portfolio Management is not likely to affect the risk profile of the fund.</p>
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the ICE BofA Q880 Custom Index, which is a custom blend of government, investment grade and high yield corporate indices.</p> <p>The Target Benchmark is representative of the debt instruments in which the Fund primarily invests and is therefore considered an appropriate benchmark for the Fund to seek to outperform and against which its performance may be assessed.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective, so Fund investments may differ from those included in the Target Benchmark, provided they are allowed in the investment policy.</p>

Quilter Investors Timber Equity Fund (PRN 982987)

This product does not have a UK sustainable investment label.

Sustainable investment labels help investors find products that have a specific sustainability goal.

This Fund does not use a UK sustainable investment label because, whilst certain requirements and exclusions are applied with a view to ensuring that the Fund's investments are consistent with the sustainable timber investment theme, the Fund does not have a sustainability objective that requires it to seek any particular or measurable positive outcomes.

This statement is made in compliance with ESG 4.3.5R of the ESG Sourcebook. The Fund's further sustainability disclosures, in compliance with ESG 5.3R of the ESG Sourcebook, are set out below.

INVESTMENT OBJECTIVE	The Fund aims to achieve capital growth over rolling five-year periods by investing in companies which support sustainable forestry and timber practices.
INVESTMENT POLICY	<p>The Fund invests at least 80% of the value of its property in shares of companies located in developed and/or emerging markets anywhere in the world that are operating in the "Timber Value Chain", provided that such companies meet the Investment Adviser's requirements, exclusions, and expectations, as detailed in the 'Investment Style' section below.</p> <p>Companies in the Timber Value Chain are those that operate in one or more of the stages of timber forestry and/or the conversion of timber into wood-based final products. This means that the Investment Adviser will invest in companies which:</p> <ul style="list-style-type: none"> (a) sustainably manage forests; and/or (b) operate further down the Timber Value Chain (including companies that process, produce, or use wood-based materials, which are renewable, recyclable and biodegradable, and thus provide a more sustainable substitute for fossil or non-renewable materials such as plastics in packaging, or concrete or steel in home building). <p>The Investment Adviser will only invest in a company provided at least 20% of the value attributable to its activities (measured by turnover, enterprise value, earnings before interest and taxes (or similar metrics); depending on the availability of the relevant data and/or which measure is considered by the Investment Adviser to be the most appropriate in the context of the company being assessed) is derived from sustainable timber-related activities (the "Thematic Purity").</p> <p>The Investment Adviser considers timber-related activities to be sustainable if, in respect of such activities, the timber harvested or used in producing the relevant wood-based materials, is sourced from forests which are managed sustainably. The Investment Adviser considers that forests are managed sustainably where they are managed in a continuous cycle with trees harvested being replanted or regenerated, are operated under broadly accepted forest management standards or certifications and adhere to</p>

	<p>environmental and social standards within the process of production.</p> <p>The Thematic Purity threshold allows investment in companies where timber-related activities are part of their business but not the only element, provided that the companies' other activities are permitted under the Investment Adviser's exclusion policy (as detailed in the 'Investment Style' section below). The Thematic Purity percentage for the Fund will normally be above 70% and will never be below 60% on a weighted average basis. Investment may be direct or indirect (e.g. through collective investment schemes), however the ACD expects that the Fund will typically hold investments directly.</p> <p>The Fund may invest in companies of any size, including smaller companies. The Fund may at times be concentrated in terms of the number of investments it holds (i.e. have less than 50 holdings).</p> <p>The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits and cash.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may only use derivatives for the purpose of Efficient Portfolio Management. The use of derivatives for this purpose is not likely to affect the risk profile of the Fund.</p>
INVESTMENT STYLE	<p>Sustainable timber theme</p> <p>In determining the companies in which to invest, the Investment Adviser will take into account whether, where applicable, such companies hold forestry certifications from recognised organisations which apply defined criteria in determining whether to award and/or maintain their respective certifications. The Investment Adviser's determination as to whether to invest in a company may be informed, in part, through on-site inspections of sample areas of a company's business, the use of certain analytical tools and/or its consideration of the strength of forestry-related legislation (e.g. the existence of relevant legislation which seeks to uphold the integrity of forests, as well as evidence of adherence to, and enforcement of, such legislation) applicable to the jurisdictions in which the company is domiciled and/or from where it sources the majority of its raw wood-based materials.</p> <p>In assessing companies further down the Timber Value Chain (e.g. those involved in the production of wood-based materials), the Investment Adviser will consider the environmental benefits attributable to the use of wood-based materials over other alternative materials, their geographical location and the locations from which they source their wood-based materials. Such considerations may include whether the relevant companies source their wood from forests managed in accordance with relevant forestry legislation and</p>

	<p>in respect of which recognised forestry certifications apply. In addition, the Investment Adviser will qualitatively assess the environmental policies maintained by such companies with respect to sourcing wood for their respective products and will, as appropriate, complement its assessments using data provided by third-party providers for the purposes of screening such companies in respect of certain controversies (e.g. as regards supply chain management, biodiversity, human rights, community relations and/or other environmental or social related issues). Typically, the companies in which the Fund invests will have procedures and policies that cover all, or at least a part of, their sourcing of wood or wood-based materials for the production of their relevant products.</p> <p>Exclusion policy</p> <p>The Fund will not invest in companies which undertake activities relating to the Timber Value Chain and/or construction or other industrial related activities where such activities are undertaken in ecologically sensitive areas and are considered by the Investment Adviser as likely to have a negative environmental impact on the relevant area. In addition, the Fund will not invest in companies which are domiciled in, or source the majority of wood or wood-based materials from, regions where forestry legislation is considered by the Investment Adviser to be weak or not enforced (as assessed on the basis described above).</p> <p>The Investment Adviser also applies additional exclusions on investment in companies it considers cause significant environmental and/or social harm. For example, the Fund will not invest in companies which derive any of their respective revenues from tobacco production and/or more than 5% of their respective revenues from tobacco distribution, alcohol, gambling, certain weapons (including small arms and military contracting weapons) or fossil fuels. In addition, the Fund will not invest in any company considered by the Investment Adviser to be involved in the manufacture or development of, or trade in, core systems of cluster munitions and anti-personnel mines ('core systems' being components or services that are tailor-made and essential for the lethal use of such weapons).</p> <p>In applying its exclusion policy, the Investment Adviser will use quantitative and qualitative factors in assessing the companies in which the Fund may invest. This may include using data from proprietary models, local intelligence, engagement with the relevant companies (including through onsite visits) and analysing data provided by third-party environmental, social and governance ("ESG") analysts. The Investment Adviser will only apply the relevant exclusions directly with respect to the companies in which the Fund invests. Accordingly, the Investment Adviser will not apply the exclusions with respect to any other party other than the investee company, which includes parties involved in the supply chain with which an investee company may be concerned (e.g. its suppliers). The exclusions are limited in this respect on the basis that the Investment Adviser considers there is no reliable third-party data available to the Investment Adviser to enable it to analyse the relevant supply chains and apply the exclusions with</p>
--	--

	<p>respect to other parties concerned with the companies in which the Fund invests.</p> <p>Voting and engagement</p> <p>The Investment Adviser aims to vote on all equity positions held by the Fund.</p> <p>The Investment Adviser will monitor the equity investments held by the Fund and will meet with investee companies on at least an annual basis in order to discuss ESG matters relating to such companies. In addition, where the Investment Adviser identifies that investment in a company is inconsistent with ESG related requirements or exclusions contained in the Fund's investment policy and/or this section, the Investment Adviser may, depending on the nature of the issue, engage with the relevant company on the topic of concern with a view to persuading the company to change its approach. Ultimately, if the Investment Adviser considers that it has exhausted all of its various channels of escalation and sees insufficient progress over time, it may decide to reduce or sell the investments concerned.</p>
PERFORMANCE COMPARATOR	<p>The performance comparator for the Fund is the MSCI All Countries World Index. This index is considered appropriate as a performance comparator on the basis that it is representative of a global portfolio of equities. However, the index is not focused on timber related investments and does not take into account sustainability factors. As such, performance will differ. The Fund is not managed with reference to a benchmark.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and, whilst there are limited opportunities to do so due to the specialised nature of this Fund's assets, may periodically make changes to, this appointment.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective.</p>
<p>Funds with sustainability features, but which do not use a UK sustainable investment label, are required under ESG 4.3.5R(2)(b) of the ESG Sourcebook to provide certain information to investors on those features. The information below is provided to comply with those requirements.</p>	
SUSTAINABILITY STATEMENTS	<p>Information provided above, above the Investment Objective of this Fund.</p>
INVESTMENT POLICY AND STRATEGY AND INFORMATION ON HOW THE MANAGER DETERMINES THE ASSETS IN WHICH THE FUND INVESTS	<p>Information provided above, under the 'Investment Policy' and 'Investment Style' sections.</p>

<p>DETAILS OF ANY OTHER METRICS A CONSUMER MAY FIND USEFUL IN UNDERSTANDING THE INVESTMENT POLICY AND STRATEGY FOR THE FUND</p>	<p>The Investment Adviser considers the following metrics useful in understanding the investment strategy of the Fund:</p> <ol style="list-style-type: none"> 1) % exposure of the Fund to the sustainable timber theme; 2) % Thematic Purity (calculated on a weighted average basis) of the Fund to the sustainable timber theme; 3) % of the Fund invested in companies the main activity of which is undertaken in regions where forestry legislation is weak or not enforced properly; 4) % of the Fund invested in companies which the Investment Adviser considers cause significant environmental and/or social harm (e.g. companies which derive any revenue from tobacco production and companies which derive more than 5% of revenue from tobacco distribution, alcohol, gambling, certain weapons or fossil fuels). <p><i>Explanatory notes</i></p> <p>Investments in companies captured by the metrics outlined in (3) and (4) above may relate to companies in respect of which certain requirements or exclusions (as outlined in the Fund's investment policy or the 'Investment Style' section above) were satisfied at the point of initial investment, but where changes to these companies mean that the relevant investments are no longer consistent with such requirements or exclusions. In these circumstances, the Investment Adviser may undertake engagement with a company, as outlined in the 'Investment Style' section.</p>

Quilter Investors Unconstrained Bond Fund (PRN 824789)

INVESTMENT OBJECTIVE	<p>The Fund aims to achieve a combination of income and capital growth and to outperform the 1-Month GBP T-Bill Index, net of charges, over rolling five year periods.</p>
INVESTMENT POLICY	<p>The Fund primarily invests (at least 70%) in an unconstrained portfolio of fixed income securities issued by companies, banks, public entities and governments based anywhere in the world. Investment may be direct or through collective investment schemes or derivatives. These securities may be both investment grade and sub-investment grade.</p> <p>The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits and cash.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may use derivative instruments for investment purposes or Efficient Portfolio Management. The use of derivatives for the purpose of investment may be significant and may affect the volatility or risk profile of the Fund although this is not the ACD's intention. The use of derivatives for</p>

	<p>Efficient Portfolio Management is unlikely to affect the risk profile of the Fund.</p> <p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.</p>
TARGET BENCHMARK	<p>The target benchmark for the Fund is the 1-Month GBP T-Bill Index.</p> <p>This benchmark is considered appropriate on the basis that the Fund is managed with a view to outperforming this Index as set out in the investment objective.</p>
INVESTMENT STYLE	<p>The Fund is actively managed. This means the Investment Adviser uses their expertise to pick investments to achieve the Fund's objective.</p>

Quilter Investors US Equity Growth Fund (PRN 632239)

INVESTMENT OBJECTIVE	<p>The Fund aims to achieve capital growth and to outperform the MSCI USA IMI Growth Index, net of charges, over rolling five-year periods.</p>
INVESTMENT POLICY	<p>The Fund invests at least 80% of the value of its property in shares of companies listed or located in the US. Investment may be direct or indirect (e.g. through collective investment schemes or derivatives), however the ACD expects that the Fund will typically hold investments directly.</p> <p>The Fund may invest in companies of any size, including smaller companies. The Investment Adviser typically has a preference to invest in shares of companies it believes to have the potential for growth.</p> <p>The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits and cash.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may only use derivatives for the purpose of Efficient Portfolio Management. The use of derivatives for this purpose is not likely to affect the risk profile of the Fund.</p>
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the MSCI USA IMI Growth Index.</p> <p>The Target Benchmark is representative of the companies in which the Fund primarily invests and is therefore considered an appropriate benchmark for the Fund to seek to outperform and against which its performance may be assessed.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the</p>

	<p>Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective, so Fund investments may differ from those included in the Target Benchmark, provided they are allowed in the investment policy.</p>

Quilter Investors US Equity Small/Mid-Cap Fund (PRN 632238)

INVESTMENT OBJECTIVE	<p>The Fund aims to achieve a combination of income and capital growth and to outperform the MSCI USA Small-Cap Index, net of charges, over rolling five-year periods.</p>
INVESTMENT POLICY	<p>The Fund invests at least 80% of the value of its property in shares of companies listed or located in the US. Investment may be direct or indirect (e.g. through collective investment schemes or derivatives), however the ACD expects that the Fund will typically hold investments directly.</p> <p>The Fund invests a minimum of 60% of its property in small and mid-cap companies, while the remainder may be invested in companies of any size.</p> <p>The Fund may also invest in other transferable securities, collective investment schemes, warrants, money market instruments, deposits and cash.</p> <p>Any investment in collective investment schemes may include those managed or operated by the ACD or an associate of the ACD.</p> <p>The Fund may only use derivatives for the purpose of Efficient Portfolio Management. The use of derivatives for this purpose is not likely to affect the risk profile of the Fund.</p>
TARGET BENCHMARK	<p>The Target Benchmark for the Fund is the MSCI USA Small-Cap Index.</p> <p>The Target Benchmark is representative of the companies in which the Fund primarily invests and is therefore considered an appropriate benchmark for the Fund to seek to outperform and against which its performance may be assessed.</p>
INVESTMENT APPROACH	<p>The Fund is managed by an Investment Adviser selected by the Investment Manager for its expected ability to manage the Fund according to the investment objective and policy. The Investment Manager continuously monitors and may periodically make changes to this appointment.</p> <p>The Fund is actively managed. This means the Investment Adviser uses its expertise to pick investments to achieve the Fund's objective, so Fund investments may differ from those included in the Target Benchmark, provided they are allowed in the investment policy.</p>

Master Fund

Jupiter Merian Global Equity Absolute Return Fund

Quilter Investors Global Equity Absolute Return Fund is a Feeder Fund which permanently invests at least 85% of the value of its scheme property in the Jupiter Merian Global Equity Absolute Return Fund, a sub-fund of Jupiter Asset Management Series Plc. Jupiter Asset Management Series Plc is an investment company with variable capital incorporated with limited liability in Ireland with registered number 271517, established as an umbrella fund with segregated liability between sub-funds and authorised pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended.

The investment objective of the Master Fund is capital appreciation while closely controlling risk. In addition, the Master Fund intends to deliver absolute returns that have a low correlation with equity and bond markets over rolling 12-month periods.

The Master Fund aims to achieve its investment objective by investing primarily in a portfolio of equity securities of companies located worldwide and listed or traded on regulated markets. The Master Fund may invest through transferable securities, collective investment schemes (not more than 10%), warrants, money market instruments, deposits and cash.

The Master Fund will be structured as a market neutral portfolio by taking long positions in stocks determined most likely to deliver a positive relative return, and short positions in stocks determined most likely to deliver a negative relative return. The total value of the long positions will be approximately matched by the total value of the short positions.

The Master Fund may invest in and have direct access to certain eligible China A Shares listed on the Shanghai Stock Exchange and Shenzhen Stock Exchange via the Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect (collectively, the "Stock Connects"). Exposure to China A Shares through the Stock Connects will not be more than 10% of the Master Fund's net asset value.

Not less than 51% of the net asset value of the Master Fund will be invested directly in equities and equity related securities.

The Master Fund may use derivatives for investment purposes and/or Efficient Portfolio Management. The Master Fund may take long and short positions through the use of derivatives, which may result in the Master Fund being leveraged and the Master Fund's net asset value having high volatility.

The Master Fund aims to protect against exchange rate movements between the base currency of the Master Fund (US Dollars) and the currency of share classes that are denominated in a different currency to the base currency by hedging.

Full details of the Master Fund's investment objective and policies and investment and borrowing powers and their associated risks are set out in the prospectus of the Master Fund.

The Master Fund and the Quilter Investors Global Equity Absolute Return Fund have shown moderate volatility in the past.

General

A copy of the latest prospectus and annual report for the Master Fund are available at www.jupiteram.com.

There is an information sharing agreement in place between the ACD and the Master Fund which covers inter alia access to information by both parties, the basis of investment and divestment by the Fund from the Master Fund, dealing arrangements and arrangements for the preparation of the audit reports of the Master Fund and the Fund. Further information relating to the Master Fund and the information sharing agreements is available from the ACD at its office free of charge.

For the avoidance of doubt, any fee, commission or other monetary benefit received by the Fund, or any person acting on behalf of the Fund, in connection with the investment by the Fund in the Master Fund, shall be paid directly into the assets of the Fund.

Further Funds

Subject to the Sourcebook the ACD may establish additional Funds from time to time. On the introduction of any new Fund a revised Prospectus will be prepared setting out the relevant details of each Fund.

THE AUTHORISED CORPORATE DIRECTOR

The Authorised Corporate Director of the Company is Quilters Investors Limited, a limited company incorporated in England and Wales on 4 June 2001 with registered number 4227837. The head office and registered office of the ACD are at Senator House, 85 Queen Victoria Street, London EC4V 4AB. As at the date of this Prospectus, the amount of the ACD's issued share capital is 12,600,000 of ordinary £1 shares of which £12,600,000 is allotted and fully paid up.

In addition to the Company, the ACD acts as manager of the authorised unit trusts and as authorised corporate director of the open-ended investment companies set out in Appendix V.

The ACD is authorised and regulated in the United Kingdom by the Financial Conduct Authority whose address is 12 Endeavour Square, London E20 1JN.

When acting as authorised corporate director of the Company, the ACD will not be obliged to make use of information which in doing so would be a breach of its duty of confidence to any other person.

The ACD is responsible for operating the Company's affairs in accordance with the Sourcebook. The ACD is permitted to delegate its management and administration functions, but not responsibility, to third parties, subject to the rules in the Sourcebook. It has therefore delegated the functions of registrar and fund administration to the Registrar and the Administrator respectively (see further "The Administrator and Registrar" section below). In addition, it has also delegated the function of investment management to the Investment Manager (see further 'The Investment Manager' section below).

The ACD is entitled to be indemnified by the Company against liabilities incurred in acting as ACD of the Company to the extent permitted by the OEIC Regulations and the Sourcebook.

The directors of the ACD are as follows:

Sarah Fromson
Christopher Eyssell
Nicholas Emmins
Stuart Geard
Marcus Brookes
Jennifer Barton

The directors of the ACD are on the board of other companies within the Quilter plc group which may invest in the Funds. However, none of the directors have any other business activities which are of significance to the business of the Funds.

The ACD provides its services to the Company under the terms of an ACD agreement dated 18 December 2013 as amended and restated from time to time (the "**ACD Agreement**").

The ACD Agreement provides that the appointment of the ACD may be terminated by the Company or the ACD giving not less than 6 months' written notice to the other party or the ACD Agreement may be terminated earlier in certain circumstances.

Upon termination of its appointment, the ACD is entitled to payment of its fees to the date of termination. No compensation for loss of office is provided for in the ACD Agreement.

The Company is required to indemnify the ACD against all liabilities as a result of any negligent or wrongful direction or requirement of the Company given or made under the ACD Agreement. Copies of the ACD Agreement are available to shareholders upon request. The fees to which the ACD is entitled are set out below.

Shareholders have no direct contractual rights against the ACD; any action taken against the ACD under the ACD agreement where the Company has suffered loss must be taken by the Company itself.

In addition, the Company may by ordinary resolution remove any director notwithstanding anything in this Prospectus or in any agreement between the Company and such director. Such removal shall take effect only upon the satisfaction of either of the conditions appearing in Regulation 21(3) of the OEIC Regulations and shall be without prejudice to any claim such director may have for damages for breach of any such agreement. The resolution mentioned in this paragraph may not be moved at a meeting unless notice of the intention to move such a resolution has been given to the Company at least 28 days before the meeting.

The Company has no other directors.

ACD's Remuneration Policy

The FCA's remuneration requirements have been implemented primarily to ensure that relevant members of staff are not incentivised, by way of their remuneration package, to take excessive risks when managing funds. The ACD has approved and adopted a remuneration policy (the "**Remuneration Policy**") which explains how the ACD complies with such requirements and which staff are covered. Details of the up-to-date Remuneration Policy, including a description of how remuneration and benefits are calculated and the identities of the persons responsible for awarding such remuneration and benefits can be accessed from the following website: www.quilter.com. A paper copy of these details is also available free of charge from the ACD upon request.

THE INVESTMENT MANAGER

The ACD has appointed the Investment Manager (Quilter Investment Platform Limited) to provide investment management services to the ACD. Quilter Investment Platform Limited is a limited company incorporated in England and Wales on 22 November 1982 with registered number 01680071. The registered office of the Investment Manager is at Senator House, 85 Queen Victoria Street, London, EC4V 4AB. The principal activity of the Investment Manager is the provision of investment management services.

The Investment Manager is authorised and regulated in the United Kingdom by the Financial Conduct Authority whose address is 12 Endeavour Square, London E20 1JN.

Terms of Appointment

The Investment Manager was appointed by an agreement dated 9 December 2024 between the ACD and the Investment Manager, as amended from time to time (the "**Investment Management Agreement**").

Under the terms of the Investment Management Agreement, the ACD retains the power to take decisions in key areas that fall under its responsibility and allows the ACD to monitor, enquire, inspect and have access to the Investment Manager to allow the ACD to review (on an on-going basis) the services provided by the Investment Manager.

Subject to the above the Investment Manager shall have full power, authority and right to exercise the functions, duties, powers and discretions exercisable by the ACD to manage the investment of the scheme property of each Fund. The Investment Manager may manage all or part of the portfolio of the Funds itself, or it may delegate any of its rights and obligations under the Investment Management Agreement with the prior written consent of the ACD, but the Investment Manager shall remain responsible to the ACD for the performance of its obligations and duties under this Agreement and shall remain liable for any act or omission of any such delegate as if such act or omission were its own.

The Investment Management Agreement may be terminated by the ACD by giving not less than six months' written notice to the Investment Manager (or immediately if this is in the interests of investors) and by the Investment Manager by giving not less than 12 months' written notice to the ACD and immediately by written notice by either party on the happening of certain events, including any material breach or insolvency. The Investment Management Agreement will also terminate automatically if the agreement appointing the ACD is terminated or if the ACD or the Investment Manager cease to be authorised to act as such. The Investment Manager is entitled to a fee paid out of the fees payable to the ACD.

INVESTMENT ADVISERS

Quilter Investors Asia Pacific (ex Japan) Large-Cap Equity Fund and Quilter Investors Investment Grade Corporate Bond Fund: The Investment Adviser for these Funds is Invesco Asset Management Limited ("**Invesco**").

Invesco's main business activity is fund management for retail and institutional clients. The Investment Manager has entered into an agreement with Invesco under which Invesco is responsible, as the Investment Manager's delegate, for all the day-to-day investment management of the Funds, in accordance with the objectives and restrictions set out in this Prospectus. The agreement may be terminated by the Investment Manager immediately on giving notice and by Invesco on giving not less than three months' notice in writing to the Investment Manager. The fees due to Invesco will be paid monthly by the Investment Manager out of the fees to which it is entitled as set out in this Prospectus. Invesco is authorised by the FCA.

Quilter Investors Dynamic Bond Fund: The Investment Adviser for this Fund is TwentyFour Asset Management LLP ("**TAM**").

TAM's main business activity is fund management for institutional clients. The Investment Manager has entered into an agreement with TAM under which TAM is responsible, as the Investment Manager's delegate, for all the day-to-day investment management of the Fund, in accordance with the objectives and restrictions set out in this Prospectus. The agreement may be terminated by the Investment Manager immediately on giving notice and by TAM on giving not less than six months' notice in writing to the Investment Manager. The fees due to TAM will be paid monthly by the Investment Manager out of the fees to which it is entitled as set out in this Prospectus. TAM is authorised by the FCA.

Quilter Investors Asia Pacific (ex Japan) Equity Fund, Quilter Investors Global Equity Growth Fund, Quilter Investors Sterling Corporate Bond Fund and Quilter Investors Sterling Diversified Bond Fund: The Investment Adviser for these Funds is FIL Pensions Management ("**FIL**").

FIL's main business activity is investment management for institutional and retail clients. The Investment Manager has entered into an agreement with FIL under which FIL is responsible, as the Investment Manager's delegate, for all the day-to-day investment management of the Funds, in accordance with the objectives and restrictions set out in this Prospectus. The agreement may be terminated by the Investment Manager immediately on giving notice and by FIL on giving three months' notice in writing to the Investment Manager. The fees due to FIL will be paid monthly by the Investment Manager out of the fees to which it is entitled as set out in this Prospectus. FIL is authorised by the FCA.

Quilter Investors Emerging Markets Equity Growth Fund and Quilter Investors US Equity Growth Fund: The Investment Adviser for these Funds is JPMorgan Asset Management (UK) Limited ("**JPMorgan**"). JP Morgan has sub-delegated to J.P. Morgan Investment Management Inc. with regards to the Quilter Investors US Equity Growth Fund.

JPMorgan's main business activity is fund management for retail and institutional clients. The Investment Manager has entered into an agreement with JPMorgan under which JPMorgan is responsible, as the Investment Manager's delegate, for all the day-to-day investment management of the Funds, in accordance with the objectives and restrictions set out in this Prospectus. The agreement may be terminated by the Investment Manager immediately on giving notice and by JPMorgan on giving not less than six months' notice in writing to the Investment Manager. The fees due to JPMorgan will

be paid monthly by the Investment Manager out of the fees to which it is entitled as set out in this Prospectus. JPMorgan is authorised by the FCA.

Quilter Investors Corporate Bond Fund and Quilter Investors Diversified Bond Fund: The Investment Adviser for these Funds is Premier Fund Managers Limited (“**Premier**”).

Premier’s main business activity is investment management for retail and institutional clients. The Investment Manager has entered into an agreement with Premier under which Premier is responsible, as the Investment Manager’s delegate, for all the day-to-day investment management of the Funds, in accordance with the objectives and restrictions set out in this Prospectus. The agreement may be terminated by the Investment Manager immediately on giving notice and by Premier on giving not less than six months’ notice in writing to the Investment Manager. The fees due to Premier will be paid monthly by the Investment Manager out of the fees to which it is entitled as set out in this Prospectus. Premier is authorised by the FCA.

Quilter Investors Emerging Markets Equity Fund: The Investment Adviser for this Fund is Jupiter Asset Management Limited (“**Jupiter**”).

Jupiter’s main business activity is investment management for institutional clients. The Investment Manager has entered into an agreement with Jupiter under which Jupiter is responsible, as the Investment Manager’s delegate, for some or all the day-to-day investment management of the Fund, in accordance with the objectives and restrictions set out in this Prospectus. The agreement may be terminated by not less than one month’s written notice by either party and immediately by written notice by either party on the happening of certain events, including any material breach or insolvency. The fees due to Jupiter will be paid monthly by the Investment Manager out of the fees to which it is entitled as set out in this Prospectus. Jupiter is authorised by the FCA.

Quilter Investors Absolute Return Bond Fund, Quilter Investors China Equity Fund, Quilter Investors Europe (ex UK) Equity Fund and Quilter Investors Natural Resources Equity Fund: The Investment Adviser for these Funds is Janus Henderson Investors UK Limited (“**Henderson**”) who has delegated to Janus Henderson Investors US LLC for the Quilter Investors Absolute Return Bond Fund, Janus Henderson Investors (Singapore) for the Quilter Investors China Equity Fund and Janus Henderson Investors (Australia) Institutional Funds Management Limited for the Quilter Investors Natural Resources Equity Fund.

Henderson’s main business activity is fund management for retail and institutional clients. The Investment Manager has entered into an agreement with Henderson under which Henderson is responsible, as the Investment Manager’s delegate, for all the day-to-day investment management of the Funds, in accordance with the objectives and restrictions set out in this Prospectus. The agreement may be terminated by the Investment Manager immediately on giving notice and by Henderson on giving not less than three months’ notice in writing to the Investment Manager. The fees due to Henderson will be paid monthly by the Investment Manager out of the fees to which it is entitled as set out in this Prospectus. Henderson is authorised by the FCA.

Quilter Investors Emerging Markets Equity Income Fund: The Investment Adviser for this Fund is Allspring Global Investments LLC (“**Allspring**”).

Allspring’s main business activity is investment management for institutional and retail clients. The Investment Manager has entered into an agreement with Allspring under which Allspring is responsible, as the Investment Manager’s delegate, for all the day-to-day investment management of the Fund, in accordance with the objectives and restrictions set out in this Prospectus. The agreement may be terminated by the Investment Manager immediately on giving notice and by Allspring on giving not less than six months’ notice in writing to the Investment Manager. The fees due to Allspring will be paid monthly by the Investment Manager out of the fees to which it is entitled as set out in this Prospectus. Allspring is regulated by the SEC.

Quilter Investors Europe (ex UK) Equity Growth Fund: The Investment Adviser for this Fund is AllianceBernstein Limited (“**AllianceBernstein**”) who has delegated to AllianceBernstein (Europe) Limited.

AllianceBernstein's main business activity is fund management for retail and institutional clients. The Investment Manager has entered into an agreement with AllianceBernstein under which AllianceBernstein is responsible, as the Investment Manager's delegate, for all the day-to-day investment management of the Fund, in accordance with the objectives and restrictions set out in this Prospectus. The agreement may be terminated by the Investment Manager immediately on giving notice and by AllianceBernstein on giving not less than six months' notice in writing to the Investment Manager. The fees due to AllianceBernstein under this agreement will be paid monthly by the Investment Manager out of the fees to which it is entitled as set out in this Prospectus. AllianceBernstein is authorised by the FCA.

Quilter Investors Europe (ex UK) Equity Income Fund and Quilter Investors US Equity Small/Mid-Cap Fund: The Investment Adviser for these Funds is Schroder Investment Management Limited ("**Schroder Ltd**").

Schroder Ltd's main business activity is fund management for institutional clients. The Investment Manager has entered into an agreement with Schroder Ltd under which Schroder Ltd is responsible, as the Investment Manager's delegate, for all the day-to-day investment management of the Funds, in accordance with the objectives and restrictions set out in this Prospectus. The agreement may be terminated by the Investment Manager immediately on giving notice and by Schroder Ltd on giving not less than three months' notice in writing to the Investment Manager. The fees due to Schroder Ltd will be paid monthly by the Investment Manager out of the fees to which it is entitled as set out in this Prospectus. Schroder Ltd is authorised by the FCA.

Quilter Investors Precious Metals Equity Fund: The Investment Adviser for this Fund is BlackRock Investment Management (UK) Limited ("**BlackRock**").

BlackRock's main business activity is fund management for institutional clients. The Investment Manager has entered into an agreement with BlackRock under which BlackRock is responsible, as the Investment Manager's delegate, for all the day-to-day investment management of the Fund, in accordance with the objectives and restrictions set out in this Prospectus. The agreement may be terminated by the Investment Manager immediately on giving notice and by BlackRock on giving three months' notice in writing to the Investment Manager. The fees due to BlackRock under this agreement will be paid monthly by the Investment Manager out of the fees to which it is entitled as set out in this Prospectus. BlackRock is authorised by the FCA.

Quilter Investors Global Equity Value Fund: The Investment Adviser for this Fund is RWC Asset Management LLP ("**RWC**").

RWC's main business activity is fund management for retail and institutional clients. The Investment Manager has entered into an agreement with RWC under which RWC is responsible, as the Investment Manager's delegate, for all the day-to-day investment management of the Fund, in accordance with the objectives and restrictions set out in this Prospectus. The agreement may be terminated by the Investment Manager immediately on giving notice and by RWC on giving not less than six months' notice in writing to the Investment Manager. The fees due to RWC will be paid monthly by the Investment Manager out of the fees to which it is entitled as set out in this Prospectus. RWC is authorised by the FCA.

Quilter Investors Japanese Equity Fund: The Investment Adviser for this Fund is M&G Investment Management Limited ("**M&G**").

M&G's main business activity is fund management for institutional clients. The Investment Manager has entered into an agreement with M&G under which M&G is responsible, as the Investment Manager's delegate, for all the day-to-day investment management of the Fund, in accordance with the objectives and restrictions set out in this Prospectus. The agreement may be terminated by the Investment Manager immediately on giving notice and by M&G on giving not less than six months' notice in writing to the Investment Manager. The fees due to M&G will be paid monthly by the Investment Manager out of the fees to which it is entitled as set out in this Prospectus. M&G is authorised and regulated by the FCA.

Quilter Investors US Equity Income Fund: The Investment Adviser for this Fund is BNY Mellon Investment Management EMEA Limited ("**BNY Mellon**") who has delegated to Newton Investment Management North America, LLC.

BNY Mellon's main business activity is fund management for retail and institutional clients. The Investment Manager has entered into an agreement with BNY Mellon under which BNY Mellon is responsible, as the Investment Manager's delegate, for all the day-to-day investment management of the Fund, in accordance with the objectives and restrictions set out in this Prospectus. The agreement may be terminated by the Investment Manager immediately on giving notice and by BNY Mellon on giving not less than 90 calendar days' notice in writing to the Investment Manager. The fees due to BNY Mellon will be paid monthly by the Investment Manager out of the fees to which it is entitled as set out in this Prospectus. BNY Mellon is authorised by the FCA.

Quilter Investors Timber Equity Fund: The Investment Adviser for this Fund is Pictet Asset Management S.A. ("**Pictet**").

Pictet's main business activity is fund management for institutional clients. The Investment Manager has entered into an agreement with Pictet under which Pictet is responsible, as the Investment Manager's delegate, for all the day-to-day investment management of the Fund, in accordance with the objectives and restrictions set out in this Prospectus. The agreement may be terminated by the Investment Manager immediately on giving notice and by Pictet on giving not less than six months' notice in writing to the Investment Manager. The fees due to Pictet will be paid monthly by the Investment Manager out of the fees to which it is entitled as set out in this Prospectus. Pictet is regulated by FINMA.

THE DEPOSITARY

The depositary is Citibank UK Limited (the "**Depositary**"). The registered office of the Depositary is Citigroup Centre, Canada Square, Canary Wharf, London E14 5LB. The Depositary is a private limited company incorporated in England with registered number 11283101.

The Depositary's ultimate holding company is Citigroup Inc., a company which is incorporated in New York, USA.

Key duties of the Depositary

The key duties of the Depositary consist of:

- cash monitoring and verifying each Fund's cash flows;
- safekeeping of the scheme property of each Fund;
- ensuring that the sale, issue, re-purchase, redemption, cancellation and valuation of shares are carried out in accordance with the Instrument of Incorporation, this Prospectus, and applicable law, rules and regulations;
- ensuring that, in transactions involving the scheme property of a Fund, any consideration is remitted to the relevant Fund within the usual time limits;
- ensuring that each Fund's income is applied in accordance with the Instrument of Incorporation, this Prospectus, applicable law, rules and regulations; and
- carrying out instructions from the ACD unless they conflict with the Instrument of Incorporation, this Prospectus, or applicable law, rules and regulations.

Terms of the Depositary Agreement

The Company, the ACD and the Depositary are all parties to a legal agreement appointing the depositary dated 29 April 2016 as novated with effect from 6 November 2021 and as may be amended, restated or supplemented from time to time (the "**Depositary Agreement**").

The Depositary Agreement may be terminated by not less than 90 days' written notice provided that no such notice shall take effect until the appointment of a successor to the Depositary.

Without prejudice to any indemnity to which the Depositary may otherwise be entitled under applicable law, the Company and the ACD will (i) indemnify the Depositary for all losses, costs, damages, taxes and expenses (including reasonable legal fees and disbursements) (each a "**Loss**") incurred by the Depositary (directly or payable to its agents or sub-custodians) arising in connection with the failure of the Company or the ACD to perform any of its obligations under the Depositary Agreement or arising from or in connection with the Depositary's appointment or performance under the Depositary Agreement, and (ii) defend and hold the Depositary harmless from or in connection with any Loss imposed on, incurred by, or asserted against the Depositary (directly or through any of its agents or sub-custodians) or otherwise arising in connection with or arising out of any claim, action or proceeding by any third party, except any Loss arising from the Depositary's failure to satisfy its obligation of due skill, care and diligence as provided in the Depositary Agreement or the failure of any agent to satisfy the same standard of care, or any Loss for which the Depositary is liable under UK UCITS requirements or any Loss resulting from the negligence, intentional failure or fraud of the Depositary or any of its agents or sub-custodian.

The Depositary is entitled to receive remuneration out of the scheme property for its services, as set out in the "Other Fees and Expenses" section below.

Liability of the Depositary

As a general rule the Depositary is liable for any losses suffered as a result of the depositary's, its agent's or sub custodian's negligence or intentional failure, or fraud in fulfilling its obligations except that it will not be liable for any loss where:

- the event which has led to the loss is not the result of any act or omission of the Depositary (or a third party to whom the Depositary has delegated its safe custody function);
- the Depositary could not have reasonably prevented the occurrence of the event which led to the loss despite adopting all precautions incumbent on a diligent depositary as reflected in common industry practice; and
- despite rigorous and comprehensive due diligence, the Depositary could not have prevented the loss.

However, in the case of loss of a financial instrument by the Depositary, or by a third party, the Depositary is under an obligation to return a financial instrument of identical type or corresponding amount without undue delay unless it can prove that the loss arose as a result of an external event beyond the Depositary's reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary.

Delegation of safekeeping function

Under the terms of the Depositary Agreement, the Depositary has the power to delegate its safekeeping functions.

As a general rule, whenever the Depositary delegates any of its custody functions to a delegate, the Depositary will remain liable for any losses suffered as a result of an act or omission of the delegate as if such loss had arisen as a result of an act or omission of the Depositary. The use of securities settlement systems or order routing systems does not constitute a delegation by the Depositary of its functions.

As at the date of this Prospectus, the Depositary has entered into a written agreement delegating the performance of its safekeeping function in respect of certain of the Funds' assets to Citibank N.A. Details of any sub-delegates are set out in Appendix VII hereto.

Conflicts of interest

Actual or potential conflicts of interest may also arise between the Funds, the shareholders or the ACD on the one hand and the Depositary on the other hand.

Non-exclusive services

The Depositary may act as the depositary of other investment funds. The Depositary may have other clients whose interests may conflict with those of the Funds, the shareholders or the ACD.

Affiliates

From time to time conflicts may arise from the appointment by the Depositary of any of its delegates. For example, Citibank N.A., which has been appointed by the Depositary to act as custodian of the scheme property, also performs certain investment operations and functions and derivatives collateral management functions delegated to it by the ACD.

The Depositary will ensure that any such delegates or sub-delegates who are its affiliates are appointed on terms which are not materially less favourable to the Funds than if the conflict or potential conflict had not existed. Citibank N.A. and any other delegate is required to manage any such conflict having regard to the FCA Rules and its duties to the Depositary and the ACD.

Conflicting commercial interests

The Depositary (and any of its affiliates) may effect, and make a profit from, transactions in which the Depositary (or its affiliates, or another client of the Depositary or its affiliates) has (directly or indirectly) a material interest or a relationship of any description and which involves or may involve a potential conflict with the Depositary's duty to the Funds.

This includes circumstances in which the Depositary or any of its affiliates or connected persons: acts as market maker in the investments of the Funds; provides broking services to the Funds and/or to other funds or companies; acts as financial adviser, banker, derivatives counterparty or otherwise provides services to the issuer of the investments of the Funds; acts in the same transaction as agent for more than one client; has a material interest in the issue of the investments of the Funds; or earns profits from or has a financial or business interest in any of these activities.

Management of conflicts

The Depositary has a conflict of interest policy in place to identify, manage and monitor on an on-going basis any actual or potential conflict of interest. The Depositary has functionally and hierarchically separated the performance of its depositary tasks from its other potentially conflicting tasks. The system of internal controls, the different reporting lines, the allocation of tasks and the management reporting allow potential conflicts of interest and the Depositary issues to be properly identified, managed and monitored.

Shareholders may request an up to date statement from the ACD regarding (i) the Depositary's name; (ii) the Depositary's duties and the conflicts of interest that may arise between the Depositary and the Company, the shareholders or the ACD; and (iii) any safekeeping functions delegated by the Depositary, a description of any conflicts of interest that may arise from such delegation and a list showing the identity of each delegate and sub-delegate.

Reuse of scheme property by the Depositary

Under the Depositary Agreement the Depositary has agreed that it, and any person to whom it delegates custody functions, may not reuse any of the assets of a Fund with which it has been entrusted.

Reuse will be permitted in respect of the assets of a Fund where:

- the reuse is carried out for the account of the Fund;

- the Depositary acts on the instructions of the ACD on behalf of the Fund;
- the reuse of scheme property is for the benefit of the Fund and the shareholders;
- the transaction is covered by high quality and liquid collateral received by the Fund under a title transfer arrangement, the market value of which shall, at all times, amount to at least the market value of the re-used assets plus a premium.

THE ADMINISTRATOR AND REGISTRAR

The administrator of the Company is Citibank Europe plc (the “**Administrator**”) with its head office in Ireland at 1, North Wall Quay, Dublin 1, Ireland.

The ACD has entered into an agreement with the Administrator under which the Administrator is responsible, as the ACD’s delegate, for administering the Company, including fund accounting, tax and pricing functions.

SS&C acts as registrar (“**Registrar**”). In this capacity it is responsible for processing subscriptions and redemptions of shares and maintaining the register of shareholders (see further “Register” below). SS&C’s address is SS&C House, Saint Nicholas Lane, Basildon, Essex SS15 5FS.

SHARES IN THE COMPANY

Share classes

The Instrument of Incorporation allows the issue of both income and accumulation shares.

Details of the shares are set out in Appendix I.

Tax vouchers will be issued in respect of income accumulated and tax accounted for.

Accumulation Shares

Holders of accumulation shares are not entitled to be paid the income attributable to such shares, but that income is automatically transferred to (and retained as part of) the capital assets of the relevant fund and reflected in the price of such shares.

A (GBP) Accumulation shares, A (EUR) Accumulation shares, A (USD) Accumulation shares, A (GBP) Hedged Accumulation shares, A (EUR) Hedged Accumulation shares and A (USD) Hedged Accumulation shares are predominantly offered to direct retail investors, (as well as to intermediaries whose business remains eligible for commission or legacy business).

O (GBP) Accumulation shares, O (EUR) Hedged Accumulation shares and O (USD) Hedged Accumulation shares are offered primarily as an investment to retail investors. Investors wishing to purchase these shares should do so via their financial intermediary.

R (GBP) Accumulation shares are predominantly offered to platforms and independent financial advisers whose business is not eligible for commission, and who in the ACD’s reasonable opinion are able to subscribe an amount in excess of the investment minimum of £5,000.000.

U1 (GBP) Accumulation shares are only available to investors who in the ACD’s reasonable opinion are able to subscribe an amount in excess of the investment minimum as set out in Appendix I and who have agreed specific terms of business with the ACD.

U2 (GBP) Accumulation shares and U2 (GBP) Hedged Accumulation shares are offered only as an investment through designated financial intermediaries who have agreed specific terms of business with the ACD.

Income shares

A (GBP) Income shares are predominantly offered to direct retail investors, (as well as to intermediaries whose business remains eligible for commission or legacy business).

R (GBP) Income shares are predominantly offered to platforms and independent financial advisers whose business is not eligible for commission, and who in the ACD's reasonable opinion are able to subscribe an amount in excess of the investment minimum of £5,000.000.

U1 (GBP) Income shares are only available to investors who in the ACD's reasonable opinion are able to subscribe an amount in excess of the investment minimum as set out in Appendix I and who have agreed specific terms of business with the ACD.

U2 (GBP) Income shares and U2Q (GBP) Income shares are offered only as an investment through designated financial intermediaries who have agreed specific terms of business with the ACD.

A (EUR) Hedged Accumulation shares, A (EUR) Hedged Income shares, O (EUR) Hedged Accumulation shares and O (USD) Hedged Income shares

These shares are subject to a policy of currency hedging. For these share classes the ACD uses hedging transactions to reduce risk by limiting the impact of exchange rate movements between the base currency of the Fund in which these hedged share classes are in issue (Sterling) and the currency in which the hedged shares are denominated (Euro or US Dollar). The intention is to hedge the total return on the underlying investments. The ACD uses derivatives and forward contracts (in accordance with the techniques of EPM) for this purpose. The costs of hedging a class of shares and the potential risk reducing benefits will accrue only to shareholders in that hedged share class and not to shareholders invested in other share classes within the same Fund. The ACD will aim to hedge between 97.5% and 102.5% of the Net Asset Value (capital and income) of the relevant share class. Consequently the hedged share classes may not be completely protected from any adverse fluctuations between the currency in which they are denominated and the base currency of the relevant Fund. Shareholders should be aware that hedged share classes aim to reduce exposure to exchange rate fluctuations at share class level, however, investors in hedged share classes will still be exposed to the market risks that relate to the underlying investments in a Fund and to any exchange rate risks that arise from the policy of that Fund that are not fully hedged.

Other classes of shares

In the future the Company may, with the approval of the FCA, issue other classes of shares in relation to each Fund. Creation of such further classes will not affect the rights of holders of shares of the existing classes.

Key Investor Information and Available Share Classes

Each share class that is available for subscription will have a Key Investor Information Document ("KIID") issued in accordance with the requirements of the FCA. Prospective investors should consider the KIID for the relevant share class prior to subscribing for shares in that class in order to assist them in making an informed investment decision. Each KIID is available from www.quilter.com. Some share classes may not currently be offered for subscription, and in the event that a KIID is not available from the aforementioned source, prospective investors should contact the Registrar directly to determine whether the relevant share class is available for subscription. Prospective investors must ensure that they have read the most up to date KIID for the relevant share class in which they intend to invest before doing so.

Voting rights

Voting rights attached to each class of shares are described under the "Voting" section.

Compulsory redemption

Shares may be compulsorily redeemed in the circumstances described under the "Mandatory redemption or transfer of shares" section.

Register

A register of shareholders is maintained by the Registrar and can be inspected at SS&C House, Saint Nicholas Lane, Basildon, Essex SS15 5FS. Certificates are not issued. To assist shareholders in monitoring their holdings of shares a half-yearly valuation showing current holdings will be sent to all shareholders in a Fund, or to the first named shareholder in the case of joint holdings.

The register is prima facie evidence as to matters properly entered in it. No notice of any trust (express, implied or constructive) may be entered in the register or be receivable by the Company, although this will not affect the obligations of the ACD in respect of any plan register. The Registrar is not obliged to register more than four persons as the joint holders of any shares.

Should any shareholder require evidence of title to shares the ACD will, upon such proof of identity as the Company may reasonably require, supply the shareholder with a certified copy of the relevant entry in the register relating to the shareholder's holding of shares.

General

Shareholders must notify the Registrar of any change of name or address.

Shares in the Funds are not listed or dealt in on any investment exchange.

No bearer shares will be issued.

The shareholders of the Company will not be liable for the debts of the Company or the Funds.

TRANSFER OF SHARES

A shareholder is entitled (subject as mentioned below) to transfer shares by an instrument of transfer in any usual or common form or in any other form approved by the ACD. At present, transfer of title by electronic communication is only permitted where (i) the Registrar has made arrangements to allow shares to be bought on-line or through other communication media and (ii) the ACD, or one of its associates, has entered into an agreement with the relevant third party institution. The ACD is not obliged to accept a transfer if it would result in the holder, or the transferee, holding less than the minimum holding of shares of the class in question. The instrument of transfer, duly stamped if it is required to be stamped, must be lodged with the Registrar for registration. The transferor remains the holder until the name of the transferee has been entered in the register.

The Company or the Registrar may require the payment of such reasonable fee as the ACD and the Company may agree for the registration of any grant of probate, letters of administration or any other documents relating to or affecting the title to any share.

VALUATIONS

General

Each share in a Fund represents the overall property of the Fund: so for any purpose a valuation of shares of any given class in a Fund is achieved by valuing the property in the Fund attributable to that class, less expenses and charges, and dividing that value by the number of shares of the relevant class in existence.

Valuations

Regular valuations are made in respect of all Funds on each Business Day as at 12.00 noon (UK time), which is the valuation point for each Fund.

The calculation of prices of shares commences at or about the valuation point on each Dealing Day. The ACD may carry out additional valuations in accordance with the Sourcebook if it considers it desirable to do so. Valuations will not be made during a period of suspension of dealings (see the

“Suspension of Dealings” section). The ACD is required to notify share prices to the Depositary on completion of a valuation.

The property of a Fund is valued on the following basis in accordance with the Instrument of Incorporation:

- Transferable securities for which market quotations are available are valued at their last quoted price prevailing at the valuation point where available (or, if separate buying and selling prices are quoted, the average of such prices); in the case of order-driven markets the most recently known price at which the securities were traded on the relevant exchange is used. Any unquoted or suspended investments are valued at the ACD’s discretion, in accordance with the Sourcebook (see the “Fair Value Pricing” section).
- Units or shares in collective investment schemes are valued, in the case of single priced collective investment schemes, at the last quoted price available, or, in the case of dual priced collective investment schemes, at the mid of the cancellation and creation prices. In the case of collective investment schemes managed by the ACD this will be the most recent Net Asset Value available for single priced collective investment schemes (prior to any dilution adjustment) and the mid of cancellation and creation for dual priced collective investment schemes.
- Cash and amounts held in current and deposit accounts and other time-related deposits are valued at their nominal value.
- Derivative instruments dealt in on a market will be valued at the settlement price for such instruments on such market. Over-the-counter (“**OTC**”) derivative contracts will be valued daily either (i) on the basis of a quotation provided by the relevant counterparty and such valuation shall be approved or verified at least weekly by a party who is approved for the purpose by the Depositary and who is independent of the counterparty (the “**Counterparty Valuation**”); or (ii) using an alternative valuation provided by a competent person appointed by the ACD and approved for the purpose by the Depositary or a valuation by any other means provided that the value is approved by the Depositary (the “**Alternative Valuation**”). Where such Alternative Valuation method is used the Company will follow international best practise and adhere to the principals on valuation of OTC instruments established by bodies such as the International Organization of Securities Commission (IOSCO) and the Alternative Investment Management Association (AIMA) and will be reconciled to the Counterparty Valuation on a monthly basis. Where significant differences arise these will be promptly investigated and explained.
- Contingent liability transactions will be valued using a method agreed between the ACD and the Depositary incorporating the following requirements: written options will be valued after deduction of the premium receivable; off-exchange futures will be valued at the net value of closing out; all other contingent liability transactions will be valued at the net value of margin on closing out.
- Any other property will be valued at what the ACD considers a fair and reasonable mid-market price.
- In valuing assets, any fiscal or other charges paid or payable on the acquisition or disposal of the asset are excluded.
- Deductions are made for anticipated UK and non-UK tax liabilities and for an estimated amount of other liabilities payable out of the property of the Fund, and for outstanding borrowings together with accrued but unpaid interest.
- Amounts are added in respect of prudently estimated, recoverable tax and any other amounts due to be paid into the Fund.
- A sum representing any interest or any income accrued due or deemed to have accrued but not received will be added.
- The total amount of any set-up costs to be (but not yet) reimbursed to the ACD will be deducted.

For the above purposes, instructions given to issue or cancel shares are assumed to have been carried out (and any cash paid or received); and uncompleted arrangements for the unconditional sale or purchase of property are (with certain exceptions) assumed to have been completed and all consequential action taken.

Fair Value Pricing

The ACD may apply a fair value price determined in accordance with the Sourcebook if it has reasonable grounds for believing that no reliable price exists for a security at a valuation point or the most recent price available does not reflect the ACD's best estimate of the value at the valuation point.

Allocation of assets and liabilities to Funds

Each Fund has credited to it the proceeds of all sales of shares in that Fund, together with the assets in which such proceeds are invested or reinvested and all income, earnings, profits or assets deriving from such investments. All liabilities and expenses attributable to a Fund are charged to it.

The Company is required to allocate (and the ACD may from time to time reallocate) any assets, costs, charges or expenses which are not attributable to a particular Fund among the Funds (and between the share classes in each Fund) in a manner which is fair to the shareholders of the Company generally.

Prices of shares

The Company deals on a forward price basis, that is at the price for each class of share in each Fund at the next valuation point following receipt of a request to purchase or redeem shares.

The Company operates on the basis of "single pricing", i.e. the issue and redemption price of a share at a particular valuation point will be the same. Accordingly there will only be a single price for any share as determined from time to time by reference to a particular valuation point. The price of a share is calculated (to at least four significant figures) by:

- taking the value of the relevant Fund attributable to the relevant class at the next valuation point of the Fund;
- deducting any fees payable by the relevant class at the valuation point concerned which have not already been paid by the relevant Fund; and
- dividing the result by the number of shares of the relevant class in the relevant Fund in issue immediately before the valuation point concerned.

Once the single price of a share has been determined (including the dilution adjustment), the initial charge (if applicable) will be applied to the amount invested or redeemed.

Dilution adjustment policy

What is a dilution adjustment? Where a Fund buys or sells underlying investments in response to a request for the purchase or redemption of shares, it would generally incur a cost. These costs may include dealing charges, commissions, levies, transfer taxes, anti-dilution levy and the effects of the difference between the buying and selling prices of the underlying investments and the mid price at which the Fund is valued. If these costs were not reflected in the share price paid by or to the shareholder when buying or selling shares there would be an impact upon existing shareholders, referred to as "dilution", which may constrain the Fund's future growth.

Therefore, once the single price of a share has been determined (in accordance with "Prices of shares" above) a "dilution adjustment" may be applied to the price in accordance with the policy outlined below. This is known as swinging single pricing i.e. the price swings in response to particular circumstances to mitigate dilution.

When there are net inflows to a Fund, a dilution adjustment may be applied to increase the price (price swings up) and when there are net outflows from a Fund, a dilution adjustment may be applied to reduce

the price (price swings down). This is to reflect the true cost of purchasing or redeeming shares in a Fund. These costs are estimated and can vary over time dependent on prevailing dealing spreads and market transaction costs and as a result the dilution adjustment will also vary over time.

Why impose a dilution adjustment? - Any dilution adjustment is imposed for the protection of existing shareholders within the Fund to prevent inflows and outflows adversely affecting their interests through the costs referred to above. Neither the ACD nor any introducing agent in any way benefits from the imposition of a dilution adjustment.

In what circumstances might a dilution adjustment be imposed? The ACD may make a discretionary dilution adjustment if in its opinion the existing shareholders (for inflows) or continuing shareholders (for outflows) might otherwise suffer a material adverse impact. In particular, the ACD reserves the right to make a dilution adjustment in the following circumstances:

- (a) on a Fund experiencing large levels of net inflows relative to its size;
- (b) on a Fund experiencing large levels of net outflows relative to its size; or
- (c) in any other case where the ACD is of the opinion that the interests of existing or continuing shareholders require the imposition of a dilution adjustment.

Furthermore, when a Fund is typically expanding or contracting the ACD may operate a dilution adjustment on a semi-permanent basis to reflect the trend of net flows in to or out of the Fund.

As dilution is directly related to the inflows and outflows of monies from a Fund, it is not possible to accurately predict whether dilution will occur at any future point in time. Consequently, it is not possible to accurately predict how frequently the ACD will need to make such a dilution adjustment.

What is the size of any dilution adjustment? The dilution rates are set out below:

Fund	Dilution Adjustment on purchases	Dilution Adjustment on redemptions
Quilter Investors Absolute Return Bond Fund	0.17%	0.17%
Quilter Investors Asia Pacific (ex Japan) Equity Fund	0.28%	0.34%
Quilter Investors Asia Pacific (ex Japan) Large-Cap Equity Fund	0.29%	0.33%
Quilter Investors Bond 3 Fund	0.40%	0.45%

Quilter Investors US Equity Small/Mid-Cap Fund	0.09%	0.09%

These rates are indicative and are based on historical data. They are intended to provide a guide to shareholders and potential shareholders on the possible rate at which the dilution adjustment may be charged. The ACD will review dilution adjustments on at least a quarterly basis and according to prevailing market conditions. Furthermore, due to the nature of investments held within some of the Funds the ACD reserves the right to impose a higher dilution adjustment on any day where, due to the size of the net inflow or net outflow, higher trading cost will be incurred.

There is no dilution adjustment applied in respect of the Quilter Investors Global Equity Absolute Return Fund, as this is a Feeder Fund and the dilution adjustment is applied at the Master Fund level.

PURCHASE, REDEMPTION AND SWITCHING OF SHARES

General

Requests for the purchase, redemption and switching of shares are normally dealt with by the issue or cancellation of shares by the Depositary on the instructions of the ACD. However, in certain circumstances the ACD may, in accordance with the Sourcebook, deal with such requests by selling shares to, and/or repurchasing them from, the Applicant (as defined below) as appropriate. The ACD is entitled to hold shares for its own account and to satisfy requests for the sale of shares from its own holding; it is required by the Sourcebook to procure the issue or cancellation of shares by the Company where necessary to meet any obligation to sell or redeem shares.

If on receiving instructions from the ACD to issue or cancel shares, the Depositary is of the opinion that it is not in the interests of the shareholders that the shares should be issued or cancelled either at all or in the number instructed by the ACD the Depositary must give notice to the ACD that it refuses to issue, or as the case may be cancel, all, or a specified number of the shares.

The ACD may not sell a share at a higher price, or redeem a share at a lower price than the price notified to the Depositary in respect of the valuation point concerned.

The ACD is under no obligation to account to the Company or to shareholders or any of them for any profit it makes on the issue of shares or on the reissue or cancellation of shares which it has redeemed, and will not do so.

Purchase

Applications

Dealings are at forward prices, i.e. at a price calculated by reference to the next valuation point following receipt of an application. Shares to satisfy an application received before the valuation point (see the “Valuations” section) on a Dealing Day will be sold at a price based on that day’s valuation point and shares to satisfy an application received after that time, or on a day which is not a Dealing Day, will be sold at a price calculated at the valuation point on the next Dealing Day. Each Business Day will constitute a Dealing Day.

Shares can be bought by sending a completed application form to the Registrar (acting on behalf of the ACD) at Quilter Investors Limited, PO Box 10278, Chelmsford, CM99 2AR or by telephoning on 0808 100 3579. In addition, the Registrar has made arrangements with a third party institution to allow shares to be bought on-line or through other communication media. At present, transfer of title by electronic communication is only permitted where the ACD, or one of its associates, has entered into an agreement with that third party institution. Application forms are available from the Registrar and/or the ACD. Applications are irrevocable.

The ACD has the right to reject, on reasonable grounds relating to the circumstances of the Applicant, any application for shares in whole or in part, and in this event the ACD will return any money sent, or the balance of such monies, at the risk of the Applicant. In that event application moneys or any balance will be returned to the Applicant by post at his or her risk.

It should be noted that, pursuant to legislation in force in the United Kingdom to prevent money laundering (the “**Money Laundering Regulations**”), the ACD may in its absolute discretion require verification of identity from any person applying for shares (the “**Applicant**”) including, without limitation, any Applicant who:

- (a) tenders payment by way of cheque or banker’s draft on an account in the name of a person or persons other than the Applicant; or
- (b) appears to the ACD to be acting on behalf of some other person.

In the former case verification of the identity of the provider of funds may be required in addition to the Applicant. In the latter case, verification of the identity of any person on whose behalf the Applicant appears to be acting may be required.

A new corporate criminal offence came into force in the United Kingdom in 2017. This targets the failure by a ‘relevant body’ to prevent facilitation of tax evasion. If it can be demonstrated that reasonable prevention procedures were in place which were designed to prevent such facilitation occurring, the relevant body will not be guilty of a criminal offence. To the extent that it has not already done so, the ACD reserves the right to adopt such practices and procedures as it deems necessary to avoid committing an offence on the basis of the enacted form of the legislation.

Applications will not be acknowledged but a contract note will be sent to the Applicant (or the first named Applicant in the case of joint applications) on or before the Business Day next following the relevant Dealing Day. Where the total price payable for all shares for which the application is made would include a fraction of one penny it will be rounded up or down to the nearest penny. Settlement of purchase monies is due within three Business Days of the relevant Dealing Day.

If an Applicant defaults in making any payment in money, or by way of a transfer of property, due to the ACD in respect of the sale or issue of shares, the ACD is entitled to make any necessary amendment to the register and the ACD will become entitled to the shares in place of the Applicant, subject, in the case of an issue of shares, to the ACD’s payment of the purchase price to the Company. The ACD reserves the right to cancel investments for which settlement is not received, or fails to clear, and to recover from an Applicant, the amount of any decrease in value of the investment if this occurs.

In specie application

The ACD may, by special arrangement and at its discretion (but subject always to the requirement set out in the Sourcebook), agree to arrange for the issue of shares in exchange for assets other than cash but only if the Depositary is satisfied that acquisition of the assets in exchange for the number of shares to be issued is not likely to result in any material prejudice to the interests of holders or potential holders of shares in the Fund concerned.

Minimum initial purchase and subsequent investments

The minimum value of shares which may be the subject of any one initial transaction or purchase of shares in a particular share class of a Fund is detailed in Appendix I, as is the minimum of each subsequent investment. The ACD may at its sole discretion accept subscriptions lower than the minimum amount set out in Appendix I.

Minimum holding

In respect of shares in each share class of each Fund, the minimum value of shares which any one person may hold is detailed in Appendix I.

If following a redemption, cancellation switch or transfer, a shareholder's holding in any share class falls below the minimum holding for that class, the ACD has discretion to effect a redemption of that shareholder's entire holding in that share class or offer the shareholder a switch into another share class with a lower minimum holding (if available). The ACD may use this discretion at any time. Failure not to do so immediately after such redemption, cancellation, switch or transfer will not constitute a waiver of this right.

The value of shares for this purpose is calculated by reference to their current price. "Smaller denomination shares" (in effect, fractions of shares equal to 1/1000th of an ordinary share) may be issued and all investments will be rounded up to the nearest smaller denomination share. The minimum holding requirements will not be treated as being breached if the value of shares held falls below the relevant minimum solely as a result of a fall in the share price.

Redemption

Application

Shares in each Fund may be redeemed on any Dealing Day. Dealings are at forward prices as explained under "Purchase" above. Shares to be redeemed pursuant to a redemption request received before the valuation point of the appropriate Fund on a Dealing Day will be redeemed at a price based on that day's valuation point and shares to be redeemed pursuant to a redemption request received after that time, or on a day which is not a Dealing Day, at a price calculated at the valuation point on the next Dealing Day. Each Business Day will constitute a Dealing Day.

Requests to redeem shares may be made to the Registrar (acting on behalf of the ACD) by telephone on 0808 100 3579 or in writing to Quilters Investors Limited, PO Box 10278, Chelmsford, CM99 2AR. In addition, the Registrar has made arrangements with a third party institution to allow shares to be redeemed on-line or through other communication media. At present, transfer of title by electronic communication is only permitted where the ACD, or one of its associates, has entered into an agreement with that third party institution. Redemption instructions are irrevocable. The ACD may refuse a redemption instruction if it has reasonable grounds to do so.

A contract note giving details of the number and price of shares sold will be sent to the redeeming shareholder (the first named, in the case of joint shareholders) or his or her duly appointed representative together (if sufficient written instructions have not already been given) with a form of renunciation for completion and execution by the shareholder (and, in the case of a joint holding, by all the joint holders) not later than the end of the Business Day following the later of the request to redeem shares or the valuation point by reference to which the redemption price is determined. Where the total consideration for the transaction would include a fraction of one penny it will be rounded up or down to the nearest penny. The redemption proceeds will be paid not later than the close of business on the third Business Day after the later of the following times:

- (a) the valuation point immediately following the receipt by the Registrar (or the ACD, as the case may be) of the request to redeem the shares; and
- (b) the time when the Registrar (or the ACD, as the case may be) has received the form of renunciation (or other sufficient written instructions) duly signed by the relevant shareholder or shareholders together with such evidence as the ACD may lawfully require as proof of the identity of the shareholder and all other duly executed instruments and authorisations as effect (or enable the Registrar to effect) transfer of title to the shares.

But neither the Company, the ACD nor the Registrar is required to make payment in respect of a redemption of shares where the money due on the earlier issue of those shares has not yet been received or where the Registrar considers it necessary to carry out or complete identification procedures in relation to the holder or another person pursuant to a statutory or regulatory obligation (such as the Money Laundering Regulations).

Liquidity management

The ACD has a liquidity management policy and maintains tools and methods of monitoring the liquidity of the Funds, so that the ACD can attempt to ensure that the ACD can carry out investment requests. The liquidity risk management policies and procedures include the management, implementation and maintaining of appropriate liquidity limits for the Funds. In normal circumstances, dealing requests will be processed as set out above. In exceptional circumstances, other procedures, such as suspending dealings in a Fund, borrowing cash, deferring the redemption of shares, or applying in-specie redemptions may be used. The circumstances in which such tools may be used are set out in the relevant sections below.

If the ACD's policy for managing liquidity should change, this will be set out in the Annual Report.

Deferred redemption

If requested redemptions at a valuation point exceed 10% of the Fund's value, in order to protect the interests of continuing shareholders the redemptions may be deferred to the next valuation point in accordance with procedures that ensure the consistent treatment of shareholders who have sought to redeem at that valuation point. The procedures are that to the extent redemption requests are deferred, deferral will be pro-rata based on the value of shares being redeemed (provided that the ACD may determine in its discretion a value threshold below which all redemptions will be effected, and above which the foregoing pro-rata deferral shall apply) and that all deals relating to an earlier valuation point are completed before those relating to a later valuation point.

In specie redemption

Where a shareholder requests redemption of a number of shares, the ACD at its discretion may, where it considers the deal to be substantial in relation to the total size of the Fund concerned or in some way detrimental to the Fund, by serving a notice of election on the shareholder not later than the close of business on the second Business Day following the day of receipt of the request, elect that the shareholder shall not be paid the price of his or her shares but instead there shall be a transfer to that holder of property of the relevant Fund having the appropriate value. The selection of scheme property to be transferred is made by the ACD in consultation with the Depositary, but only where the Depositary has taken reasonable care to ensure the property concerned is not likely to result in any material prejudice to the interests of the shareholders. The Company may retain out of the property to be transferred property or cash of value or amount in respect of any applicable exit charge on the redemption of the shares.

Minimum redemption

Unless the ACD in its discretion allows otherwise, a redemption request may not be made in respect of some only of the investor's shares of a Fund if:

- (a) it would result in a holding in a share class of less than the minimum holding in relation to that Fund (see Appendix II); or

- (b) it relates to shares of a share class having a value (calculated by reference to their current price) of less than the minimum withdrawal amount detailed in Appendix I.

Switching

A holder of shares in a Fund may at any time switch all or some of his or her shares ("Old Shares") for shares of another Fund or another class ("New Shares"). The number of New Shares issued will be determined by reference to the respective prices of New Shares and Old Shares at the valuation point applicable at the time the Old Shares are repurchased and the New Shares are issued.

Switching may be effected in the same way as redemptions (see the "Redemption" section). A switch to be made pursuant to a request received before the valuation point of the Funds concerned, on a day which is a Dealing Day for both Funds (or if the valuation points on that day differ, before the first to occur) will be effected at prices based on that day's valuation points. Where a request is received after that time, or on a day which is not a Dealing Day for both Funds, the switch will be effected at a price calculated on the valuation points on the next such Dealing Day.

A contract note giving details of the switch will be sent on or before the Business Day next following the relevant Dealing Day.

A switching shareholder must be eligible to hold the shares into which the switch is to be made.

If the switch would result in the shareholder holding a number of Old Shares or New Shares of a value which is less than the minimum holding in the Fund concerned, the ACD may, if it thinks fit, convert the whole of the Applicant's holding of Old Shares to New Shares or refuse to effect any switch of the Old Shares. No switch will be made during any period when the right of shareholders to require the redemption of their shares is suspended. The general provisions on redeeming shares shall apply equally to a switch.

The ACD may adjust the number of New Shares to be issued to reflect the imposition of any switching fee together with any other charges or levies in respect of the issue or sale of the New Shares or repurchase or cancellation of the Old Shares as may be permitted pursuant to the FCA Rules.

Please note that, under current tax law, a switch of shares in one Fund for shares in any other Fund is treated as a disposal for the purposes of United Kingdom capital gains taxation. As a result, shareholders may incur a liability to capital gains tax depending on their personal circumstances. A switch of shares between different share classes in the same Fund will generally not be deemed to be a realisation for the purposes of United Kingdom capital gains taxation, except for switches from an unhedged share class to a hedged share class (or vice versa).

A shareholder who switches shares in one Fund for shares in any other Fund or shares in one class for shares in another class will not be given a right by law to withdraw from or cancel the transaction.

Share Class Conversions

If applicable, a holder of shares in a class ("**Old Class Shares**") of a Fund may exchange all or some of his or her shares for shares of a different class within the same Fund ("**New Class Shares**"). An exchange of Old Class Shares for New Class Shares will be processed as a conversion ("**Share Class Conversion**"). Unlike a switch, a conversion of Old Class Shares into New Class Shares will not involve a redemption and issue of shares. For the purposes of income equalisation the New Class Shares will receive the same treatment as the Old Class Shares.

The number of New Class Shares issued will be determined by a conversion factor calculated by reference to the respective prices of New Class Shares and Old Class Shares at the valuation point applicable at the time the Old Class Shares are converted to New Class Shares.

Conversions may be effected in the same way as redemptions (see the "Redemption" section). A conversion to be made pursuant to a request received before the valuation point of the Funds concerned, on a day which is a Dealing Day, will be effected at prices based on that day's valuation points. Where a request is received after that time, the conversion will be effected at a price calculated on the valuations points on the next Dealing Day.

A contract note giving details of the conversion will be sent on or before the Business Day next following the relevant Dealing Day.

A converting shareholder must be eligible to hold the shares into which the conversion is to be made.

If the conversion would result in the shareholder holding a number of Old Class Shares or New Class Shares of a value which is less than the minimum holding in the share class concerned, the ACD may, if it thinks fit, convert the whole of the Applicant's holding of Old Class Shares to New Class Shares or refuse to effect any conversion of the Old Class Shares. No conversion will be made during any period when the right of shareholders to require the exchange of their shares is suspended.

The ACD may also, in its sole discretion, convert some or all of the Old Class Shares held by any shareholder to New Class Shares, provided that the conversion does not materially prejudice any such shareholder. The ACD will provide the shareholder with 60 days' prior notice of any such conversion.

Please note that, under current tax law, a conversion of shares between different share classes in the same Fund will not be deemed to be a realisation for the purposes of capital gains taxation.

A shareholder who converts their shares in one share class to shares in a different share class in the same Fund will not be given a right by law to withdraw from or cancel the transaction.

Suspension of dealings

The ACD may with the prior agreement of the Depositary, and without delay if the Depositary so requires, at any time temporarily suspend the sale, redemption and switch of shares in any Fund for as long a period as is necessary if it, or the Depositary in the case of any requirement by the Depositary, is of the opinion that due to exceptional circumstances it is in the interests of shareholders of the Fund.

The ACD must immediately inform the FCA of any suspension, stating the reason for its action and ensure that notice of the suspension is made to shareholders as soon as practicable after the suspension commences. This notification will provide details of the exceptional circumstance which resulted in the suspension and inform shareholders where further details of the suspension (including, if known, its likely duration) will be published.

During a suspension, while it will not generally be possible to deal in shares, the ACD may agree to accept instructions to deal in shares in which case all instructions to deal which are accepted will be undertaken at the first valuation point following the end of the suspension. During the suspension, the ACD will comply with as many of its obligations in relation to valuation and pricing of the shares as is practicable.

The ACD and the Depositary must formally review the suspension at least every 28 days and inform the FCA of the result of this review with a view to ending the suspension as soon as practicable after the exceptional circumstances have ceased.

The ACD and the Depositary must ensure that the suspension is only allowed to continue for as long as it is justified having regard to the interests of shareholders.

Mandatory redemption or transfer of shares

If the ACD reasonably believes that any shares are owned directly or beneficially in circumstances which:

- (a) constitute a breach of the law or governmental regulation or rule (or any interpretation of a law or regulation by a competent authority) of any country or territory;
- (b) may (or may if other shares are acquired or held in like circumstances) result in the Company incurring any liability to taxation or suffering any other adverse consequence (including a requirement to register under any securities or investment or similar laws or governmental regulation of any country or territory); or

- (c) may result in shares of a particular class being acquired or held by any person not falling within the categories of persons (if any) who are permitted to hold shares of such class,

it may give notice to the holder of such shares requiring him or her to transfer them to a person who is qualified or entitled to own them, or to request in writing the redemption of the shares by the Company and will, in the case of (a), give notice in writing requesting the redemption of the shares. If in the case of (b) or (c) the holder does not either transfer the shares to a qualified person or establish to the ACD's satisfaction that he or she and any person on whose behalf he or she holds the shares are qualified and entitled to hold and own them, he or she will be deemed on the expiry of a 30-day period to have requested their redemption.

The ACD is also able to effect a compulsory redemption or switch of shares where a shareholding falls below the specified minimum holding (see "Minimum holding" above) and a compulsory redemption of shares to meet certain withholding tax requirements (see the "Withholding Tax Liability" section).

Publication of prices

The prices of each class of shares in each Fund will be published daily on the internet at www.quilter.com except when the ACD is excused from the requirement to deal in the relevant shares. Prices are also available by telephoning 0808 100 8808. The ACD issues and redeems shares in respect of each Fund on a forward pricing basis, not on the basis of the published prices.

DISTRIBUTION AND ACCUMULATION

The annual accounting period for the Company ends on 31 December (the "**accounting reference date**") or another day chosen by the ACD, if the ACD notifies the Depositary, being within seven days of that date. The half-yearly accounting period ends on the day six months before the accounting reference date (that is, 30 June) or another day chosen by the ACD and notified to the Depositary, being within seven days of that date.

For the following Funds, income is accumulated up until 31 December and 30 June in respect of each Fund. In the case of Funds where income shares are in issue, income is paid to the investor on 28 February and 31 August; where accumulation shares are in issue, income is transferred to the capital account of the relevant Fund. Where such date falls on a day which is not a Business Day, the amount of income to be distributed or accumulated by a Fund shall be transferred or paid on the preceding Business Day.

Quilter Investors China Equity Fund

Quilter Investors Investment Grade Corporate Bond Fund

For the following Funds, income accrued shall be calculated as at 31 March, 30 June, 30 September, and 31 December. In the case of Funds where accumulation shares are in issue, income is transferred to the capital account of the relevant Fund on 28 February, 31 May, 31 August and 30 November, and where income shares are in issue income is paid to the investor as at such dates. Where such date falls on a day which is not a Business Day, the amount of income to be distributed or accumulated by a Fund shall be transferred or paid on the preceding Business Day.

Quilter Investors Europe (ex UK) Equity Income Fund¹

¹ In respect of U2Q (GBP) Income Shares only.

Quilter Investors Global Equity Value Fund

Quilter Investors Unconstrained Bond Fund

Quilter Investors US Equity Income Fund

For the following Funds, income accrued shall be calculated as at the last day of each month. In the case of Funds where accumulation shares are in issue, income is transferred to the capital account of the relevant Fund on the last day of the subsequent month, and where income shares are in issue income is paid to the investor as at such dates. Where such date falls on a day which is not a Business Day,² the amount of income to be distributed or accumulated by a Fund shall be transferred or paid on the preceding Business Day.

Quilter Investors Diversified Bond Fund

Quilter Investors Dynamic Bond Fund

Quilter Investors Sterling Corporate Bond Fund

Quilter Investors Sterling Diversified Bond Fund

For the following Funds, the amount of income to be distributed or accumulated by a Fund is calculated on, and accumulated up until 31 December in respect of each Fund. In the case of Funds where accumulation shares are in issue, income is transferred to the capital account of the relevant Fund on 28 February; where income shares are in issue income is paid to the investor as at the same date. Where such date falls on a day which is not a Business Day, the amount of income to be distributed or accumulated by a Fund shall be transferred or paid on the preceding Business Day.

Quilter Investors Timber Equity Fund

Quilter Investors US Equity Growth Fund

Quilter Investors US Equity Small/Mid-Cap Fund

² Or, in the case of income shares only, where any such payment date would otherwise fall on 29 February in a leap year.

³ In respect of A and U2 Shares only.

Tax certificates and current valuations will be sent to shareholders in a Fund at least once in each accounting year. A direct credit or warrant for the amount of any net distribution will, where applicable, be sent to the bank account or the registered address and made payable to the order of the shareholder (or, in the case of joint holders, made payable to all and sent to the registered address of the first named holder on the register).

Shareholders of shares who do not elect for distribution of income or elect for reinvestment of their distribution will have their income automatically reinvested in their existing holding. By electing for reinvestment, additional shares in the relevant Fund will be purchased on the payment date (or, if such payment date is not a Dealing Day, on the next Dealing Day) at a price based on that day's valuation point.

The ACD and the Depositary may not distribute income to the extent that they agree that the amount available for distribution is too small. In such circumstances, any amount not distributed will be held until the next distribution date.

The Company is entitled to reclaim any distribution which has been unclaimed for a period of six years from the date payment was due, and such reclaimed distribution shall become part of the capital of the relevant Fund for the benefit of all shareholders.

Determination of distributable income

The income available for distribution or accumulation in relation to a Fund is determined in accordance with the Sourcebook. Broadly it comprises all sums deemed by the Company, after consultation with the Auditor, to be in the nature of income received or receivable for the account of the Company and attributable to that Fund in respect of the accounting period concerned, after deducting net charges and expenses paid or payable out of such income in respect of the period and adding the ACD's best estimate of any relief from tax on such charges and expenses and making such adjustments as the ACD considers appropriate, after consulting the Auditor in accordance with the Sourcebook, in relation to taxation and other matters. For all Funds, ordinary stock dividends are treated as income for tax purposes, however, they do not form part of the distribution to shareholders. This may have the effect of constraining income generation as the Funds may treat the generation of capital as a higher priority.

Income equalisation

The price of a share of a particular class in a particular Fund is based on the value of that class' entitlement in the relevant Fund including the income of the Fund since the previous distribution or, in the case of accumulation shares, deemed distribution. In the case of the first distribution received or accumulation made in respect of a share, part of the amount, namely the equalisation payment, is a return of capital and is not taxable as income in the hands of the shareholder. This amount is, however, in the case of income shares, deducted from the cost of the share in computing any capital gains.

Equalisation applies only to shares purchased during the relevant accounting period. It is calculated as the average amount of income included in the issue price of all shares of the Fund concerned issued during the period.

FEES AND EXPENSES

Initial charge

The ACD does not impose an initial charge.

Switching Charge

Currently, the ACD does not impose a charge in respect of a switch of shares of one class in one Fund for shares of another class in the same Fund or in another Fund. Any switching charge will be deducted from the proceeds of sale of the shares being switched from.

In accordance with the dilution policy set out above, a dilution adjustment may be applied in respect of the shares being sold and purchased as part of the switch.

Exit charge

At present no exit charge is levied on the redemption of shares (although the ACD is permitted to charge a dilution adjustment, if applicable (see “Dilution Adjustment policy” section). The ACD has the right (subject to the Sourcebook) to introduce a charge on the redemption of shares in the future, but this will not affect shares issued prior to its introduction. For the purposes of determining the length of ownership of redeemed shares, a first in first out policy shall apply.

OTHER FEES AND EXPENSES

Fixed Ongoing Charge

The ACD is entitled to be paid an annual fee for its services in managing the Funds. The fee is a fixed percentage of the Net Asset Value of each share class and is deducted from the scheme property of each Fund. It is called the “**Fixed Ongoing Charge**”. The ACD pays the fees and expenses relating to the operation and administration of the Funds, save for the costs set out below under “Other payments” which will be paid out of the relevant Fund(s) in addition to the Fixed Ongoing Charge. The Fixed Ongoing Charge for each Fund and share class is set out in Appendix I.

In some periods the Fixed Ongoing Charge may be less than the costs actually incurred by the ACD. In these circumstances the ACD will pay the difference from its own resources. Conversely, in some periods the Fixed Ongoing Charge may be more than the costs actually incurred by the ACD. In these circumstances the ACD will retain the difference.

It is the intention of the ACD to provide shareholders with certainty as to the fees paid by the Funds and an understanding that this will be a single fixed percentage fee that does not vary month on month.

The ACD will use the Fixed Ongoing Charge to pay for the following fees relating to the operation and administration of the Funds:

- 1 the fees, expenses and disbursements payable to each of the service providers (being the ACD, Investment Manager, Administrator, Registrar, Auditor and the Depositary and professional advisers used in the ordinary course of business), including VAT on the above; and
- 2 the following costs, charges, fees and expenses payable in relation to the operation and management of the Funds:
 - (a) levies imposed by the FCA and offshore regulators which regulate the Funds including the fees of any regulatory authority in any country or territory outside of the UK in which Shares in the Funds may be marketed;
 - (b) the cost of convening a shareholder meeting and any costs incurred in respect of such meeting (and circulating a written resolution in lieu of a shareholder meeting);
 - (c) the cost of preparing, translating, printing and distributing the report and accounts, statements, contract notes and other like documentation;
 - (d) any costs incurred in producing and dispatching income and other payments to shareholders;
 - (e) the cost of creating or amending documentation relating to the Company including the Instrument, Prospectus and Key Investor Information Documents;
 - (f) the cost of publishing and circulating details of the Net Asset Value and the price of shares;
 - (g) any expense incurred in relation to company secretarial duties including the cost of maintenance of minute books and other documentation required to be maintained by the Fund;

- (h) any costs incurred in taking out and maintaining any insurance policy in relation to the Company;
- (i) any costs incurred with communicating with investors; and
- (j) VAT on any of the above.

The Fixed Ongoing Charge for the Feeder Fund, Quilter Investors Global Equity Absolute Return Fund, also includes the total ongoing charges of the Master Fund but excludes the Performance Fee which may be charged separately, as further detailed below.

Calculation and operation of the Fixed Ongoing Charge

The Fixed Ongoing Charge is calculated as a percentage of the scheme property of a Fund. The amount each share class will pay will depend on the scheme property, costs, fees and expenses attributable to each such share class. The Fixed Ongoing Charge accrues on a daily basis by reference to the value of the scheme property of a Fund on the immediately preceding Dealing Day in accordance with the Sourcebook and is payable to the ACD monthly in arrears.

For all Funds, some or all of any charges and expenses may be treated as a capital expense in accordance with the Sourcebook, which may have the effect of constraining capital growth, as the Company may treat the generation of income as a higher priority than capital growth or (as the case may be) place equal emphasis on the generation of income and on capital growth.

For all Funds except Quilter Investors Bond 3 Fund, Quilter Investors Diversified Bond Fund, Quilter Investors Dynamic Bond Fund, Quilter Investors Europe (ex UK) Equity Income Fund, Quilter Investors Global Equity Value Fund, Quilter Investors Sterling Corporate Bond Fund (income shares only) and Quilter Investors US Equity Income Fund, the policy of the ACD is to charge all expenses relating to the Funds to income with the exception of transaction costs which are treated as capital expenses. If the Fixed Ongoing Charge is taken from the income of the Fund and the income received by the relevant Fund is insufficient to meet the Fixed Ongoing Charge then all or some of the Fixed Ongoing Charge may be taken from the capital of the Fund, which may constrain capital growth.

For Quilter Investors Bond 3 Fund, Quilter Investors Diversified Bond Fund, Quilter Investors Dynamic Bond Fund, Quilter Investors Europe (ex UK) Equity Income Fund, Quilter Investors Global Equity Value Fund, Quilter Investors Sterling Corporate Bond Fund (income shares only) and Quilter Investors US Equity Income Fund, the policy of the ACD is that some or all of the fees and expenses will be taken from the capital of the Fund. Fees and expenses deducted from capital will increase distributable income by the amount charged and the capital of the Fund will be reduced by the same amount. Accordingly, this may result in capital erosion or constrain capital growth.

The Funds may invest in units or shares of schemes managed by the ACD and/or other managers. No initial or redemption charge is paid on these transactions but the management charge of these underlying units or shares is reflected in the value of the underlying units or shares and is therefore borne by the relevant Fund. This management charge will be reimbursed to the relevant Fund out of the Fixed Ongoing Charge, except for the management charges of underlying closed ended funds such as investment trusts, which will not be reimbursed and will therefore be borne by the relevant Fund in addition to the Fixed Ongoing Charge.

Changes to the Fixed Ongoing Charge

Should the underlying fees and expenses that are met out of the Fixed Ongoing Charge reduce or increase, the ACD may change the Fixed Ongoing Charge where it reasonably considers this to be appropriate. The ACD reserves the right to increase or decrease the Fixed Ongoing Charge. In the event of any changes to the Fixed Ongoing Charge the ACD will notify shareholders in writing in accordance with the FCA's requirements under the Sourcebook. For example:

- (a) before increasing the Fixed Ongoing Charge, the ACD will give shareholders at least 60 days' prior notice in writing; and

- (b) before introducing a new category of costs, charges, fees or expenses which make up the Fixed Ongoing Charge but which are not currently charged to the Fund, the ACD will seek the approval of an extraordinary resolution of shareholders at an Extraordinary General Meeting.

Discounts to the Fixed Ongoing Charge

As the Net Asset Value of a Fund increases, the ACD considers that the Fund will benefit from economies of scale, where the costs of operating the Fund decrease in proportion to the size of the Fund. The ACD will pass on to shareholders some of the benefits achieved from any cost savings generated through such economies of scale by discounting the Fixed Ongoing Charge applicable to each share class of a Fund. The applicable discount to the Fixed Ongoing Charge depends on the Net Asset Value of the relevant Fund.

The ACD reviews the Net Asset Value of each Fund daily and, if applicable, will implement the relevant discount on a forward basis on the next Dealing Day. A discount will be applied where a Fund reaches a Net Asset Value of over £750 million and the discount will increase if a Fund's Net Asset Value exceeds the thresholds set out in the table below. Should a Fund's Net Asset Value decrease, the discount will be similarly reduced within the scale set out below, with at all times the stated Fixed Ongoing Charge being the upper level charged to that Fund.

The discounted Fixed Ongoing Charge accrued on each Dealing Day in respect of each share class of a Fund shall be the Fixed Ongoing Charge (as set out in Appendix I) less the applicable discount shown in the table below (calculated by reference to the Net Asset Value of the Fund on the immediately preceding Dealing Day).

Fund Net Asset Value	Fixed Ongoing Charge Discount*
Zero to £750m	0.00%
Over £750m to £1bn	0.01%
Over £1bn to £1.5bn	0.02%
Over £1.5bn to £2bn	0.03%
Over £2bn to £3bn	0.04%
Over £3bn	0.05%

*Effective from 1 July 2023

To illustrate how discounts are applied, see the worked examples set out in the table below:

Fund Net Asset Value	Discounted Fixed Ongoing Charge for A Share Class. Fixed Ongoing Charge: 1.50%	Discounted Fixed Ongoing Charge for U2 Share Class. Fixed Ongoing Charge: 0.80%
£800m	1.49%	0.79%
£1.3bn	1.48%	0.78%
£1.6bn	1.47%	0.77%
£2bn	1.47%	0.77%
£2.4bn	1.46%	0.76%

£5bn	1.45%	0.75%
------	-------	-------

The ACD reserves the right to change the Net Asset Value ranges at which discounts apply, as well as the discounts applicable to such ranges. In the event of any such change, the ACD will notify shareholders in writing.

Other payments

In addition to the Fixed Ongoing Charge, the following expenses (being the actual amounts incurred) may also be payable by the Company out of its capital or income at the discretion of the ACD to the relevant person in respect of whom the expense is incurred, at the time the expense is due:

- (a) brokers' commissions, fiscal charges and other disbursements which are properly incurred in effecting transactions for the Company;
- (b) interest on and other charges relating to permitted borrowings;
- (c) taxation and other duties payable by the Company;
- (d) in relation to a scheme of arrangement where the property of a body corporate (such as an investment company) or of another collective investment scheme is transferred to the Company in consideration of the issue of shares in the Company to shareholders in that body corporate or to participants in that other scheme, any liability arising after the transfer which, had it arisen before the transfer, could properly have been paid out of that other property provided the ACD is of the opinion that proper provision was made for meeting such liabilities as were known or could reasonably have been anticipated at the time of the transfer;
- (e) any sum due by virtue of any provision of the Sourcebook, such as cancellation proceeds and reasonable stock lending expenses;
- (f) the costs of establishing any new Funds;
- (g) the fees, expenses and disbursements payable to professional advisers used outside the ordinary course of business or in relation to historical periods;
- (h) the fees and expenses in respect of establishing and maintaining any ISA register;
- (i) any other capital charges/expenses that may be taken out of the Company's property in accordance with the Sourcebook; and
- (j) VAT on any of the above.

Expenses not directly attributable to a particular Fund will be allocated between the Funds. Expenses may be payable out of the capital property and/or income property of the relevant Fund(s) at the discretion of the ACD, subject to any restrictions set out in the Instrument of Incorporation, and to the Sourcebook.

MASTER FUND PERFORMANCE FEES

The investment manager of Jupiter Merian Global Equity Absolute Return Fund, the master fund of Quilter Investors Global Equity Absolute Return Fund, may be entitled to a performance fee out of the Master Fund's assets (the "**Performance Fee**"). The price of each share class of the Quilter Investors Global Equity Absolute Return Fund will take into account any accrual of such Performance Fee at the Master Fund level.

Calculation

The Performance Fee will be calculated and accrued daily in the net asset value of the Master Fund and consequently the price of shares in the Quilter Investors Global Equity Absolute Return Fund. The Performance Fee will be payable annually in arrears in respect of each successive 12-month period ending on 31 December (each, a “**Performance Period**”). The Performance Fee (if any), will crystallise, become payable and will be credited to the investment manager at the end of each Performance Period. The Performance Fee is normally payable to the investment manager within 15 calendar days of the end of each Performance Period. In addition, if a shareholder repurchases or converts all or part of their shares in the Master Fund before the end of a Performance Period, any accrued Performance Fee with respect to such shares will crystallise on that dealing day and will then become immediately payable.

If a share in the Master Fund is repurchased or converted at any time other than at the end of a Performance Period, the Performance Fee attributable to such share could be different from the Performance Fee that would be payable if such share was not repurchased or converted until the end of the relevant Performance Period.

The Performance Fee is calculated with reference to an adjusted average number of shares in issue in the Master Fund during the relevant Performance Period. The Performance Fee as at the end of each Performance Period shall be equal in aggregate to 20% of the amount by which any increase in the net asset value per share of each applicable share class in the Master Fund during the Performance Period exceeds the “**Hurdle Rate**” subject to the High Water Mark (as defined below), multiplied by the adjusted average number of total shares in issue of each class on each dealing day during the Performance Period. The adjusted average number of shares takes account of repurchases, conversions and subscriptions occurring in the Master Fund during the relevant Performance Period.

For GBP share classes in the Master Fund, the Hurdle Rate will be the average Bank of England Base Rate during the Performance Period.

Calculation of the net asset value per share of each class in the Master Fund for Performance Fee purposes is net of all costs but no deduction will be made on account of Performance Fees accrued in the Performance Period, unless it is in the best interests of shareholders in the Master Fund to do so, and any net income distributed to shareholders in the Master Fund in respect of the Performance Period is added back.

The Performance Fee is only payable when the increase in the net asset value of each share class in the Master Fund exceeds the Hurdle Rate. If, during a Performance Period, the performance of the shares does not exceed the Hurdle Rate, no Performance Fee is payable.

All Performance Fee payments shall be subject to the restriction that in paying a Performance Fee, the net asset value per share of each class of the Master Fund at the relevant Performance Period shall not be less than the net asset value per share class on the last day that a Performance Fee was paid (the “**High Water Mark**”). The Performance Fee is only payable on the increase in the net asset value per share of each class of the Master Fund during the Performance Period over the High Water Mark and the relevant Hurdle Rate during the Performance Period.

The amount of the Performance Fee will be calculated by the administrator of the Master Fund, verified by the depositary of the Master Fund and, as a result, the calculation of the Performance Fee is not anticipated to be open to the possibility of manipulation. The calculation of the Performance Fee is also reviewed by the auditor of the Master Fund as part of the annual audit of Jupiter Asset Management Series Plc.

The investment manager of the Master Fund may, at its discretion, waive the Performance Fee payable in respect of a Performance Period.

Performance Fees are payable on net realised and net unrealised gains and losses as at the end of each Performance Period and as a result, Performance Fees may be paid on unrealised gains which may subsequently never be realised.

Performance Fees may be payable on net realised and net unrealised gains and losses attributable to both the performance of the investment manager of the Master Fund and market movements in general.

The methodology used in calculating the Performance Fee will impact shareholders in the Master Fund differently in relation to the payment of Performance Fees (with some shareholders paying disproportionately higher Performance Fees in certain circumstances) and may also result in certain shareholders having more of their capital at risk at any time than others (as no equalisation methodology is employed in respect of the Performance Fee calculation).

Example

Please note that the following example is purely for illustrative purposes. This example is not intended to reflect any actual past performance or potential future performance of the Master Fund, or of future returns to shareholders, and has been simplified for the purpose of illustrating the effect of the Performance Fee on the share price of the share classes in the Master Fund in different scenarios. The ACD considers these simplifications allow the Performance Fee to be illustrated in a straightforward manner, without producing a material deviation from any actual Performance Fee calculation that will be carried out for the Master Fund.

This example assumes that an investment of \$100,000 is made on the first day of the calendar year in a share class which attracts a Performance Fee of 20%. The initial NAV per share is calculated as \$10 (the initial High Water Mark), and the number of shares remain unchanged.

	Number of Shares	Nav Per Share	Share Class Return (Net of fees)	Hurdle Rate Return	Out /Underperformance	Performance Fee Charged Per Share	Above High Water Mark	NAV at End of Year
Year 1	10,000	\$10.00	5%	8%	-3%	\$0	Y	\$10.50
Year 2	10,000	\$10.50	15%	10%	5%	\$0.105	Y	\$11.97
Year 3	10,000	\$11.97	-1%	10%	-11%	\$0	N	\$11.85

Year 1 Share class outperforms the High Water Mark (has positive absolute performance) but not the Hurdle Rate (i.e. please see “Out/ Underperformance” in the table above). No Performance Fee payable;

Year 2 Share class goes from underperforming the Hurdle Rate to outperforming it (i.e. the class has outperformed the Hurdle Rate, please see “Out/ Underperformance” in the table above); while also remaining above the High Water Mark. Performance Fee payable; a new Performance Period begins.

Year 3 Share class outperforms the High Water Mark and the Hurdle Rate for the first half of the year, but falls below both by the end of that year (i.e. the class has underperformed, please see “Out/ Underperformance” and “Above High Water Mark” in the table above). No Performance Fee payable; Note: During the first half of year 3, as the share class is currently outperforming the High Water Mark and the Hurdle Rate a Performance Fee is being accrued in the Net Asset Value, therefore if any shares are repurchased or converted during this period, any accrued Performance Fee with respect to such shares will crystallise on the relevant dealing day and will then become immediately payable.

TAXATION

The following is a general summary of current UK tax law and Her Majesty’s Revenue and Customs (“HMRC”) practice; changes can occur without warning. It does not describe the taxation treatment of

shareholders who do not hold their interests as an investment, who are subject to special tax regimes or the detailed taxation treatment of persons resident in jurisdictions other than the United Kingdom.

This summary is not, and should not be relied upon by shareholders as being, tax advice. Shareholders are advised to consult their professional advisers as to their individual tax position and see the “Risks” section below.

Taxation of the Company/Funds

As the Funds are sub-funds of an open-ended investment company to which the Authorised Investment Funds (Tax) Regulations 2006 apply, each Fund, and not the Company, is deemed to be a separate taxable entity. The Funds are exempt from UK taxation in respect of capital gains realised on the disposal of investments held within them (including UK authorised unit trusts and other UK open-ended investment companies).

Each Fund, however, is chargeable to UK corporation tax at a rate equal to the basic rate of income tax for the relevant year of assessment on most sources of income (other than, inter alia, dividends treated as being exempt under Part 9A of the Corporation Tax Act 2009 (the “**CTA 2009**”) and the portion of dividend distributions from UK authorised unit trusts and other UK open-ended investment companies which is not unfranked), net of allowable expenses (and, in relevant cases as set out below, interest distributions made by the Fund). The basic rate of income tax is 20% for the tax year 2020/2021. Dividends treated as being exempt under Part 9A CTA 2009 and the portion of dividend distributions from UK authorised unit trusts and other UK open-ended investment companies which is not unfranked will be exempt income of the Fund. Where foreign tax has been deducted from income from overseas sources, that tax can in some instances be offset against corporation tax payable by the Fund by way of double tax relief.

If throughout a reporting period the investments of any Fund comprise more than 60 per cent. (by value) in “qualifying investments” that Fund may elect to treat its distributions as a payment of interest (as opposed to a dividend) for UK tax purposes. Such a Fund is referred to as a ‘bond fund’ (though the term does not appear in UK tax legislation). Qualifying investments are, broadly, debt-like instruments and include the holding of shares in a master fund (whether incorporated in the UK or offshore) that itself holds more than 60% of its investments in debt-like instruments.

If any Fund were to be treated as paying an interest distribution, it would normally be able to deduct the amount of that distribution in computing its taxable income for corporation tax purposes, thereby reducing or eliminating its liability to corporation tax for the period in question.

Reporting of tax information

The Company (or the Funds) and the ACD are subject to obligations which require them to provide certain information to relevant tax authorities about the Company, the Funds, investors and payments made to them.

The International Tax Compliance Regulations 2015 give effect to:

- i. reporting obligations under the Organisation for Economic Co-Operation and Development’s Common Reporting Standard for the Automatic Exchange of Financial Account Information (the “**CRS**”). The Company is required to identify accounts maintained for account holders who are tax resident in the EU or jurisdictions with which the UK has entered into an agreement to automatically exchange tax information and collect and report such information to HMRC; and
- ii. an intergovernmental agreement between the US and the United Kingdom in relation to the US Foreign Account Tax Compliance Act (“**FATCA**”). FATCA is designed to help the Internal Revenue Service (the “**IRS**”) combat US tax evasion. It requires financial institutions, such as the Company (or the Funds), to report on US investors or US holdings, whether or not this is relevant. Failure to comply (or be deemed compliant) with these requirements will subject the Company (or a Fund) to US withholding taxes on certain US-sourced income and gains.

Provided the Company (or a Fund) complies with its obligations under the International Tax Compliance Regulations 2015 to identify and report taxpayer information directly to HMRC, it should be deemed

compliant with FATCA and the CRS. HMRC will share such information with the relevant overseas tax authorities.

Shareholders may be asked to provide additional information to the ACD to enable the Company (or each Fund) to satisfy these obligations. Failure to provide requested information may subject a shareholder to liability for any resulting penalties, US withholding taxes, tax information reporting and/or mandatory redemption, transfer or other termination of the shareholder's interest in a Fund.

DAC 6

Council Directive (EU) 2018/822 ("**DAC 6**") as it applies in the EU Member States, imposes mandatory disclosure requirements on intermediaries and, in certain circumstances, taxpayers effective from 1 July 2020 in respect of reportable cross-border arrangements implemented on or after 25 June 2018. The ACD, the investors in a Fund, or any person that has advised or assisted could be legally obliged to file information in relation to a Fund and its activities with the competent authorities with a view to an automatic exchange of such information with EU Member States. Following the UK's exit from the EU on 31 January 2020 and cessation of the subsequent "transition period" on 31 December 2020 the International Tax Enforcement (Disclosable Arrangements) (Amendment) (No. 2) (EU Exit) Regulations 2020 were introduced, pursuant to which the UK disapplied the majority of the DAC 6 hallmarks, although in certain circumstances DAC 6 disclosures will still need to be made to HMRC.

Withholding Tax Liability

To the extent the Company (or a Fund) is subject to withholding tax as a result of:

- (i) a shareholder failing (or delaying) to provide relevant information to the ACD;
- (ii) a shareholder failing (or delaying) to enter into a direct agreement with the IRS; or
- (iii) the Company (or a Fund) becoming liable under FATCA or any legislation or regulation to account for tax in any jurisdiction in the event that a shareholder or beneficial owner of a share receives a distribution, payment or redemption, in respect of their shares or disposes (or be deemed to have disposed) of part or all of their shares in any way,

(each a "**Chargeable Event**"), the ACD may take any action in relation to a shareholder's holding in a Fund to ensure that such withholding is economically borne by the relevant shareholder and/or the ACD and/or its delegate or agent shall be entitled to deduct from the payment arising on a Chargeable Event an amount equal to the appropriate tax. The action by the ACD may also include, but is not limited to, removal of a non-compliant shareholder from the relevant Fund or the ACD or its delegates or agents redeeming or cancelling such number of shares held by the shareholder or such beneficial owner as are required to meet the amount of tax. Neither the ACD nor its delegate or agent, including the administrator, will be obliged to make any additional payments to the shareholders in respect of such withholding or deduction.

Shareholders should consult their own tax advisors regarding the possible implications of these rules on their investments in any Fund.

Indemnity

Each investor agrees to indemnify the Fund and the ACD and its delegates/agents including the Administrator for any loss caused by such investor arising to the Fund and/or its delegates/agents by reason of them becoming liable to account for tax in any jurisdiction on the happening of a Chargeable Event.

Taxation of shareholders

Income distribution and accumulation

For the purposes of UK taxation on income, the same consequences will arise whether a Fund's income is distributed to a shareholder or accumulated on his or her behalf. The tax consequences set out in

the following sections apply equally to accumulations of income by a Fund as they apply to the distributions made by a Fund.

Stamp Duty Reserve Tax (“SDRT”):

Shareholders will generally be liable to SDRT on the acquisition of “chargeable securities” of a Fund (underlying stock or marketable securities of a Fund that are within the charge to SDRT) in exchange for a surrender of their shares in that Fund, unless the surrender is a pro-rata in specie redemption.

The charge to SDRT does not generally apply to an agreement to transfer shares the transfer of which is exempt from all stamp duties.

Individual shareholders

Dividend distributions

The dividend tax allowance is £2,000. Income tax is applied to dividend income above the allowance at rates of 7.5% for basic rate taxpayers, 32.5% for higher rate taxpayers and 38.1% for additional rate taxpayers.

No withholding tax is levied on dividend distributions made to individual shareholders resident outside the UK. Non-UK resident shareholders should consult their own advisers as to the tax consequences of a receipt of distributions under the law of their own jurisdiction of residence.

Interest distributions

Interest distributions by any bond fund, which is expected to include the Quilter Investors Absolute Return Bond Fund, Quilter Investors Bond 3 Fund, Quilter Investors Dynamic Bond Fund, Quilter Investors Investment Grade Corporate Bond Fund, Quilter Investors Sterling Corporate Bond Fund, Quilter Investors Sterling Diversified Bond Fund and the Quilter Investors Unconstrained Bond Fund will be made without any deduction for income tax. This means that shareholders will be obliged to include the full amount of the distribution on their tax returns and pay tax accordingly. UK individual taxpayers may be eligible for a tax free allowance of £1,000 (basic rate taxpayers) or £500 (higher rate taxpayers). Additional rate taxpayers are not entitled to any tax free allowance on interest income.

Capital gains

Any capital gains arising to individual shareholders who are resident in the UK on the sale, exchange or other disposal of their shares are, depending on their personal circumstances, subject to capital gains tax.

For 2020/2021, the first £12,300 of chargeable gains from all sources will be exempt from tax. Thereafter, for gains exceeding the annual exempt amount, the capital gains tax rate for 2020/2021 is 10% to the extent that total income and gains are below the income tax basic rate band (that is currently, £37,500 for the tax year 2020/2021) and 20% for higher rate taxpayers.

However, a UK resident individual shareholder who holds his or her shares in an Individual Savings Account (“ISA”) will be exempt from capital gains tax on any gain accruing to him or her on the disposal or deemed disposal of such shares.

A shareholder who is not resident in the UK will not normally be liable to UK tax on capital gains accruing to him or her on the disposal or deemed disposal of his or her holding in any Fund, except where the holding is connected with a trade, profession or vocation carried on by him or her in the UK through a branch or agency or he or she falls within certain anti-avoidance provisions relating to temporary non-UK residence.

Where income equalisation applies, the part of the issue price of shares which reflects accrued income and is returned to the shareholder with the first allocation of income following the issue is deducted from the shareholder’s capital gains tax base cost in the shares.

Exchange between Funds

An exchange of shares in one Fund for shares in any other Fund may be treated as a redemption and sale and may for persons subject to United Kingdom taxation be a disposal for the purposes of UK capital gains tax.

Exchange between share classes of the same Fund

An exchange of one class of shares in one Fund for another class of shares in the same Fund (i.e. an exchange of income shares for accumulation shares in the same Fund and vice versa) will generally not constitute a disposal for the purposes of capital gains taxation.

Inheritance tax

A gift by a shareholder of his or her holding in any of the Funds or the death of a shareholder may give rise to a liability to inheritance tax, even if the shareholder is neither domiciled in the UK, nor deemed to be domiciled there under special rules relating to long residence or previous domicile in the UK. For these purposes, a transfer of a holding at less than the full market value may be treated as a gift.

Corporate shareholders

Dividend distributions

A UK resident corporate shareholder receiving a dividend distribution is treated as receiving a payment which may consist of two parts; an “unfranked” portion and a portion which is not unfranked. In broad terms, the portion treated as not unfranked will be such proportion as is equal to the proportion of the total income of the Fund (brought into account when determining the distribution for the period in question) which consists of dividend income received which is treated as exempt under Part 9A CTA 2009. The not unfranked portion of the payment is treated as dividend income, on which the UK resident corporate shareholder is not chargeable to corporation tax (unless the shareholder is deemed to be a financial trader by HMRC). There are no tax credits which can be reclaimed in relation to the portion of a dividend distribution which is not unfranked. The “unfranked” portion of the distribution is treated as an annual payment from which income tax at 20% has been deducted; it is therefore chargeable to corporation tax at the rate applicable to the UK resident corporate shareholder but with credit for the income tax treated as deducted. The current rate of corporation tax is 19%.

As announced at the 2016 Autumn Statement, the government will modernise the rules on the taxation of dividend distributions to corporate investors in authorised investment funds, including allowing exempt investors, such as pension funds, to obtain credit for tax paid by an authorised investment fund, such as the Funds. There is not yet any indication as to when this legislation will take effect.

Interest distributions

Under section 888C of the Income Tax Act 2007 there is no requirement for a Fund to deduct UK income tax at source from payments of interest to any corporate investor.

Interest distributions paid by a bond fund to a UK tax paying corporate investor who is not a financial trader will be treated as a non-trading loan relationship credit. In these circumstances the bond fund will be able to allocate amounts for distribution as interest. A UK tax paying corporate investor (who is not a financial trader) will also have to treat a distribution from a Fund as a non-trading loan relationship credit if at any time in that investor’s accounting period (as opposed to throughout the Fund’s distribution period) that Fund fails the qualifying investments test.

Qualifying Investments

If a corporate shareholder who is within the charge to UK corporation tax is required to treat its holding in a Fund as a creditor loan relationship then that corporate shareholder will be taxed in an accounting period on the increase in the market value of its holding during that period (rather than on disposal), or will obtain tax relief on any equivalent decrease in market value.

Capital gains

Any chargeable gains arising to UK resident corporate shareholders on the sale, exchange or other disposal of their shares will be subject to corporation tax.

Where a shareholder's interest in a Fund is treated as a non-trading creditor relationship as described above, its interest is not an asset for the purposes of corporation tax on chargeable gains so that any gain realised on disposal is also treated as a non-trading loan relationship credit.

Exchange between Funds

An exchange of shares in one Fund for shares in any other Fund may be treated as a redemption and sale and may for persons subject to United Kingdom taxation be a disposal for the purposes of capital gains taxation.

Exchange between share classes of the same Fund

An exchange of one class of shares in one Fund for another class of shares in the same Fund (i.e. an exchange of income shares for accumulation shares and vice versa) will generally not constitute a disposal for the purposes of capital gains taxation.

General

All Funds of the Company are eligible to be held within the stocks and shares component of an ISA. Income and capital gains within an ISA are tax free. Withdrawals can be made at any time without any loss of tax relief, provided the ISA in question permits this, and relevant conditions of the ISA are followed.

In the case of accumulation shares, reinvested income is deemed to have been distributed to the shareholder for the purposes of taxation and a tax voucher will be issued to the shareholder to provide the appropriate details for their income tax returns.

Each Fund's income and capital gains for tax purposes will follow the determination made for accounting purposes. In the case of Funds which use derivatives for the purpose of meeting the objective of the Fund or for EPM, it should be noted that, where a derivative is entered into to protect or enhance capital, and the circumstances support this, the returns will generally be accounted for as capital. Where the purpose of a derivative is to generate or protect revenue, and the circumstances support this, the returns will generally be accounted for as revenue. Where a derivative generates total returns, e.g. FTSE 100 index future, it will generally be appropriate to apportion the returns between capital and revenue.

REPORTS AND ACCOUNTS

The annual accounting period of each Fund ends on 31 December or with the agreement of the Depositary, a day chosen by the ACD being within seven days of that date. The half yearly accounting period of each Fund ends on 30 June or with the agreement of the Depositary, a day chosen by the ACD being within seven days of that date.

In accordance with the Sourcebook, the ACD shall prepare a long form report half yearly and annually. The annual reports of the Company will be published on or before 30 April and the half yearly reports on or before 31 August in each year.

Copies of the most recent annual and half yearly long form report of the Company may be inspected at, and copies obtained free of charge from, the Registrar's office or are available on the ACD's website at www.quilter.com.

Copies of the long form reports of the Company are also available on request from the ACD.

ANNUAL GENERAL MEETING

The Company has dispensed with holding Annual General Meetings in accordance with the OEIC Regulations.

VOTING

Voting rights

Entitlement to receive notice of a particular meeting or adjourned meeting and to vote at such a meeting is determined by reference to:

- (a) those persons who are holders of shares in the Company on the date seven days before the notice is sent; or
- (b) in respect of shares which are participating securities (as defined in the Uncertificated Securities Regulations 1995), those persons who are entered on the register at a time determined by the ACD (and stated in the notice) not more than 48 hours before the time fixed for the meeting; but
- (c) in respect of shareholders with registered shares, excluding any persons who are known not to be holders at the time of the meeting.

The voting rights attached to each share shall be such proportion of the voting rights attached to all the shares in issue in the Company or Fund or of any class of shares (as the case may be) as the price of the share bears to the aggregate price(s) of all the shares in issue in the Company or such Fund or of such class.

Persons who are entitled to attend a meeting will receive not less than 14 days' written notification by post.

The quorum at a meeting of holders is two shareholders present in person or by proxy or (in the case of a corporation) by a duly authorised representative. If a quorum is not present within half an hour of the time appointed the meeting will (if requisitioned by shareholders) be dissolved and in any other case will be adjourned to such day and time not being less than seven days thereafter. If at such adjourned meeting a quorum is not present within 15 minutes from the appointed time, one person entitled to count in a quorum will be a quorum.

At a meeting of shareholders, on a show of hands every holder who (being an individual) is present in person or, if a corporation, is present by a properly authorised representative, has one vote. On a poll votes may be given either personally or by proxy and the voting rights attached to a share are such proportion of the total voting rights attached to all shares in issue as the price of the share bears to the aggregate price of all shares in issue on the cut-off date. A holder entitled to more than one vote need not, if he or she votes, use all his or her votes or cast all the votes he or she uses in the same way. A vote will be decided on a show of hands unless a poll is (before or on the declaration of the result of the show of hands) demanded by the chairperson, by the Depositary or by two shareholders present or by proxy.

An instrument appointing a proxy may be in any usual or common form or in any other form approved by the ACD. It should be in writing under the hand of the appointor or his or her attorney or, if the appointor is a corporation, either under the common seal or under the hand of a duly authorised officer or attorney. A person appointed to act as a proxy need not be a holder.

A corporation, being a holder, may by resolution of its directors or other governing body, authorise such person as it thinks fit to act as its representative at any meeting of holders and the person so authorised is entitled to exercise the same powers on behalf of the corporation which he or she represents as the corporation could exercise if it were an individual holder.

In the case of joint holders the vote of the senior who tenders a vote, whether in person or by proxy, will be accepted to the exclusion of the votes of the other joint holders and for this purpose seniority is determined by the order in which the names stand in the register of holders.

The ACD is entitled to attend any meeting but, except in relation to third party shares, is not entitled to vote or be counted in the quorum and any shares it holds are treated as not being in issue for the purpose of such meeting. An associate of the ACD is entitled to attend any meeting and may be counted in the quorum, but may not vote except in relation to third party shares. For this purpose, third party shares are shares held on behalf of or jointly with a person who, if him/herself the registered shareholder, would be entitled to vote, and from whom the ACD or the associate (as relevant) has received voting instructions.

Powers of a shareholders' meeting

The Instrument of Incorporation and the Sourcebook empower the shareholders in general meeting to sanction or require various steps (which may also be subject to FCA approval), including (among other things):

- changes to certain provisions of the Instrument of Incorporation and fundamental changes to this Prospectus; and
- the removal of the ACD.

In certain cases (for example, the approval of changes to the investment objectives of a Fund) an extraordinary resolution, i.e. a resolution notified and proposed as such and passed by a majority of not less than three-quarters of the votes validly cast is required.

Other provisions of the Instrument of Incorporation and the Prospectus may be changed by the ACD without the sanction of a shareholders' meeting in accordance with the Sourcebook.

Class rights

The rights attached to a class of shares may be varied in accordance with the Sourcebook and if fundamental may require the sanction of a resolution passed at a class meeting of the holders of the class concerned. The provisions about notice and conduct of meetings summarised above will apply, with the necessary alterations, to class meetings.

INVESTMENT AND BORROWING POWERS

The Company may exercise in respect of each Fund the full authority and powers permitted by the Sourcebook for an investment company with variable capital belonging to the UK UCITS scheme type subject to its stated investment objective and policy and the restrictions stated in this Prospectus.

No Fund may invest in shares in another Fund of the Company.

Investment and Borrowing Powers – General

The following investment and borrowing powers apply to all Funds excluding Quilter Investors Global Equity Absolute Return Fund which is a Feeder Fund (except to the extent that such investment and borrowing powers are applied to a Feeder Fund by the Sourcebook) and is therefore subject to the requirements set out in the section titled 'Investment and Borrowing Powers in relation to a Feeder Fund' below.

Transferable securities and approved money-market instruments

Except as provided in the Sourcebook, each Fund is a scheme dedicated to transferable securities and (apart from approved money-market instruments, cash and items of near cash and permitted EPM transactions and techniques and collective investment schemes) the property of each Fund must consist of transferable securities (as defined in the Sourcebook).

A Fund may invest in transferable securities and approved money-market instruments provided they are:

- (i) admitted to or dealt in on a regulated market;
- (ii) dealt in on a market in the UK or a member state of the European Economic Area (“**EEA State**”) which is regulated, operates regularly and is open to the public;
- (iii) admitted to or dealt in on a market which the ACD and the Depositary determine to be appropriate, the market is included in the list of eligible markets in Appendix II and the Depositary has taken reasonable care to determine that adequate custody arrangements can be provided for the investment dealt in on that market and all reasonable steps have been taken by the ACD in deciding whether that market is eligible;
- (iv) for an approved money-market instrument not admitted to or dealt in on an eligible market where the issue or the issuer is regulated for the purpose of protecting investors and savings and the instrument is issued or guaranteed in accordance with the Sourcebook; or
- (v) recently issued transferable securities provided that the terms of issue include an undertaking that application will be made to be admitted to an eligible market and the admission is secured within a year of issue.

Each Fund may invest no more than 10% of its property in transferable securities and approved money-market instruments other than those referred to above, but there is no limit on the value of the property of each Fund which may consist of transferable securities and approved money-market instruments referred to above.

Quilter Investors Asia Pacific (ex Japan) Equity Fund qualifies as a mutual equity fund (continuously investing more than 50% of its total assets within the meaning of Sec. 2(9a) German Investment Tax Act (“**GITA**”) in equity participations throughout the accounting period) in accordance with the GITA.

Collective investment schemes

The extent to which a Fund can invest in units in other collective investment schemes of a kind specified by the Sourcebook is set out below:

Fund	Value of the scheme property of the Fund which may be invested in such assets
Quilter Investors Absolute Return Bond Fund	Up to 5%
Quilter Investors Asia Pacific (ex Japan) Equity Fund	Up to 10%
Quilter Investors Asia Pacific (ex Japan) Large-Cap Equity Fund	Up to 10%
Quilter Investors Bond 3 Fund	Up to 5%
Quilter Investors China Equity Fund	Up to 5%
Quilter Investors Corporate Bond Fund	Up to 10%
Quilter Investors Diversified Bond Fund	Up to 10%
Quilter Investors Dynamic Bond Fund	Up to 5%
Quilter Investors Emerging Markets Equity Fund	Up to 5%

Quilter Investors Emerging Markets Equity Growth Fund	Up to 10%
Quilter Investors Emerging Markets Equity Income Fund	Up to 10%
Quilter Investors Europe (ex UK) Equity Fund	Up to 5%
Quilter Investors Europe (ex UK) Equity Growth Fund	Up to 5%
Quilter Investors Europe (ex UK) Equity Income Fund	Up to 10%
Quilter Investors Global Equity Absolute Return Fund	More than 10% (at least 85% will be invested in the shares of the Master Fund)
Quilter Investors Global Equity Growth Fund	Up to 5%
Quilter Investors Global Equity Value Fund	Up to 5%
Quilter Investors Investment Grade Corporate Bond Fund	Up to 10%
Quilter Investors Japanese Equity Fund	Up to 5%
Quilter Investors Natural Resources Equity Fund	Up to 10%
Quilter Investors Precious Metals Equity Fund	Up to 10%
Quilter Investors Sterling Corporate Bond Fund	Up to 5%
Quilter Investors Sterling Diversified Bond Fund	Up to 10%
Quilter Investors Timber Equity Fund	Up to 10%
Quilter Investors Unconstrained Bond Fund	Up to 10%
Quilter Investors US Equity Growth Fund	Up to 5%
Quilter Investors US Equity Income Fund	Up to 10%
Quilter Investors US Equity Small/Mid-Cap Fund	Up to 5%

Such collective investment schemes may include schemes which are managed or operated by (or in the case of an open-ended investment company, have as its authorised corporate director) the ACD or an associate (as defined in the Sourcebook) of the ACD; however, the Company may not invest in itself. Where a Fund invests in units in another collective investment scheme managed or operated by the ACD or by an associate of the ACD, the Sourcebook imposes a duty on the ACD to pay into the property of the Fund before the close of business on the fourth Business Day next after the agreement to invest in or dispose of units:

- on investment, either:
if the ACD pays more for the units issued to it than the then prevailing issue price, the full amount of the difference; or

If this is not known, the maximum permitted amount of any charge which may be made by the issuer on the issue of the units; and

- on disposal:

any amount charged by the issuer on redemption of units.

This duty does not apply to other charges and were a Fund to invest in a collective investment scheme managed or operated by the ACD or an associate of the ACD, the ACD or an associate of the ACD would benefit therefrom.

An Investment Adviser may select collective investment schemes to deliver the investment objective and policy of a Fund, but such collective investment schemes may themselves have policies which are not fully aligned with that Fund (for example, they may be permitted to use derivatives for investment purposes when the Fund may not). Such divergence is expected to be limited and is not likely to affect the risk profile of the Fund. Further details on the use of collective investment schemes are available on request from the ACD.

Spread – general

Up to 5% in value of the property of a Fund may consist of transferable securities issued by any one issuer save that the figure of 5% shall be raised to 10% in respect of up to 40% of the value of the property of a Fund. This limit does not apply to certain government and public securities. In respect of the Quilter Investors Dynamic Bond Fund only, the figure of 5% is also raised to 25% in respect of covered bonds, provided that where the relevant Fund invests more than 5% in covered bonds issued by a single body, the total value of covered bonds must not exceed 80% of the property of that Fund.

Spread - government and public securities

With the exception of the Quilter Investors Absolute Return Bond Fund, Quilter Investors Corporate Bond Fund, Quilter Investors Diversified Bond Fund and Quilter Investors Unconstrained Bond Fund, in respect of government and public securities issued by the following, no more than 35% in value of the property of a Fund will be invested in securities issued by:

- (a) the UK or an EEA State;
- (b) a local authority of the UK or an EEA State;
- (c) a non-EEA State; or
- (d) a public international body to which the UK or one or more EEA States belong.

Subject to this restriction, there is no limit on the amount which may be invested in such government and public securities or in any one issue.

For the Quilter Investors Absolute Return Bond Fund, such securities are restricted to government and public securities issued by or on behalf of or guaranteed by OECD Governments (provided the relevant issues are investment grade), Government of Singapore, European Investment Bank, European Bank for Reconstruction and Development, International Finance Corporation, International Monetary Fund, Euratom, The Asian Development Bank, European Central Bank, Council of Europe, Eurofima, African Development Bank, International Bank for Reconstruction and Development (The World Bank), The Inter American Development Bank, European Union, Federal National Mortgage Association (Fannie Mae), Federal Home Loan Mortgage Corporation (Freddie Mac), Government National Mortgage Association (Ginnie Mae), Student Loan Marketing Association (Sallie Mae), Federal Home Loan Bank, Federal Farm Credit Bank, Tennessee Valley Authority, Straight-A Funding LLC, Government of the People's Republic of China, Government of Brazil (provided the issues are of investment grade) and Government of India (provided the issues are of investment grade).

For Quilter Investors Corporate Bond Fund and Quilter Investors Diversified Bond Fund, such securities are restricted to government and public securities issued by or on behalf of or guaranteed by the Government of the United Kingdom, of Northern Ireland, or the Governments of Austria, Belgium,

Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain or Sweden, the Governments of Australia, Canada, Japan, New Zealand, Norway, Switzerland and the United States of America or the European Investment Bank and the World Bank.

For the Quilter Investors Unconstrained Bond Fund, such securities are restricted to government and public securities issued by or on behalf of or guaranteed by OECD Governments (provided the relevant issues are investment grade), Government of Singapore, European Investment Bank, European Bank for Reconstruction and Development, International Finance Corporation, International Monetary Fund, Euratom, The Asian Development Bank, European Central Bank, Council of Europe, Eurofima, African Development Bank, International Bank for Reconstruction and Development (The World Bank), The Inter American Development Bank, European Union, Federal National Mortgage Association (Fannie Mae), Federal Home Loan Mortgage Corporation (Freddie Mac), Government National Mortgage Association (Ginnie Mae), Student Loan Marketing Association (Sallie Mae), Federal Home Loan Bank, Federal Farm Credit Bank, Tennessee Valley Authority, Straight-A Funding LLC, Government of the People's Republic of China, Government of Brazil (provided the issues are of investment grade) and Government of India (provided the issues are of investment grade).

Where so invested the securities of at least six different issues shall be held and no holding of a single issue shall represent more than 30% in value of the property of the relevant Fund.

Underwriting

Subject to the provisions of the Sourcebook, including as to covering the exposure, a Fund's powers to invest in transferable securities may be used for the purpose of entering into underwriting, sub-underwriting and placing agreements in respect of certain transferable securities.

Warrants

Warrants or other instruments entitling the holder to subscribe for shares, debentures or government and public securities and any other transferable securities (not being nil or partly paid securities) which are akin thereto fall within any of a Fund's powers of investment only if, on the assumption that the right conferred by the warrant will be exercised (whether or not it is intended that it will be), it is reasonably foreseeable that the right to subscribe could be exercised without contravening the Sourcebook. Up to 5% of the value of the property of a Fund may consist of warrants.

Nil or partly paid securities

Transferable securities on which any sum is unpaid fall within any of a Fund's powers of investment only if it is reasonably foreseeable that the amount of any existing and potential call for any sum unpaid could be paid by the Fund, at the time when payment is required, without contravening the Sourcebook.

Influential stakes

The Company as a whole is not permitted to hold more than:

- (a) 20% of the voting share capital of a body corporate;
- (b) non-voting securities representing more than 10% of those securities issued by that body corporate;
- (c) 10% of the debt securities issued by any single issuing body; or
- (d) 25% of the units or shares of a collective investment scheme.

Cash and near cash

The ACD may at its discretion and as considered appropriate retain liquid funds in each Fund at any time. This cash will be held to facilitate the redemption of shares, efficient management of the Fund in accordance with its objectives or any other purposes which may reasonably be regarded as ancillary to the objectives of the Fund. The ACD expects the liquid funds of a Fund to vary between 0% and 30%

of the value of the property of the Fund at any one time. Liquidity may be higher under certain circumstances such as where large market movements and/or an exceptional number of redemptions are anticipated or the Fund is in receipt of large cash sums upon the issue of shares or realisation of investments, or in the normal course of implementing fixed income investment strategies that utilise short term maturity investments.

Cash forming part of the property of a Fund or standing to the credit of the distribution account may be placed in any current, deposit or loan account with the Depositary, the ACD or any Investment Adviser or any associate of any of them provided it is an eligible institution or approved bank and the arrangements are at least as favourable to the Fund concerned as would be those of any comparable arrangements effected on normal commercial terms negotiated at arm's-length between two independent parties.

Immovable and movable property

It is not intended that the Company should have any interest in any immovable property or movable property save for an indirect interest through investment in collective investment schemes or transferable securities.

Borrowing

Subject to the Sourcebook, a Fund may borrow to meet redemption and settlement mismatches, although it is not expected that significant use will be made of borrowing. Such borrowing may only be made from an eligible institution or approved bank, must be on a temporary basis only and must not be persistent; no period of borrowing may exceed three months without the prior consent of the Depositary (which may only give such consent on conditions as appear to the Depositary appropriate to ensure that the borrowing does not cease to be on a temporary basis). Borrowing must not, on any Business Day, exceed 10% of the value of the property of a Fund. As well as applying to borrowing in a conventional manner, the 10% limit applies to any other arrangement designed to achieve a temporary injection of money into the property of the Fund, in the expectation that such will be repaid, for example by way of a combination of derivatives which produces an effect similar to borrowings.

The above provisions on borrowing do not apply to "back to back" borrowing for EPM purposes, being an arrangement under which an amount of currency is borrowed from an eligible institution and an amount in another currency at least equal to the amount of currency borrowed is kept on deposit with the lender (or his or her agent or nominee).

Borrowings may be made from the Depositary, the ACD, the directors or any Investment Adviser or any associate of any of them provided it is an eligible institution or approved bank and the arrangements are at least as favourable to the Fund concerned as would be those of any comparable arrangements effected on normal commercial terms negotiated at arm's-length between two independent parties.

Derivatives and forward contracts

Subject to the Sourcebook and the provisions below certain Funds may use derivatives or forward contracts. Transactions involving derivatives or forward contracts will be subject to the parameters set out below:

- (a) Pursuant to the Sourcebook the ACD may enter into a transaction for a Fund which is:
 - (i) a permitted transaction; and
 - (ii) fully covered in accordance with the Sourcebook.
- (b) Permitted transactions are derivatives transactions (i.e. options, futures or contracts for difference) and forward transactions. A derivatives transaction must be:
 - (i) in an approved derivative (i.e. one which is traded or dealt in on an eligible derivatives market (as set out in Appendix III)) and effected on or under the rules of an eligible derivatives market; or

- (ii) one which complies with the provisions in the Sourcebook regarding over-the-counter (“**OTC**”) derivatives, which requires:
 - (1) that the counterparty to the transaction must be:
 - (i) an eligible institution; or
 - (ii) an approved bank; or
 - (iii) a person whose permission (including any requirements or limitations), as published in the FCA register or whose home state authorisation, permits it to enter into the transaction as principal off exchange; or
 - (iv) a CCP that is authorised in that capacity for the purposes of EMIR; or
 - (v) a CCP that is recognised in that capacity in accordance with the process set out in article 25 of EMIR; or
 - (vi) to the extent not already covered above, a CCP supervised in a jurisdiction that: (1) has implemented the relevant G20 reforms on over-the-counter derivatives to at least the same extent as the United Kingdom; and (2) is identified as having done so by the Financial Stability Board in its summary report on progress in implementation of G20 financial regulatory reforms dated 25 June 2019;
 - (2) that the transaction is on approved terms, the terms of the transaction are only approved if the ACD:
 - (i) carries out, at least daily, a reliable and verifiable valuation in respect of that transaction corresponding to its fair value (being the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm’s length transaction) and which does not rely only on market quotations by the counterparty; and
 - (ii) can enter into one or more further transactions to sell, liquidate or close out that transaction at any time, at its fair value; and
 - (3) that the transaction is capable of reliable valuation; a transaction in derivatives is capable of reliable valuation only if the ACD having taken reasonable care determines that, throughout the life of the derivative (if the transaction is entered into), it will be able to value the investment concerned with reasonable accuracy:
 - (i) on the basis of an up-to-date market value which the ACD and the Depositary have agreed is reliable; or
 - (ii) if the value referred to in (i) is not available, on the basis of a pricing model which the ACD and the Depositary have agreed uses an adequate recognised methodology; and
 - (4) subject to verifiable valuation; a transaction in derivatives is subject to verifiable valuation only if, throughout the life of the derivative (if the transaction is entered into) verification of the valuation is carried out by:
 - (i) an appropriate third party which is independent from the counterparty of the derivative, at an adequate frequency and in such a way that the ACD is able to check it; or
 - (ii) a department within the ACD which is independent from the department in charge of managing the scheme property and which is adequately equipped for such a purpose.

- (c) Eligible derivatives markets consist of any derivatives market which the ACD considers appropriate after consultation with the Depositary, subject to the Sourcebook. The eligible derivatives markets for the Funds are set out in Appendix III.
- (d) A transaction in a derivative must not cause a Fund to diverge from its investment objectives stated in the Instrument of Incorporation and the most recently published version of this Prospectus.
- (e) A derivatives or forward transaction which would or could lead to delivery of property to the Depositary may be entered into only if such property can be held by a Fund and the ACD reasonably believes that delivery of the property pursuant to the transaction will not lead to a breach of the Sourcebook.
- (f) Global exposure within a Fund is a measure of the potential loss to the Fund from the use of derivative instruments. This is calculated using the "Commitment approach" or the "Value-at-Risk ("**VAR**") approach".

The "Commitment approach" converts derivatives into the equivalent position in the underlying asset using the conversion methods set out in CESR Guidelines 10-788 and thereby measures the incremental exposure provided by derivatives, after all appropriate netting or hedging positions have been removed.

If a Fund uses the Commitment approach, transactions may only be entered into if the commitment exposure created by the transactions, in terms of the principal or notional principal of the derivative, does not exceed the Net Asset Value of the scheme property and their global exposure to the underlying assets does not exceed the investment limit laid down in the Sourcebook.

The "VaR approach" is an estimate of the potential loss at a given confidence level, or probability, over a specific time period.

- "Absolute" VaR is expressed as a percentage of the Net Asset Value of a Fund. The Absolute VaR limit of a Fund has to be set at or below 20% of its Net Asset Value.
- "Relative" VaR is the VaR of a Fund expressed as a multiple of the VaR of the benchmark or reference portfolio. The reference portfolio for VaR purposes may be different from the benchmark used for performance calculation. For a Fund whose VaR is calculated using the relative VaR approach, the relative VaR limit on the Fund must be set at, or below, twice the VaR on the comparable benchmark or reference portfolio.

The above VaR calculations will be based upon a one month holding period and a 99% confidence interval. The holding period and historical observation period may change provided that they are in accordance with the requirements of the FCA.

Funds using the VaR approach are required by the applicable regulations, to calculate their expected level of leverage using the "gross sum of notional" method. The gross sum of notional method is a measure of incremental leverage from the use of derivatives in which each derivative is converted into an equivalent position in the underlying asset using the conversion methods set out in CESR Guidelines 10-788. The exposures are summed together (regardless of whether there are positive or negative figures) and taking no account of hedging and netting to produce the gross sum of notional leverage. Therefore this is a measure of derivative use rather than market exposure. As such, the gross sum of notional method can produce a high indication of derivative usage but this may be materially reduced by applying hedging and netting reductions as used by the Commitment approach.

Global exposure for the Quilter Investors Absolute Return Bond Fund, Quilter Investors Diversified Bond Fund, Quilter Investors Investment Grade Corporate Bond Fund, Quilter Investors Sterling Diversified Bond Fund and Quilter Investors Unconstrained Bond Fund is measured using the Absolute VaR approach. Global exposure for the Quilter Investors Corporate Bond Fund is measured using the Relative VaR approach. Leverage is not expected to exceed 500% of the Net Asset Value of the Quilter Investors Sterling Diversified Bond Fund,

1400% of the Net Asset Value of the Quilter Investors Unconstrained Bond Fund and 400% of the Net Asset Value of each of the other Funds. This figure is not a limit and may be exceeded in certain circumstances. For example the Fund may indicate high leverage levels when it has acquired a large number of derivatives which offset each other or when it is utilising derivatives which have large notional values but which make small risk contributions.

Global exposure for Quilter Investors Global Equity Absolute Return Fund is measured using the Absolute VaR approach, as applicable to a Feeder Fund. Leverage is not expected to exceed 250% of the Net Asset Value of Quilter Investors Global Equity Absolute Return Fund.

Further information on the calculation of global exposure in respect of Quilter Investors Global Equity Absolute Return Fund is set out under the section headed 'Investment and Borrowing Powers in relation to a Feeder Fund' below.

Global exposure for all other Funds that use derivatives is calculated using the Commitment approach.

- (g) A Fund may not undertake transactions in commodity derivatives.
- (h) Derivatives and forward transactions may be used for the purposes of pursuing the investment objectives or where they are reasonably believed by the ACD to be economically appropriate to the EPM of the following Funds:

Quilter Investors Absolute Return Bond Fund

Quilter Investors Bond 3 Fund

Quilter Investors China Equity Fund

Quilter Investors Corporate Bond Fund

Quilter Investors Diversified Bond Fund

Quilter Investors Dynamic Bond Fund

Quilter Investors Emerging Markets Equity Fund

Quilter Investors Investment Grade Corporate Bond Fund

Quilter Investors Sterling Corporate Bond Fund

Quilter Investors Sterling Diversified Bond Fund

Quilter Investors Unconstrained Bond Fund

Quilter Investors US Equity Income Fund

The use of derivatives for investment purposes may affect the volatility or risk profile of the Funds, although this is not the ACD's intention.

The ACD considers that the use of derivatives for EPM only, and not for investment purposes, is not likely to affect the volatility or risk profile of the Funds.

- (i) Derivatives and forward transactions may be used where they are reasonably believed by the ACD to be economically appropriate to the EPM. The ACD considers that the use of derivatives for EPM is not likely to affect the volatility or risk profile of the Funds.

For the following Funds, derivatives may be used for EPM purposes only;

Quilter Investors Asia Pacific (ex Japan) Equity Fund

Quilter Investors Asia Pacific (ex Japan) Large-Cap Equity Fund

Quilter Investors Emerging Markets Equity Growth Fund

Quilter Investors Emerging Markets Equity Income Fund

Quilter Investors Europe (ex UK) Equity Fund

Quilter Investors Europe (ex UK) Equity Growth Fund

Quilter Investors Europe (ex UK) Equity Income Fund

Quilter Investors Global Equity Growth Fund

Quilter Investors Global Equity Value Fund

Quilter Investors Japanese Equity Fund

Quilter Investors Natural Resources Equity Fund

Quilter Investors Precious Metals Equity Fund

Quilter Investors Timber Equity Fund

Quilter Investors US Equity Growth Fund

Quilter Investors US Equity Small/Mid-Cap Fund

- (j) The purpose of EPM is to achieve reduction of risk and/or reduction of cost and/or the generation of additional capital or income with a risk level which is consistent with the risk profile of the relevant Fund and the risk diversification rules in the Sourcebook.
- (k) To be economically appropriate to the EPM of a Fund, the ACD must reasonably believe that:
 - (i) for transactions undertaken to reduce risk or cost (or both), the transaction (alone or in combination) will diminish a risk or cost of a kind or level which it is sensible to reduce; or
 - (ii) where, for example, the ACD wishes to achieve a switch in exposure, he or she may do so, rather than through sale and purchase of property of the Fund, by use of derivatives (a technique commonly called “tactical asset allocation”) if the transactions concerned reasonably appear to the ACD to be economically appropriate to the EPM of the Fund and to diminish a risk or cost of a kind or level which it is sensible to reduce. Where the transaction relates to the actual or potential acquisition of transferable securities, then the ACD must intend that the Fund should invest in transferable securities within a reasonable time; and it must thereafter ensure that, unless the position has itself been closed out, that intention is realised within that reasonable time.
- (l) The Quilter Investors Absolute Return Bond Fund, Quilter Investors Bond 3 Fund, Quilter Investors China Equity Fund, Quilter Investors Dynamic Bond Fund, Quilter Investors Investment Grade Corporate Bond Fund, Quilter Investors Sterling Diversified Bond Fund and Quilter Investors Unconstrained Bond Fund may utilise both exchange-traded and OTC derivatives, including futures, forwards, swaps and contracts for difference, as part of their investment policies. Such derivatives and forward transactions will usually be exchange-traded.
- (m) The exposure to any one counterparty in an OTC derivative transaction must not exceed 5% in value of the property of a Fund; this limit is raised to 10% where the counterparty is an approved bank. When calculating exposure, the ACD must use the positive mark-to-market value of the OTC derivative positions of the Fund with the same counterparty provided they are able to legally enforce netting agreements with the counterparty on behalf of the Fund. The exposure

in respect of an OTC derivative may be reduced to the extent that collateral is held provided that it is sufficiently liquid so that it can be sold quickly at a price that is close to its pre-sale valuation.

- (n) Each Fund may use derivatives and forward contracts as long as the exposure to the Fund resulting from those transactions is suitably covered by its property. Exposure will include any initial outlay in respect of that transaction.
- (o) In the case of Funds where Euro Hedged share classes or US Dollar Hedged share classes are in issue, the ACD will use forward currency transactions to undertake a policy of hedging. For these share classes the ACD intends to use hedging transactions to reduce risk by limiting the impact of exchange rate movements between the base currency of the Fund (Sterling) and the currency in which the hedged shares of these share classes are issued. The ACD uses derivatives and forward contracts (in accordance with the techniques of EPM) for this purpose.

In summary, the use of derivatives for EPM is not likely to affect the volatility or risk profile of the Funds. **The use of derivatives for the purposes of pursuing the investment objectives of the Funds may affect the volatility or risk profile of the Funds, although this is not the ACD's intention.**

Transactions may be effected in which the ACD has, either directly or indirectly, an interest that may potentially involve a conflict of its obligation to the Company. Where a conflict cannot be avoided, the ACD will have regard to its fiduciary responsibility to act in the best interests of the Company and its investors. The ACD will ensure that investors are treated fairly and that such transactions are effected on terms which are not less favourable to the Company than if the potential conflict had not existed.

Operational costs and fees arising from EPM techniques and/or the use of derivatives are paid for by the relevant Fund. The identity of the entities to which operational costs and fees are paid will be disclosed in the annual report.

A Fund may receive cash, high quality government bonds and equities to the extent deemed necessary by the Investment Adviser in respect of OTC derivative transactions for a Fund, provided however that such collateral must comply with the requirements of the FCA.

A documented haircut policy is in place for the Company detailing the policy in respect of each class of assets received and which takes into account the characteristics of the assets and the results of any stress tests conducted as required. Any re-investment of cash collateral shall be diversified in accordance with the requirements of the FCA. Re-invested cash collateral exposes the Company to certain risks such as the risk of a failure or default of the issuer of the relevant security in which the cash collateral has been invested. Investors should consult the "Risks" section below for information on counterparty risk and credit risk in this regard.

Stock Lending

The Funds have power to engage in Stock lending in the manner permitted by, and subject to the requirements of, the Sourcebook. The power may be exercised for the purpose of EPM. There is no limitation on the value of the property of a Fund that may be the subject of permitted Stock lending transactions. However, currently none of the Funds engage in Stock lending.

Hong Kong Stock Connect ("Stock Connect")

The following Funds may invest in certain eligible China A Shares through Stock Connect:

- Quilter Investors Asia Pacific (ex Japan) Equity Fund
- Quilter Investors Asia Pacific (ex Japan) Large-Cap Equity Fund
- Quilter Investors China Equity Fund
- Quilter Investors Emerging Markets Equity Fund

- Quilter Investors Emerging Markets Equity Growth Fund
- Quilter Investors Emerging Markets Equity Income Fund
- Quilter Investors Global Equity Growth Fund
- Quilter Investors Natural Resources Equity Fund
- Quilter Investors Precious Metals Equity Fund
- Quilter Investors Timber Equity Fund

Stock Connect is a securities trading and clearing links program developed by, amongst others, the Stock Exchange of Hong Kong Limited (“**SEHK**”), Shanghai Stock Exchange (“**SSE**”), Shenzhen Stock Exchange (“**SZSE**”), Hong Kong Securities Clearing Company Limited (“**HKSCC**”) and China Securities Depository and Clearing Corporation Limited (“**ChinaClear**”), with an aim to achieve mutual stock market access between mainland China and Hong Kong. The term “China A Shares” means domestic shares in the People’s Republic of China (“**PRC**”) incorporated companies listed on either the SSE or the SZSE, the prices of which are quoted in Renimbi (“**RMB**”) and which are available to such investors as approved by the China Securities Regulatory Commission (“**CSRC**”).

The key risks of investing in China A Shares via Stock Connect are set out in the “Risks” section below.

Investment and Borrowing Powers in relation to a Feeder Fund

Subject to the FCA Rules, a Feeder Fund:

- (a) must invest at least 85% in value of its scheme property in units of a single Master Fund;
- (b) may hold up to 15% in value of its scheme property in one or more of the following:
 - a. cash or near cash in accordance with the FCA Rules and as set out in the ‘Cash and near cash’, ‘Borrowing’, and ‘Transferable securities and approved money market instruments’ sections above (as applicable to a Feeder Fund);
 - b. derivatives and forward transactions which may only be used for the purposes of hedging and in accordance with the FCA Rules and as set out in the ‘Derivatives and forward contracts’ section above (as applicable to a Feeder Fund);
 - c. movable and immovable property which is essential for the direct pursuit of the business.

When calculating the global exposure of a Feeder Fund to derivatives and forward transactions in accordance with the FCA Rules, the Feeder Fund must combine its own direct exposure with either:

- (a) the Master Fund’s actual exposure to derivatives and forward transactions in proportion to the Feeder Fund’s investment in the Master Fund; or
- (b) the Master Fund’s potential maximum global exposure to derivatives and forward transactions provided for in the instrument constituting the Master Fund’s or its prospectus in proportion to the Feeder Fund’s investment into the Master Fund.

In respect of Quilter Investors Global Equity Absolute Return Fund, as the investment policy of the Fund does not permit the Fund to use derivatives or forward transactions, there are no direct exposures to such instruments and transactions that are required to be taken into account in calculating the global exposure of this Fund (as described in the paragraph above). As the Master Fund into which Quilter Investors Global Equity Absolute Return Fund invests may use derivatives and forward transactions, the calculation of the global exposure is undertaken with reference to the exposures described in (a) or (b) of the paragraph above. Further information on the Master Fund’s investment objectives and policies is contained in the ‘Master Fund’ section above.

The ACD must ensure that, to the extent a Feeder Fund invests in assets other than units of the Master Fund, the Feeder Fund maintains a prudent spread of risk in accordance with the FCA Rules.

RISKS

Potential investors should consider the risk factors set out at in Appendix VII before investing in the Funds.

WINDING UP OF THE COMPANY AND TERMINATION OF FUNDS

Winding up the Company

The Company may be wound up under the provisions of the Sourcebook or as an unregistered company under Part V of the Insolvency Act 1986. Winding up under the Sourcebook is only permitted with the approval of the FCA and if a statement has been lodged with the FCA by the ACD confirming that the Company will be able to meet all its liabilities within twelve months of the date of the statement (a “**solvency statement**”).

Subject to the foregoing, the Company will be wound up under the Sourcebook:

- if an extraordinary resolution to that effect is passed; or
- if the FCA agrees to a request by the ACD for the winding up of the Company.

Winding up under the Sourcebook is carried out by the ACD, which will, as soon as practicable, cause the property of the Company attributable to each Fund to be realised and the liabilities of the Company attributable to that Fund to be met out of the proceeds. Provided that there are sufficient liquid funds available after making provision for the expenses of winding up and the discharge of the liabilities of the Company, the ACD may arrange for the Depositary to make one or more interim distribution(s) to be made to shareholders: when all liabilities have been met, the balance (net of a provision for any further expenses of the Company) will be distributed to shareholders. The distributions out of each Fund will be made to the holders of each class of shares in that Fund, in proportion to the relative entitlements in the property of that Fund which their shares represent (determined in accordance with the Instrument of Incorporation).

On completion of the winding up, the Company will be dissolved and any money (including unclaimed distributions) standing to the account of the Company shall be paid into court within one month of dissolution.

Termination of a Fund

A Fund may be terminated with the approval of the FCA, if a solvency statement is lodged with the FCA in respect of the liabilities of the Company relating to the Fund or an extraordinary resolution to that effect has been passed by a class meeting(s) of the holders of shares of the Fund.

In accordance with the Sourcebook, termination can only commence once the proposed alterations to the Instrument of Incorporation and Prospectus have been notified to the FCA in writing and permitted to take effect on termination. In accordance with the Sourcebook, as soon as practicable after termination has commenced, the ACD shall cause the property of a Fund to be realised and the liabilities of the Fund to be paid out of the proceeds of realisation. Where sufficient liquid proceeds are available (after making provision for the expenses of the termination and the discharge of the Fund’s remaining liabilities), the ACD may (but is not obliged to) arrange for the Depositary to make one or more interim distributions to shareholders in proportion to their respective shares of such proceeds. On or before the final date on which the final accounts of the Fund are sent to shareholders, the ACD shall arrange for the Depositary to make a final distribution to shareholders. Shareholders should be aware that the process of termination may take some months depending on the nature of the assets and liabilities held within the Fund and that they may not receive a full distribution of their share of the property of the Fund until this process is complete.

The ACD may make a request for the termination of a Fund, among other circumstances, if at any time after the first anniversary of the issue of the first shares in the Fund the net value of the assets of the Company attributable to the Fund is less than £10,000,000.

CLIENT MONEY

In certain circumstances (including in relation to the purchase and redemption of shares), money in respect of shares will be transferred to a client money bank account with an approved bank that the ACD may from time to time select until such transactions can be completed. Money transferred to a client money account will be held in accordance with that part of the FCA Rules which deals with holding client money (the “**Client Money Rules**”). The purpose of utilising client money accounts is to protect shareholders should the ACD become insolvent during such a period. No interest will be paid or, in the event that interest rates fall below zero, charged on money held in these client money bank accounts.

Client money may be held with an approved bank outside the UK. In such case, the relevant accounts will be subject to the laws of that state and the client money may be treated in a different manner from that which would apply if the client money were held by a party located in the UK.

Where client money is deposited into an account with an approved bank, the approved bank may have a security interest or lien over, or right of set-off in relation to such money, to the extent the ACD is permitted to grant such rights by the Client Money Rules.

The ACD may hold client money in an omnibus account which means that shareholder’s money may be held in the same account as that of other shareholders. In an insolvency event shareholders would not have a claim against a specific amount in a specific account. Shareholders would claim against the client money pool in general. Pooled property in omnibus accounts held by the ACD may be used for the account of any of the relevant shareholders.

The ACD will not be responsible for any loss or damages suffered by shareholders because of any error or action taken or not taken by any third parties holding client money in accordance with the Client Money Rules, unless the loss arises because the ACD has been negligent or acted fraudulently or in bad faith. Should the approved bank, or banks, holding the client money bank account become insolvent, the ACD will attempt to recoup the money on behalf of shareholders. However, if the approved bank or banks cannot repay all the persons to whom it owes money, any shortfall may have to be shared proportionally between all its creditors including shareholders.

Transfer of business

Except in respect of de minimis sums transferred in accordance with the Client Money Rules (where shareholder consent is not required), shareholders agree that the ACD may transfer to another person, as part of a transfer of business to that person, client money balances, provided that:

- (a) The sums transferred will be held for the relevant shareholder by the person to whom they are transferred in accordance with the Client Money Rules; or
- (b) If not held in accordance with (a), the ACD will exercise all due skill, care and diligence in assessing whether the person to whom the client money is transferred will apply adequate measures to protect these sums.

For the purpose of this section, de minimis shall mean £25 for retail investors and £100 for all other investors.

Unclaimed balances

In certain circumstances, if the ACD has lost touch with a shareholder and there has been no movement on the account (notwithstanding any payments or receipts of charges, interest or similar items), the ACD will be permitted to pay the shareholder’s client money balance to charity after six years. At this point, the ACD shall cease to treat such money as client money. The ACD will not do so until reasonable efforts have been made to contact the shareholder in accordance with the Client Money Rules. The shareholder will still be entitled to recover this money from the ACD at a later date irrespective of whether the ACD has paid the money to charity.

Delivery versus payment exemption

When an Applicant applies for shares in a Fund there is a window of time between the ACD receiving subscription money from the Applicant and the ACD transferring the subscription money to the Depositary to be used to settle the creation of the Applicant's shares. If the ACD transfers the subscription money to the Depositary by the close of business on the Business Day following receipt, the ACD is permitted to use an exemption to the Client Money Rules which means that the ACD is not required to ensure that money is protected in a ring-fenced bank account. If the ACD transfers the subscription money to the Depositary outside of this window then the ACD is required to protect the money in a ring-fenced bank account in accordance with the Client Money Rules.

Similarly, when a shareholder makes a redemption request for shares in a Fund there is a window of time between the ACD receiving redemption money from the Depositary and the ACD transferring the redemption money to the shareholder. If the ACD transfers the redemption money to the shareholder by the close of business on the Business Day following receipt, the ACD is permitted to use an exemption to the Client Money Rules which means that the ACD is not required to ensure money is protected in a ring-fenced bank account. If the ACD transfers the redemption money to a shareholder outside of this window then the ACD is required to protect the money in a ring-fenced bank account in accordance with the Client Money Rules until such time as it is paid to the shareholder.

Money which is not held as client money will not be protected in the insolvency of the ACD and no interest is payable to Applicants or shareholders. By agreeing to subscribe for shares in a Fund, shareholders consent to the ACD operating the delivery versus payment exemption on subscriptions and redemptions as explained above.

OTHER INFORMATION

Typical investor profile

The ACD considers that the Funds are suitable for investors who see collective investment schemes as a convenient and cost-effective way of participating in stock market investment and performance. As the investment may occasionally experience periods of price volatility, the Funds would be more suitable for investors who can afford to set aside the invested capital for a minimum period of five years. In general, however, the ACD recommends that investors seek suitable advice from an authorised independent intermediary before investing. Attention should also be drawn to the specific Risk Factors contained in the relevant KIID and in the "Risks" section above.

Benchmarks

The benchmarks utilised by the Funds are, as at the date of this Prospectus, provided by benchmark administrators that are either (i) listed on the register of administrators and benchmarks maintained by the FCA or (ii) will be listed on the FCA register by the time required by applicable regulation.

Delegation

The ACD and, subject to exceptions specified in the Sourcebook, the Depositary may retain (or arrange for the Company to retain) the services of other persons to assist them in the performance of their respective functions. Save as expressly stated in this Prospectus, no other functions have been delegated.

Conflicts of interest

The Depositary, the ACD or any associate of them may (subject to the Sourcebook) hold money on deposit from, lend money to, or engage in Stock lending transactions in relation to the Company, so long as the services concerned are provided on arm's-length terms (as set out in the Sourcebook) and in the case of holding money on deposit or lending money the Depositary, ACD or any associate of them is an eligible institution or approved bank.

The Depositary, the ACD, or any associate of any of them may sell or deal in the sale of property to the Company or purchase property from the Company provided the applicable provisions of the Sourcebook apply and are observed.

Subject to compliance with the Sourcebook the ACD may be party to or interested in any contract, arrangement or transaction to which the Company is a party or in which it is interested. The ACD is entitled in its own discretion to determine the terms of its appointment as such, and consequently to amend the terms of the service agreement referred to in “The Authorised Corporate Director” section.

The Depositary, the ACD, or any associate of any of them will not be liable to account to the Company or any other person, including the holders of shares or any of them, for any profit or benefit made or derived from or in connection with:

- (a) their acting as agent for the Company in the sale or purchase of property to or from the Funds;
- (b) their part in any transaction or the supply of services permitted by the Sourcebook; or
- (c) their dealing in property equivalent to any owned by (or dealt in for the account of) the Company.

Liability and indemnity

With the exceptions mentioned below:

- the ACD, the Depositary and the Auditor are each entitled under the Instrument of Incorporation to be indemnified against any loss, damage or liability incurred by them in or about the execution of their respective powers and duties in relation to the Company; and
- the ACD and the Depositary are, under the terms of their respective agreements with the Company, exempted from any liability for any loss or damage suffered by the Company.

The above provisions will not, however, apply in the case of:

- any liability which would otherwise attach to the ACD or the Auditor in respect of any negligence, default, breach of duty or breach of trust in relation to the Company;
- any liability on the part of the Depositary for any failure to exercise due care and diligence in the discharge of its functions; or
- any breach by the ACD or the Depositary of their respective obligations under the Financial Services and Markets Act 2000 or any rules made under or in pursuance of that Act.

Rebate of fees; commission

In certain limited circumstances and subject at all times to the provisions of the Conduct of Business Sourcebook of the FCA's Handbook of Rules and Guidance, the ACD may at its sole discretion rebate its initial charge or annual management charge or Fixed Ongoing Charge, as applicable, in respect of any application for, or holding of, shares. Similarly the Company may rebate or waive its charges in relation to any exchange of shares. A proportion of the initial charge may be rebated to the introducer (the investor's financial intermediary) in the form of commission payment. The investor should check with the intermediary the amount of commission he or she has received and further details of such arrangements are available on request from the ACD.

General

Unless otherwise expressly provided, terms used in this Prospectus have the meanings used in the Sourcebook.

Any complaint should be referred to the Complaints Team at the Registrar's office at Quilter Investors Limited, PO Box 10278, Chelmsford, CM99 2AR. If a complaint cannot be resolved satisfactorily with the Company it may be referred to the Financial Ombudsman Service at Exchange Tower, Harbour

Exchange Square, London E14 9SR. Further details of the ACD's complaints handling policy are available on request.

All deals in shares are governed by English law and any dispute (whether contractual or non-contractual in nature) arising is subject to the exclusive jurisdiction of the English courts. If a shareholder were to bring a claim against the Company, it would be necessary for the shareholder to bring proceedings in the English courts. All communications with a shareholder or prospective shareholder shall be made in English.

Shareholders may be entitled to compensation from the Financial Services Compensation Scheme if the Company cannot meet its obligations. This depends on the type of business and circumstances of the claim. In respect of most types of investment business, the first £85,000 is protected in full.

Further information about compensation arrangements is available from the Financial Services Compensation Scheme website www.fscs.org.uk.

All documents and remittances are sent at the risk of the shareholder.

A notice of an Applicant's right to cancel the agreement to purchase shares will be forwarded, where this is required by rules made under the Financial Services and Markets Act 2000.

An Applicant who is entitled to cancel and does so will not get a full refund of the money paid by him or her if the purchase price of the shares falls before the cancellation notice is received by the Registrar (on behalf of the ACD), because an amount equal to such fall (the "**shortfall**") will be deducted from the refund he or she would otherwise receive. Where the purchase price has not yet been paid the Applicant will be required to pay the amount of the shortfall to the ACD. The deduction does not apply where the service of the notice of the right to cancel precedes the entering into of the agreement. Cancellation rights must be exercised by posting a cancellation notice to the Registrar (on behalf of the ACD) to its office at Quilters Investors Limited, PO Box 10278, Chelmsford, CM99 2AR on or before the 30th day after the date on which the Applicant receives the notice of the right to cancel.

The address for service on the Company of notices or other documents required or authorised to be served on it is Senator House, 85 Queen Victoria Street, London, EC4V 4AB.

The Company will serve any notice or document on shareholders by sending them by first class post to the name and address on the register and in the case of joint shareholders, to the first mentioned on the register.

Copies of this Prospectus and Instrument of Incorporation may be inspected at, and obtained from, the ACD at Senator House, 85 Queen Victoria Street, London, EC4V 4AB during ordinary office hours. The ACD will also provide upon request, copies of the service agreement between the ACD and the Company.

Upon written request the ACD will provide further information relating to:

- the quantitative limits applying to the risk management of each Fund;
- the methods used in relation to the risk management of each Fund; and
- any recent developments of the risk and yields of the main categories of each Fund's investments.

The ACD will execute purchases, sales and switches of shares in the Company. However, the execution of purchases and sales of underlying investments for the Funds, other than the Quilter Investors Global Equity Absolute Return Fund, will be undertaken by the relevant Investment Advisers in accordance with their execution policy. A copy of the ACD's execution policy is available on request or at www.quilter.com.

The ACD may delegate the exercise of voting rights in relation to underlying investments to the Investment Advisers. Further details of an Investment Adviser's voting policy along with records of voting are available on request from the ACD.

This Prospectus describes the constitution and operation of the Company at the date of this Prospectus. In the event of any fundamental or significant change in the matters stated herein or other change notifiable in accordance with the Sourcebook or any materially significant new matter arising which ought to be stated herein this Prospectus will be revised. Investors should check with the ACD that this is the latest version and that there have been no revisions or updates.

APPENDIX IV

Past Performance Information

For the following Funds, the performance charts have been calculated on a NAV to NAV basis, with income reinvested. The source of data is Morningstar.

The table shows the performance for all Funds to 31 December 2023.

For Funds with more than one share class, a representative Sterling class has been used. Please consult the KIID for the relevant share class for more detail.

For Funds with a Target Benchmark the performance data of the relevant Target Benchmark is shown below the relevant Fund's performance information. Where a Target Benchmark has changed, the performance data may, as indicated below, relate to the current and/or former Target Benchmark of a Fund.

Please note that past performance is not an indication of future performance.

Note: Where it is stated that no data exists, the Fund does not have a full trading history for the period. A full trading history does not exist for Quilter Investors Bond 3 Fund as this Fund closed on 16 October 2020.

There is no past performance data available for Quilter Investors Unconstrained Bond Fund as this Fund has not yet launched.

* Until 29 September 2021, the ICE BofA SONIA 3-Month Constant Maturity Index was known as the ICE BofAML British Pound Deposit Offered Rate Constant Maturity (3M) Index.

** With effect from 1 November 2021, the Target Benchmark changed to MSCI Zhong Hua 10/40 Index. Accordingly, the relevant data shown in the table relates to the MSCI Zhong Hua Index prior to 1 November 2021 and performance from this date has been measured against the MSCI Zhong Hua 10/40 Index.

*** With effect from 19 August 2022, the Target Benchmark changed to the ICE BofA Q9AX Custom Index. Accordingly, the relevant data shown in the table relates to the ICE BofAML Q880 Custom Index prior to 19 August 2022 and performance from this date has been measured against the ICEA BofA Q9AX Custom Index.

^ With effect from 19 August 2022, the Target Benchmark changed to the ICE BofA Q9AX Custom Index. Accordingly, the relevant data shown in the table relates to the 3-Month Constant Maturity Index

prior to 19 August 2022 and performance from this date has been measured against the ICE BofA Q9AX Custom Index.

^^ Please note that the past performance data for the Quilter Investors Global Equity Absolute Return Fund is not the same as the past performance data for the Jupiter Merian Global Equity Absolute Return Fund (the Master Fund) although it is likely to be very similar because the fund invests substantially all of its assets into the Master Fund. The past performance data for the Master Fund is set out in its prospectus.

^^ Until 1 January 2020 the ICE BofA Sterling Non-Gilt Index was known as the ICE BofAML Sterling Non-Gilt Index. The prospectus was updated to note this change on 22 July 2022.

+ Please note that, with effect from 29 June 2023, the Target Benchmark changed to the MSCI USA IMI Growth Index. Accordingly, the relevant data shown in the table relates to the MSCI North America Growth Index prior to 29 June 2023 and performance from this date has been measured against the MSCI USA IMI Index.

++ With effect from 1 May 2023, the Target Benchmark changed to the MSCI North America Value Index. Accordingly, the relevant data shown in the table relates to the MSCI North America Index prior to 1 May 2023 and performance from this date has been measured against the MSCI North America Value Index.

+++ Please note that, with effect from 29 June 2023, the Target Benchmark changed to the MSCI USA Small-Cap Index. Accordingly, the relevant data shown in the table relates to the Russell 2500 Index prior to 29 June 2023 and performance from this date has been measured against the MSCI USA Small-Cap Index.

APPENDIX V

Other Schemes managed by the ACD

The ACD acts as authorised corporate director of the following open-ended investment companies:

Quilter Investors Cirilium OEIC

Quilter Investors Multi-Asset OEIC

Quilter Investors Series I

The ACD also acts as manager of the following authorised unit trusts:

Quilter Investors Charity Authorised Investment Funds

Quilter Investors Trust

Ukraine	JSC Citibank
United States	Citibank N.A., New York offices
Uruguay	Banco Itau Uruguay S.A.
Vietnam	Citibank N.A., Hanoi Branch

APPENDIX VII

Risk Factors

The following are important warnings:

General

Investors should appreciate that there are inherent risks in all types of investments. Stock market prices can move erratically and be unpredictably affected by many diverse factors, including political and economic events but also rumours and sentiment. Investment in a Fund should be regarded as a long term investment. There can be no guarantee that the objectives of a Fund will be achieved.

The capital value and the income from shares in a Fund can fluctuate and the price of shares and the income from them can go down as well as up and are not guaranteed. On encashment, particularly in the short term, investors may receive less than the original amount invested.

Asset-backed and mortgage-backed securities

Asset-backed securities (“**ABS**”) are debt securities whose yield, credit quality and effective maturity derive from an interest in an underlying pool of debt assets, such as credit card debt, car loans, student loans and equipment leases. Mortgage-backed securities (“**MBS**”) are debt securities whose yield, credit quality and effective maturity derive from an interest in an underlying pool of commercial and/or residential mortgages. ABS and MBS depend on the cash flows from a specified pool of underlying financial assets and are subject to greater credit, liquidity and interest rate risk and may be more volatile than other debt securities. The price and yield of ABS and MBS typically reflect an expectation that capital will be repaid before maturity. When interest rates fall, these securities are often repaid early, as the borrowers of the underlying debt refinance at lower interest rates (i.e. prepayment risk). A Fund may then have to reinvest in debt securities with a lower-yield. When interest rates rise, the underlying debt will often be repaid later than expected (i.e. extension risk), and can therefore increase the duration, and hence the volatility, of these securities. ABS and MBS may also be less liquid than other debt securities.

Brexit

On 31 January 2020, the UK formally withdrew from the EU and entered into a transition period which ended at 11pm on 31 December 2020. An EU-UK Trade and Cooperation Agreement (the “**TCA**”) was concluded on 30 December 2020. Although the TCA was ratified by the European Parliament on 28 April 2021, the process to implement the new political, economic and regulatory framework between the UK and the EU remains uncertain and therefore such implementation may still have a detrimental impact on a Fund’s ability to fulfil its investment objective or on the value of a Fund’s assets, and may increase a Fund’s costs.

Cancellation rights

Where cancellation rights are applicable, if shareholders choose to exercise their cancellation rights and the value of their investment falls before notice of cancellation is received by the ACD in writing, a full refund of the original investment may not be provided, but rather the original investment less the fall in value.

Capital expenses

Where we take expenses from the capital of the fund, rather than the income, then the income available for distribution to investors will increase by the amount charged, but the capital of the fund will be reduced by the same amount. For funds where we take expenses from the income, if the fund has not generated enough income, the balance may have to come from the capital of the fund. This may result in capital erosion or constrain capital growth.

Currency exchange rates

Investments may be made in assets denominated in various currencies and the movement of exchange rates may have a separate effect, unfavourable as well as favourable, on the gains and losses otherwise experienced on such investments.

Concentrated portfolios

Funds which invest in a limited number of investments may carry a higher degree of risk. A fall in the value of one or more of those investments may have a more significant impact on the value of the Fund than if a larger number of investments were held.

Contingent Convertible Bonds (“CoCos”)

CoCos are a type of hybrid subordinated debt security issued by financial institutions. Upon the occurrence of a predetermined “trigger” event, CoCos may be converted into equity or may be subject to a write-down of the principal investment. Investment in CoCos could expose a Fund to a variety of risks including the following:

- CoCos are relatively new instruments, and it is uncertain how they will perform in stressed market conditions;
- CoCos may provide a higher yield, but may also carry higher risk than traditional debt instruments. Volatility and the risk of capital loss may be significant;
- trigger events are typically linked to the financial position of the issuer so a conversion is likely to occur as a result of a deterioration in the issuer’s capital strength. A conversion to equity would therefore likely occur at a share price which is lower than when the bond was issued or purchased;
- contrary to the typical capital structure hierarchy, in the event of a principal write down, holders of CoCos could suffer a write down before equity holders;
- in stressed market conditions, the liquidity profile of an issuer may deteriorate significantly and holdings in CoCos may become difficult to sell;
- there is no guarantee that CoCos issued as perpetual bonds (i.e. without a maturity date) will be called on their call dates, and there is a risk that the holder may not receive the return of the principal investment; and
- coupon payments may be discretionary and may be cancelled at any time.

Counterparty risk

The Funds will be subject to the risk of the inability of any counterparty to perform with respect to transactions, whether due to insolvency, bankruptcy or other causes. In particular, investors should be aware that the use of contracts for difference or other OTC derivatives exposes the relevant Fund to credit risk. The risk is that the provider of the contracts for difference becomes insolvent while it owes money to the Fund.

Derivatives

Investors should be aware that certain Funds may employ a strategy involving derivatives, primarily contracts for difference, swaps or futures, for EPM purposes and/or in pursuance of its investment objectives (as set out in the section above headed “Derivatives and forward contracts”). Although such a strategy is designed to gain access to a sector or asset type or reduce exposure to equity or bond markets, or other types of market exposure within a Fund, if the value of the underlying asset moves against the Fund, this will cause loss to the Fund.

Certain Funds may undertake contracts in OTC derivatives as well as those which are traded on a recognised exchange. This may expose investors to additional risk as such OTC derivatives may be more difficult to value or close.

The use of derivatives for the purposes of pursuing the investment objectives may affect the volatility or risk profile of the Funds, although this is not the ACD's intention.

Derivatives for hedging exposure

For certain Funds, derivatives may be used to hedge against various risks as permitted by the OEIC Regulations and the Sourcebook. The use of derivatives for hedging in a rising market may restrict potential gains.

Emerging markets

The Quilter Investors Absolute Return Bond Fund, Quilter Investors Asia Pacific (ex Japan) Equity Fund, Quilter Investors Asia Pacific (ex Japan) Large-Cap Equity Fund, Quilter Investors China Equity Fund, Quilter Investors Emerging Markets Equity Fund, Quilter Investors Emerging Markets Equity Growth Fund, Quilter Investors Emerging Markets Equity Income Fund, Quilter Investors Europe (ex UK) Equity Income Fund, Quilter Investors Precious Metals Equity Fund and Quilter Investors Unconstrained Bond Fund may invest directly or indirectly in emerging or less developed markets.

Investments in emerging markets may be more volatile than investments in more developed markets. Some of these markets may have relatively unstable governments, economies based on only a few industries and securities markets that trade only a limited number of securities. Many emerging markets do not have well developed regulatory systems and disclosure standards may be less stringent than those of developed markets.

The risks of expropriation, nationalisation and social, political and economic instability are greater in emerging markets than in more developed markets.

The following is a brief summary of some of the more common risks associated with emerging markets investment:

Lack of Liquidity - The accumulation and disposal of holdings may be more expensive, time consuming and generally more difficult than in more developed markets. Also, due to the lack of liquidity, volatility may be higher. Many emerging markets are small, have low trading volumes, low liquidity and significant price volatility.

Currency Fluctuations - Significant changes in the currencies of the countries in which investments are made in respect of the currency of denomination of the relevant Fund may occur following the investment of the Company in these currencies. These changes may impact the total return of the Fund to a significant degree. In respect of currencies of certain emerging countries, it is not possible to undertake currency hedging techniques.

Settlement and Custody Risks - Settlement and custody systems in emerging markets are not as well developed as those in developed markets. Standards may not be as high and supervisory and regulatory authorities not as sophisticated. As a result there may be risks that settlement may be delayed and that cash or securities could be disadvantaged.

Investment and Remittance Restrictions - In some cases, emerging markets may restrict the access of foreign investors to securities. As a result, certain equity securities may not always be available to a Fund because the maximum permitted number of or investment by foreign Shareholders has been reached. In addition, the outward remittance by foreign investors of their share of net profits, capital and dividends may be restricted or require governmental approval. The Company will only invest in markets in which it believes these restrictions to be acceptable. However, there can be no guarantee that additional restrictions will not be imposed.

Accounting - Accounting, auditing and financial reporting standards, practices and disclosure requirements applicable to companies in emerging markets differ from those applicable in more

developed markets in respect of the nature, quality and timeliness of the information disclosed to investors and, accordingly, investment possibilities may be difficult to properly assess.

Equities risk

Where investments are in the shares of companies (equities), the value of those equities and the ability to pay out dividends may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.

Exchange traded funds

Investors should note that the Funds may invest in exchange-traded funds. Exchange traded funds represent a basket of securities that are traded on an exchange and may not necessarily trade at the Net Asset Value of their underlying holdings. As a result, they may trade at a price that is above or below the value of the underlying portfolio.

Fixed interest securities

Fixed interest securities are particularly affected by trends in interest rates and inflation. If interest rates go up, the value of capital may fall and vice versa. The value of a fixed interest security will fall in the event of the default or reduced credit rating of the issuer. Generally the higher the rate of interest, the higher the perceived credit risk of the issuer. High yield bonds with lower credit ratings (also known as sub-investment grade bonds) are potentially more risky (higher credit risk) than investment grade bonds. A sub-investment grade bond has a Standard & Poor's credit rating of below BBB or equivalent. The value of investments will fall in the event of the default or perceived increased credit risk of an issuer.

Fraud

It is possible that companies in which investments are made may be found to be conducting fraudulent activities. As a result, it is possible that losses may be suffered.

Inflation

A rising rate of inflation will have the effect of reducing the relative value of any gain by an equivalent amount.

Leverage

Funds may employ leverage as part of its investment strategy. As a result profits and losses incurred by the Fund can be greater than those of a similar fund that does not use leverage.

Lower diversification (spread of risk)

Some funds may have a portfolio of assets which is concentrated in individual countries, companies, market sectors or sustainability themes. If one of these factors underperformed, it would have a greater effect than would be the case in a more diversified portfolio where the risk is more widely spread.

Liquidity

Each Fund may also invest in underlying collective investment schemes that may not offer liquidity on a daily basis. This may affect the ability of shareholders to realise their investment when they choose and under certain circumstances the ACD has the ability to defer redemptions (see "Purchase, Redemption and Switching of Shares").

Master Feeder Structure Risk

The investment activities of the Master Fund involve a variety of risks as detailed in the prospectus of the Master Fund. Any Fund which is a feeder fund will invest all or substantially all of its assets into a master fund. The master-feeder fund structure presents certain risks to shareholders in such a Fund.

There is a risk in terms of diversification since the Fund will be exposed to a single master fund even if it is an authorised UK UCITS scheme. The Fund is likely to be one of a number of investors in the Master Fund.

The Fund may be materially affected by the actions of the other investors in the Master Fund, particularly if the size of the Fund is small relative to that of the Master Fund.

Furthermore, there is a risk that the performance of the Fund may be similar but not exactly the same as the Master Fund due to, among other things, cash holdings, hedging, transaction costs etc.

OTC derivatives

Certain Funds may use both exchange-traded and OTC derivatives, including futures, forwards, swaps and contracts for difference, as part of their investment policies and/or for the purpose of EPM. These instruments can be highly volatile and expose investors to a high risk of loss. Transactions in OTC derivatives may involve additional risk as there is no exchange market on which to close out an open position in such derivatives. It may therefore be impossible to liquidate an existing position, to assess the value of a position or to assess the exposure to risk. Contractual asymmetries and inefficiencies can also increase risk, such as break clauses, whereby a counterparty can terminate a transaction on the basis of a certain reduction in Net Asset Value of a position, incorrect collateral calls or delays in collateral recovery. Certain Funds may invest in derivatives and forward contracts as long as the exposure of the Fund resulting from such transactions is suitably covered by its property. Exposure will include any initial outlay in respect of a transaction.

Past performance

It must be emphasised that past performance is not a guide to future growth or rates of return.

Performance Fees

The Performance Fees may be considered to create an incentive for the investment manager of the Master Fund to increase the risk profile of a Master Fund. The existence of the Performance Fee may create an incentive for the investment manager to select more speculative investments than it would otherwise make in the absence of such performance-based arrangements.

Neither the Master Fund nor the Fund operates a Performance Fee equalisation mechanic. Therefore, if investors subscribe for, or redeem, relevant shares part way through a Performance Period, there may be circumstances in which they receive the benefit of performance for which they have not paid a Performance Fee or conversely they may pay for performance in circumstances where other shareholders have not.

Pricing and valuation risk

For quoted investments a valuation price can be obtained from an exchange or similarly verifiable source. However, investment in unquoted and/or illiquid investments which are difficult to value may increase the risk of mispricing. Furthermore, the relevant Fund may compute Net Asset Values when some markets are closed for holidays or other reasons. In these and similar cases a verifiable source of market prices will not be available and the ACD may invoke its fair value process which will determine a fair value price for the relevant investments; this fair value process involves assumptions and subjectivity.

Risks related to natural disasters and widespread diseases

Natural or environmental disasters, (such as earthquakes, fires, floods, hurricanes, tsunamis, and other severe weather-related phenomena) and widespread disease, (including pandemics and epidemics) may be highly disruptive to economies and markets, adversely impacting individual companies, sectors, industries, markets, currencies, interest and inflation rates, credit ratings and investor sentiment, which can have an adverse effect on the value of a Fund's investments and the ability to pay out dividends. Conditions that are prevalent in one country, market, or region are increasingly likely to adversely affect the markets, issuers, and/or foreign exchange rates in another country. Natural or

environmental disasters could prevent a Fund from executing investment decisions in a timely manner and could negatively impact a Fund's ability to achieve its investment objective. This could have a significant adverse impact on the value and the risk profile of a Fund.

In December 2019, an outbreak of a respiratory disease caused by a novel coronavirus was first detected ("**COVID-19**"). The World Health Organisation declared a global emergency on 30 January 2020 with respect to the outbreak and then characterised it as a pandemic on 11 March 2020. The outbreak has spread globally which has resulted in borders closing, restrictions on movement of people, quarantines, cancellations of transportation and other services, disruptions to supply chains, businesses and customer activity, as well as general concern and uncertainty. While these effects are expected to be temporary, the duration of the business disruptions internationally and related financial impact cannot be reasonably estimated at this time. In addition, the impact of infectious diseases in developing or emerging market countries may be greater due to less established health care systems. Health crises caused by the recent COVID-19 outbreak may exacerbate other pre-existing political, social and economic risks in certain countries. Such events could increase volatility and the risk of loss to the value of a Fund's investments.

Share class currency hedging

In respect of the share class currency hedging arrangements for those Funds where Euro Hedged shares, Swiss Franc Hedged shares or US Dollar Hedged shares are in issue, no guarantee can be given that this strategy will be successful in completely eliminating the effects of adverse changes in exchange rates. While it is intended that any hedging transaction should be no larger than is necessary, there is a risk that commitments might be entered into which result in other classes suffering a loss in relation to the hedging.

This hedge on Euro Hedged shares, Swiss Franc Hedged shares or US Dollar Hedged shares may reverse the effect of a hedge placed at the respective Fund level (where, for example, an investment of the Fund is denominated in Euros, Swiss Francs or US Dollars) causing a cost impact upon shareholders in the Euro Hedged share class, Swiss Franc Hedged share class or US Dollar Hedged share class (although the ACD expects any such cost impact to be immaterial).

Share class level risk

While it is not intended to engage in any material investment management or trading activity at share class level within a Fund, other than for currency hedging purposes, it should be noted that any such activity may expose the Fund to cross contamination risk as it may not be possible to ensure (contractually or otherwise) that a counterparty's recourse in any such arrangements is limited to the assets of the relevant class. Due to the lack of asset segregation between share classes, the derivatives used in the currency hedging of a given share class become part of the common pool of assets which introduces potential counterparty and operational risk for all investors in the Fund. This could lead to a risk of contagion (also known as spill-over) to other share classes, some of which might not have any currency hedging in place. Whilst all measures will be taken to mitigate this contagion risk, it cannot be fully eliminated i.e. through the default of a derivative counterparty or through the losses relating to share class specific assets exceeding the value of the respective share class.

Segregated liability

Under the OEIC Regulations, each Fund is a segregated portfolio of assets and those assets can only be used to meet the liabilities of, or claims against, that Fund. Whilst the provisions of the OEIC Regulations provide for segregated liability between funds, the concept segregated liability is relatively new. Accordingly, where claims are brought by local creditors in foreign courts or under foreign law contracts, it is not yet known whether a foreign court would give effect to the segregated liability and cross-investment provisions contained in the OEIC Regulations. Therefore, it is not possible to be certain that the assets of a Fund will always be completely insulated from the liabilities of another Fund of the Company in every circumstance.

Smaller companies

Investing in smaller companies can be more risky than investing in larger companies, because there is a more limited market for the shares, and the share prices may rise or fall more sharply.

Stock Connect Risks

- **Daily Trade Quotas:** Stock Connect is subject to both daily and aggregate quota limitations which, if exceeded, will lead to suspension of trading for that day or other relevant period which may mean that an order to purchase China A Shares cannot be processed. Under the Stock Connect rules a Fund will always be able to sell China A Shares regardless of whether the daily or aggregate quota has been exceeded. The daily or aggregate quotas can be changed from time to time without prior notice.
- **Restrictions on trading days:** Stock Connect will only operate when banks in Hong Kong and the PRC are both open. Due to the differences in trading days, a Fund may be subject to a risk of price fluctuations in China A Shares on a day that the PRC market is open for trading but the Hong Kong market is closed
- **Restrictions on extent of foreign holding of China A Shares:** There are restrictions on the amount of China A Shares which a single foreign investor is permitted to hold and restrictions on the combined holdings of all foreign investors in a single company's China A Shares. Where those limits are reached, no further purchase of those shares will be permitted until the holding is reduced below the threshold and if the thresholds are exceeded, the relevant issuer of the China A Shares may sell those shares to ensure compliance with Chinese law which may mean that the relevant China A Shares are sold at a loss.
- **Risk that beneficial ownership not recognised:** China A Shares traded through Stock Connect are uncertificated and are held in the name of HKSCC or its nominee. HKSCC will provide each Fund with fund specific 'Special Segregated Accounts' ("**SPSA**") which will reference the name of the underlying Fund. The China A Shares held in the SPSA are beneficially owned by a Fund. It is generally understood that PRC laws would recognise a Fund's beneficial ownership of China A Shares traded through Stock Connect, however it should be noted that the exact nature and methods of enforcement of the rights and interests of a Fund under PRC law is not certain and, in the event of a default of ChinaClear, it may not be possible for a Fund's China A Shares to be recovered.
- **Risk that unable to enforce legislation:** It is considered unlikely that ChinaClear will become insolvent but, if it does so, HKSCC is likely to seek to recover any outstanding China A shares from ChinaClear through available legal channels but a Fund may not be able to fully recover its China A shares.
- **Currency risk/currency conversion as shares denominated in RMB:** China A Shares are denominated in RMB and as RMB is not the base currency of the Funds the ACD may have to convert payments from RMB into sterling when realising China A Shares and convert sterling into RMB when purchasing China A Shares. The exchange rate for RMB may be affected by, amongst other things, any exchange control restrictions imposed by the PRC government which may adversely affect the market value of a Fund. In addition, China A Shares traded through Stock Connect have the same day settlement cycle which requires trades to settle on actual trade date. If the conversion from sterling to RMB does not take place on the same day as a purchase trade settles, the Fund could incur a short term bank overdraft.
- **Eligibility of shares for trading on Stock Connect:** The PRC regulations impose certain restrictions on selling and buying of China A Shares. Hence a Fund may not be able to dispose of holdings of China A Shares in a timely manner. Also, a stock may be recalled from the scope of eligible stocks for trading via Stock Connect. This may adversely affect the investment portfolio or strategies of a Fund, for example, when the Investment Adviser wishes to purchase a stock which is recalled from the scope of eligible stocks.

- **Uncertainty of tax position:** The tax treatment of China A Shares is uncertain and particularly whether capital gains tax applies. There is a risk that capital gains realised may be subject to additional taxation in the future.
- **Risk of default of HKSCC:** A Fund's ability to invest through Stock Connect is subject to the performance by HKSCC of its obligations and any failure or delay by HKSCC may result in the failure of settlement or loss of China A Shares.
- **General Market Risk:** Investing in China A Shares involves special considerations and risks, including without limitation greater price volatility, less developed regulatory and legal framework, economic and social and political instability of the stock market in the PRC.
- **Novelty of Stock Connect:** Stock Connect is a programme novel in nature. The relevant regulations are untested and subject to change.

Suspension of dealing

Investors are reminded that in certain circumstances their right to redeem shares may be suspended (see "Suspension of dealings"). A suspension may occur where the ACD (with the agreement of the Depositary) or the Depositary is of the opinion that due to exceptional circumstances it is in the interests of shareholders.

Sustainability risks

Sustainability risk means an environmental, social, or governance ("**ESG**") event or condition, that, if it occurs, could potentially or actually cause a material negative impact on the value of a Fund's investment. Sustainability risks can either represent a risk of their own or have an impact on other risks and may contribute significantly to other risks, such as market risks, operational risks, liquidity risks or counterparty risks. Sustainability risks may have an impact on long-term risk adjusted returns for investors. Assessment of sustainability risks is complex and may be based on ESG data, which is difficult to obtain and incomplete, estimated, out of date or otherwise materially inaccurate. Even when identified, there can be no guarantee that the assessment of this data will produce relevant conclusions.

Taxation

Exemptions, thresholds, regimes and rates of tax may change in future tax years.
